# 2018-2019 STAAR Accessibility Updates

- For students taking the STAAR grade 4 writing test online, typing the response is an allowable accessibility feature for any grade 4 student who needs the assistance.
- Scientific and graphing calculators may not be used as a calculation aid for grades 3-7 math and science.
- Beginning with the spring 2019 administrations, oral administration of revising passages and items on paper STAAR and STAAR Spanish writing tests (including the writing portion of the English I, English II, and English III tests) is allowable.
- The eligibility for English learners (ELs) to receive an oral administration has changed to read, “The student is a current EL and takes a STAAR test in English.”

# 2018-2019 STAAR Accessibility Updates

- Dictionary applications added to the STAAR Dictionary Policy and allowable for all students taking a reading or writing test.
- Additional online Personal Needs and Preferences (PNPs) and tools available in spring 2019: refreshable braille, signed videos, basic calculator, Spanish with embedded supports, and dictionary tool.
- Only Unified English Braille (UEB) (contracted and uncontracted) available for STAAR braille tests.
- STAAR with Embedded Supports Paper Administration Guides include braille instructions. Separate Specific Braille Instructions (SBIs) for content and language supports is no longer needed.

# Accessibility Within the STAAR Program

- Ensuring that each student can interact appropriately with the content, presentation, and response mode of the test.
- Assessments should allow all test takers to demonstrate their knowledge of the content being tested without the format of the assessment, non-tested language, or the type of response needed to answer the questions being barriers.
- In order to meet this goal, various features and supports are made available on paper and online tests to students who use the same or similar supports during classroom instruction.

- A student may receive this support if served by an ARD committee, Section 504 committee, RTI committee, or student assistance team.
  - If the student is not receiving special education or Section 504 services, the decision should be based on consistent academic struggles in the specific area even after intensive instruction and remediation.
  - If a student is an EL with a disability, the decision is made by the ARD committee in conjunction with the student's LPAC.
  
- Submit an Accommodation Request Form to TEA if the student meets the specified Student Eligibility Criteria listed on the Complex Transcribing Policy document, which includes, "is **UNABLE** to effectively use Basic Transcribing" to address the support needed.
  
- TEA will provide, with any approved Accommodation Request Form, specific guidelines about how to transcribe the student's responses to the writing prompts.
  - TEA provides the procedures for Complex Transcribing on the Accommodation Resources webpage for use in emergency or unexpected situations and for TELPAS.
  - For grades 2–12 TELPAS writing, an Accommodation Request Form **does not** need to be submitted for a student that meets the eligibility criteria for Complex Transcribing.
  
- A test administrator who transcribes for a student must be trained in these guidelines so that he or she understands the boundaries of the assistance being provided.

- A student may receive this support if served by an ARD committee, Section 504 committee, RTI committee, or student assistance team.
  - If the student is not receiving special education or Section 504 services, the decision should be based on consistent academic struggles in the specific area even after intensive instruction and remediation.
  - If a student is an EL with a disability, the decision is made by the ARD committee in conjunction with the student's LPAC.
- Submit an Accommodation Request Form to TEA if the student meets the specified Student Eligibility Criteria listed on the Extra Day Policy document which includes, "is **UNABLE** to effectively use any accessibility features or locally approved designed supports" to address the student's need.
- Receiving an extra day to complete the test is a designated support intended for an extremely small group of students with disabilities who have a TEA-approved Accommodation Request Form.
- Students will only be permitted to test over two regularly scheduled, consecutive school days. Each day of testing must not extend beyond seven hours.
- TEA will provide, with any approved Accommodation Request Form, specific guidelines about how to carry out this designated support.
- TEA provides the procedures for Extra Day on the Accommodation Resources webpage for use in emergency or unexpected situations.
- For students who take a braille test and require an extra day, refer to the "General Instructions for Administering Braille State Assessments." TEA approval is not required.

# Mathematics Scribe

- A student may receive this support if served by an ARD committee, Section 504 committee, RTI committee, or student assistance team.
  - If the student is not receiving special education or Section 504 services the decision should be based on academic struggle in the specific area even after intensive instruction and remediation.
  - If a student is an EL with a disability, the decision is made by the ARD committee in conjunction with the student's LPAC.
- Submit an Accommodation Request Form to TEA if the student meets the specified Student Eligibility Criteria listed on the Mathematics Scribe Policy document which includes, "is **UNABLE** effectively use any accessibility features or locally approved designed supports" to address the student's need.
- The role of the mathematics scribe is to record the student's dictated scratch work and computations exactly as the student indicates.
- TEA will provide, with any approved Accommodation Request Form, specific guidelines about how to carry out this designated support.
- A test administrator who serves as a mathematics scribe must be trained in these guidelines so that he or she understands the boundaries of the assistance being provided.
- TEA provides the procedures for Mathematics Scribe on the Accommodation Resources webpage for use in emergency or unexpected situations.

- An Other TEA- approved designated support is only for students who have unique needs that are not specifically addressed in any accessibility feature or locally-approved designated support.
- If a student requires double-sided test materials photocopied into single-sided sheets because they have a physical disability, or have a disability that necessitates test materials be presented in a printed format other than a test booklet in order to prevent severe behaviors that could interfere with completion of the test, an Accommodation Request Form (ARF) for Other should be submitted to TEA. **These cases should be rare.**
- The district testing coordinator can submit Other requests via the online Accommodation Request Form without contacting TEA first.

