

ABA IN PA PROVIDER DIRECTORY

Applied Behavior Analysis (ABA) can be obtained through a Medical Assistance (MA) approved BHRS/Wraparound agency or through a private agency. Below you will find 2 tables listing ABA providers; one for BHRS/Wraparound providers and one for Private providers. Please note there is a process which needs to be completed to secure a provider. BHRS/Wraparound has a specific process as does the individual Private providers. Please contact the agency/company for specific information. Additionally, you will find a third table listing Social Skills Programming.

TABLE #1: BEHAVIORAL HEALTH REHABILITATION SERVICES (BHRS)/WRAPAROUND PROVIDERS

Please note that we are looking for feedback on your experience with BHRS/Wraparound providers. We understand that BHRS/Wraparound providers offer a variety of service lines and that you need to be **very specific** that you are calling to obtain **ABA** for your child. **Quality ABA programs include BCBA's to oversee your child's care utilizing an evidence based treatment program (such as Verbal Behavior) and data collection which should be taken and reviewed with you ROUTINELY.** If you are not experiencing this please take the time to report your concerns to us via the www.abainpa.com website contact us form and follow the instructions listed under the "ABA THERAPY IN PA" tab (<http://abainpa.com/call-to-action-how-to-get-aba-therapy-in-pennsylvania>)

Glossary of Acronyms

TERM	DESCRIPTION
ABA	ABA stands for Applied Behavioral Analysis. Applied Behavior Analysis (ABA) methodology involves the application of basic behavioral practices (positive reinforcement, repetition, prompting, etc.) to facilitate the development of language, positive skills, and social behavior as well as to help reduce everyday social problems and serious behavior disorders.
BACB	BACB stands for the Behavior Analysis Certification Board. BACB is an independent, nonprofit certification board started to establish standards for what constitutes being qualified to practice Applied Behavior Analysis (ABA) in addition to setting ethical and legal codes to which all BCBA's are bound. Begun in the early 1990s, this credential has quickly swept international boundaries and is now becoming the standard by which insurance companies determine eligibility for payment as an ABA service provider.
BCBA	BCBA stands for Board Certified Behavior Analyst. The BCBA is a graduate-level certification in the field of behavior analysis. Professionals who are certified at the BCBA level are independent practitioners who provide behavior-analytic services. In addition, BCBA's supervise the work of Board Certified Assistant Behavior Analysts (BCaBA's), Registered Behavior Technicians (RBT's), and others who implement behavior-analytic interventions.
BCaBA	BCaBA stands for Board Certified Assistant Behavior Analyst. The BCaBA is an undergraduate-level certification in behavior analysis. Professionals who are certified at the BCaBA level may not practice independently, but must be supervised by someone certified at the BCBA/BCBA-D level. In addition, BCaBA's can supervise the work of Registered Behavior Technicians (RBT's), and others who implement behavior-analytic interventions.
RBT	RBT stands for Registered Behavior Technician. The RBT is a paraprofessional who practices under the close, ongoing supervision of a BCBA or BCaBA. The RBT is primarily responsible for the direct implementation of behavior-analytic services. The RBT does not design intervention or assessment plans. It is the responsibility of the RBT supervisor to determine which tasks an RBT may perform as a function of his or her training, experience, and competence. The BCBA supervising the RBT is responsible for the work performed by the RBT on the cases they are overseeing.
BSC	BSC stands for Behavior Specialist Consultant. The BSC is a lead clinician in provision of Behavioral Health Rehabilitation Services (BHRS)/Wraparound, including initiating entry of the child or adolescent into services, and introduction of involved staff to the family. The BSC is responsible for collaboration and development of the treatment plan with the team, child/adolescent and child or adolescent's family. This includes developing the goals, objectives, methods, persons responsible, target dates and identifying progress. The BSC is a master's level position with certification in a human services field such as Psychology, Social Work, Counseling, etc... Please note, not all BSCs are BCBA's, but a BCBA can be a BSC. This is an important distinction to make. When securing ABA services for your child, the standard is for the BCS to be a BCBA.
MT	MT stands for Mobile Therapist. The MT is an independent contract position and a member of interdisciplinary clinical team in what is known as "wraparound" or Behavioral Health Rehabilitative Services (BHRS). The MT provides individual and family psychotherapy in the home environment, provides insight into family dynamics, provides assistance in the development of adaptive skills in order for the client to take a more positive role in the family, and provides clinical progress notes and development of psychotherapy treatment plans. The MT is a master's level position with certification in a field such as Clinical Psychology, Counseling, Clinical Social Work, etc... Please note, not all MTs are BCBA's, but a BCBA can be a MT. This is an important distinction to make. When securing ABA services for your child, the standard is for the MT to be a BCBA.
TSS	TSS stands for Therapeutic Support Staff. The TSS is trained and educated to provide therapy to people with autism or other emotional support needs. It is a position used within the commonwealth of Pennsylvania. A TSS meets with a child in a one-on-one situation, with family, in public or at school to provide therapy. Please note, not all TSSs are RBTs, but a RBT can be a TSS. This is an important distinction to make. When securing ABA services for your child, the standard is for the TSS to be a RBT.

WHAT TO DO IF YOUR CHILD IS ENROLLED IN MEDICAL ASSISTANCE AND YOU HAVE CONCERNS ABOUT APPLIED BEHAVIORAL ANALYSIS?

If you are having a problem getting Applied Behavioral Analysis (ABA) for your child that you have not been able to resolve with your Behavioral Health Managed Care Organization or the county, you may contact Jill Weaver at 717-409-3791 or ABA@pa.gov.

In addition we offer free legal support for you and your child through Disability Rights of PA. Their website is <https://disabilityrightspa.org/>. You can contact Rachel Mann at rmann@disabilityrightspa.org. Her team can help assist you free of charge as well.
