## MINIMUM ADVERTISED PRICE POLICY

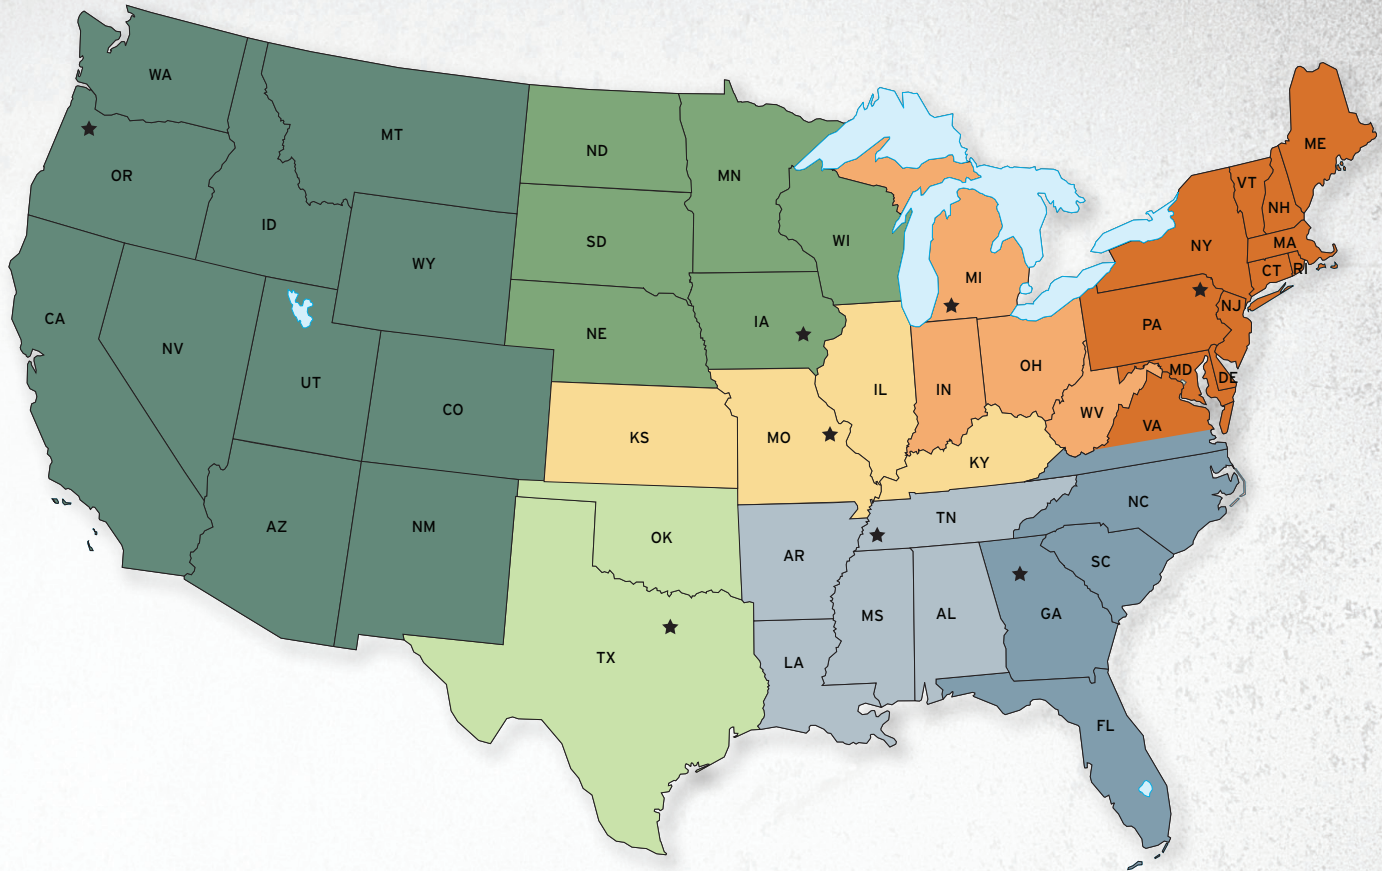

Crimson Trace Corporation (CTC) unilaterally establishes and enforces at its sole discretion a Minimum Advertised Price (MAP) policy on most CTC products. The MAP policy will apply to all U.S. dealers, retailers and distributors. The MAP policy is established to ensure dealers, retailers and distributors have the incentive to invest resources into CTC products, while discouraging price-based advertising that would be detrimental to their sales and support efforts.

The MAP policy shall work under the following guidelines:

1. The MAP for all CTC products shall be no less than what is listed on the current CTC Price List.
2. The MAP policy applies to all advertisements of CTC products in any and all media, including, but not necessarily limited to, flyers, posters, coupons, mailers, inserts, newspapers, magazines, catalogs, mail order catalogs, internet or similar electronic media, television, radio, and public signage. The MAP policy is not applicable to any physical in-store advertising that is not distributed to the customer.
3. Pricing listed on any internet site is considered an "advertised price" and must adhere to the MAP policy. Once the pricing is associated with an actual purchase (an internet order), the price becomes the selling price and is not bound by this MAP policy. Statements such "in-cart price", and "call for price" are acceptable. This also applies to any and all auction and e-commerce sites.
4. MAP applies only to advertised prices and does not apply to the price at which the products are actually sold or offered for sale to an individual consumer within the physical store location of dealers, retailers or distributors, or over the telephone. Dealers, retailers and distributors of CTC products remain free to sell these products at any prices they elect.
5. From time to time CTC may discontinue models or engage in promotions with respect to certain products. In such events, CTC reserves the right to modify or suspend the MAP with respect to the affected products. CTC further reserves the right to unilaterally adjust the MAP with respect to all or certain products anytime at its sole discretion.
6. In the event a dealer, retailer or distributor chooses not to follow the MAP policy, sanctions will be imposed by CTC at its sole discretion. Intentional or repeated failure to abide by this MAP policy may result in termination of dealership or distributorship of CTC products.
7. In its sole discretion, CTC may monitor the advertised price of dealers or distributors, either directly or via the use of third party agencies.
8. No dealer, retailer or distributor has any right to rely on the continued existence of this MAP policy or any effort by CTC to enforce it.
9. This MAP policy has been unilaterally established by CTC to help ensure the legacy of CTC as a top producer of high performance, high quality, professional laser sight products and to protect the reputation of its name and products.
