1953-1956 Ford F-Series Truck Aluminum Performance Radiator.

For trucks with inline 6 or later V8. Will Not Work For Flathead.

These COLD-CASE radiators are Tig welded 100 percent aluminum and absolutely beautiful. Don't buy a 3 or 4 row aluminum radiator! It doesn't cool as good as these oversize 2 row models. These radiators are original appearing and have the correct stamping. Once painted, you'd be hard pressed to find a difference over an original versus a COLD-CASE.

Custom Fit Sun Shade by Covercraft

The UVS100 Custom sunscreens not only help reduce the interior temperature when it's hot outside, they also protect the vehicle interior from damaging UV rays that are present all year long. These sunscreens are custom fitted to your vehicle to ensure maximum windshield coverage and ease of installation. Sometimes called heat shields, sun shields or UV shields, sunscreens are useful at the beach, work, airport or anywhere you park. This premium quality, custom patterned folding sunscreen has a silver reflective fabric on the outer side, soft felt on the inside to help protect your interior. **Available in Silver (shown above), Blue Metallic, Gold, Green Ice, or Rose Gold.**
