How does someone become a pro staffer in the outdoor industry in general?

In general, pro staffers with most outdoor organizations have been involved in the industry for most of their lives and have thorough knowledge of hunting and the outdoors. Most have served on the staff of other outdoor industry companies.

Pro staffers build their skills by frequently participating in calling contests, tournaments, and television shows. Their skills also typically include sales and public speaking.

Very few pro staffers make a living hunting. Most have a full-time job in addition to their hunting schedules. However, pro-staffers must have the flexibility to travel as needed for their pro staff duties.

We usually recommend that someone interested in becoming a pro staffer participate in multiple events (such as those sponsored by Rocky Mountain Elk Foundation, Ducks Unlimited, National Wild Turkey Federation, and so on) and meet as many field experts as possible.
