

## Turner Construction Company Fact Sheet

### History and Services

Turner Construction Company operates out of 46 offices across the United States and in 18 countries. Turner provides construction management services for commercial, residential, retail, transportation, justice, cultural, sports, industrial, pharmaceutical, healthcare, K-12 and higher education projects. With 5,000 personnel, Turner annually completes approximately \$8 billion of construction.

### Core Values - Teamwork, Integrity, Commitment

We remain true to our core values of teamwork, integrity and commitment and are proactive in finding solutions for our clients that best achieve their goals.

### Community Involvement

We participate in and sponsor a variety of programs at the local level from Habitat for Humanity projects to annual canned food drives for the Salvation Army and we continue to support and develop national initiatives such as United Way, YouthForce 2020 and the Ace Mentor program.

### Delivering Our Work Safely

*The Associated General Contractors of America* has recognized Turner as a leader in construction safety. We have a culture that promotes an injury-free environment and provides the safest workplace possible for our employees, subcontractors, clients and others who enter our construction sites.

### Our Commitment to Sustainability

*Engineering News-Record* has recognized Turner as the leader in green building and we have extensive experience across a wide variety of sustainable construction projects. Turner has completed more than 620 green buildings, which represent \$43.5 billion of construction.

### Building Information Modeling (BIM)

With the use of BIM, we are improving the building process and we are able to achieve significant cost and schedule savings for our clients. Turner has completed \$14 billion of construction on 120 projects using BIM. We have 191 projects under construction using BIM.

### Lean Construction

Turner is practicing lean construction techniques such as pull planning, supply chain purchasing, off-site fabrication and just-in-time material delivery on a number of projects nationwide. These techniques help us increase the safety and efficiency of our construction operations, improve the collaboration of our project teams, build confidence in our schedules and increase value to our clients.
