

Important MEd Degree Fee Information

University of Toronto tuition fees policy stipulates that all MEd degree students pay a minimum fee for their degree – referred to as the **Degree Fee**. This minimum fee is calculated at 1.5 times the Fall/Winter, full-time academic fee for the academic year in which you begin your MEd degree program. See exception below*

***Exception: Note the following change as of 2014-15 for the MEd Counselling Program:**

New Program Length = 2 years

The minimum fee for MEd students beginning the Counselling Psychology Program in 2014-15 will be calculated at 2 times the Fall/Winter, full-time academic fee for the academic year in which they begin.

The minimum fee for MEd students who began the Counselling Psychology Program prior to 2014-15 (and for all other MEd programs) remains 1.5 years.

If, at the end of your program, the total amount of academic fees which were charged during the time that you were registered is less than the minimum Degree Fee, you will be required to pay the outstanding balance. This is known as the **Balance Degree Fee (BDF)**.

Below is the minimum Degree Fee which you are required to pay by the end of your MEd degree program, based on the year you began your program. Note that there is no maximum Degree Fee. **International student fees differ**. Please contact your Liaison Officer in the OISE Registrar's Office for information about international Degree Fees.