# Technology Guidelines and Updates

# Technology Guidelines

- Districts are required to have procedures in place to prevent the use of personal electronic devices during test administrations.
- When districts are using allowed or approved technology, including technology-based accommodations (i.e., accessibility features, designated supports), the following guidelines for test security and validity must be followed to review the technology prior to its use in an assessment.
- Appropriate review requires knowledge of both state curriculum (Texas Essential Knowledge and Skills ) for the specific grade level and subject, as well as the capabilities and functions of the device or software to be used during the assessment.
- Some technology may be useful during a daily academic setting but cannot be used during a state assessment if it has functionality that creates an assessment concern that cannot be addressed.
- District or campus personnel must conduct additional reviews of technology, including technology-based accommodations, after an upgrade or update to determine if it continues to meet TEA guidelines for use during a state assessment.

- For a device or software to be considered appropriate for state assessment use, it must:
  - be set in a mode that locks the user into a specific software program;
  - block the user from accessing functionality that may violate test security, such as
  - the ability to send secure test content (e.g., messages, captured images, videos);
  - the ability to send or receive any person-to-person communication about secure test content (e.g., chat, video);
  - or the ability to save secure test content.

## Technology Guidelines

Districts are required to have procedures in place to prevent the use of personal electronic devices during test administrations. When districts are using allowed or approved technology, including technology-based accommodations (i.e., accessibility features, designated supports), the following guidelines for test security and validity must be followed to review the technology prior to its use in an assessment. Appropriate review requires knowledge of both state curriculum (Texas Essential Knowledge and Skills) for the specific grade level and subject, as well as the capabilities and functions of the device or software to be used during the assessment. Some technology may be useful during a daily academic setting. This technology cannot be used during a state assessment if it has functionality that creates an assessment concern that cannot be addressed. District or campus personnel must conduct additional reviews of technology, including technology-based accommodations, after an upgrade or update to determine if it continues to meet TEA guidelines for use during a state assessment.

### Technology Guidelines

All technology used during state assessments must adhere to the following guidelines. Test administrators must actively monitor the use of the technology, including technology-based accommodations, during an assessment.

For a device or software to be considered appropriate for state assessment use, it must:

- be set in a mode that locks the user into a specific software program;
- block the user from accessing functionality that may violate test security, such as
  - the ability to send secure test content (e.g., messages, captured images, videos);
  - the ability to send or receive any person-to-person communication about secure test content (e.g., chat, video); or
  - the ability to save secure test content.

When using tablet applications, districts must ensure the application does not provide functionality that compromises the curriculum assessed.

A training presentation is available on the [2018 Accommodation Resources](#) webpage to assist districts in making appropriate decisions about technology-based accommodations for students taking state assessments. If you have questions about whether specific technology-based accommodations meet these guidelines, contact the most appropriate person in your district (e.g., technology staff, curriculum staff).

# Technology Updates- Dictionary Policy

- It is important for LPACs to consider the degree to which an EL relies on a dictionary during language arts instruction or testing when making reclassification decisions at the end of the year.

## New for 2019:

- Dictionary applications on a tablet, laptop, or desktop allowable for all students taking a reading or writing test.
- All technology use guidelines must be followed
- Disable features during testing (e.g., access to the camera; browsing capability; access to email, text, social media, or games; ability to view videos, animations, or extensive text to explain a definition)

### STAAR Dictionary Policy

Dictionaries must be available to all students taking:

- STAAR grades 3–8 reading tests
- STAAR grades 4 and 7 writing tests
- STAAR Spanish grades 3–5 reading tests
- STAAR Spanish grade 4 writing test
- STAAR English I, English II, and English III tests

The following types of dictionaries are allowable:

- standard monolingual dictionaries in English or the language most appropriate for the student
- dictionary/thesaurus combinations
- bilingual dictionaries\* (word-to-word translations; no definitions or examples)
- ESL dictionaries\* (definition of an English word using simplified English)
- sign language dictionaries
- picture dictionary

Both paper and electronic dictionaries, including applications on a tablet, laptop, or desktop computer, are permitted. If electronic dictionaries are used by a student during testing, TEA guidelines on the use of this technology must be followed in order to maintain the security and validity of the assessment. Although some technology may be very useful during a daily academic setting, technology that has functionality that violates TEA guidelines cannot be used during a state assessment. The technology guidelines for state assessments, as well as a supplementary training presentation, can be found in the District and Campus Coordinator Resources (DCCR).

While students are working through the tests listed above, they must have access to a dictionary. Students should use the same type of dictionary they routinely use during classroom instruction and classroom testing to the extent allowable. Additional sections in the dictionary (e.g., abbreviations, biographical or geographical entries, style or grammar guides) do not have to be restricted as they are also a part of the dictionary used routinely during classroom instruction. The school may provide dictionaries, or students may bring them from home. Dictionaries may be provided in the language that is most appropriate for the student. However, specialty dictionaries such as teacher-made, student-made, subject-specific, or slang dictionaries are NOT allowed.

The minimum number of dictionaries a school must provide is one dictionary for every five students testing, but the state's recommendation is one for every three students or, optimally, one for each student. Although thesauruses are not required, they are allowable on all the tests listed above, either in combination with a dictionary or as a separate resource. If districts make thesauruses available to students during testing, it is recommended that there be one thesaurus for every five students.

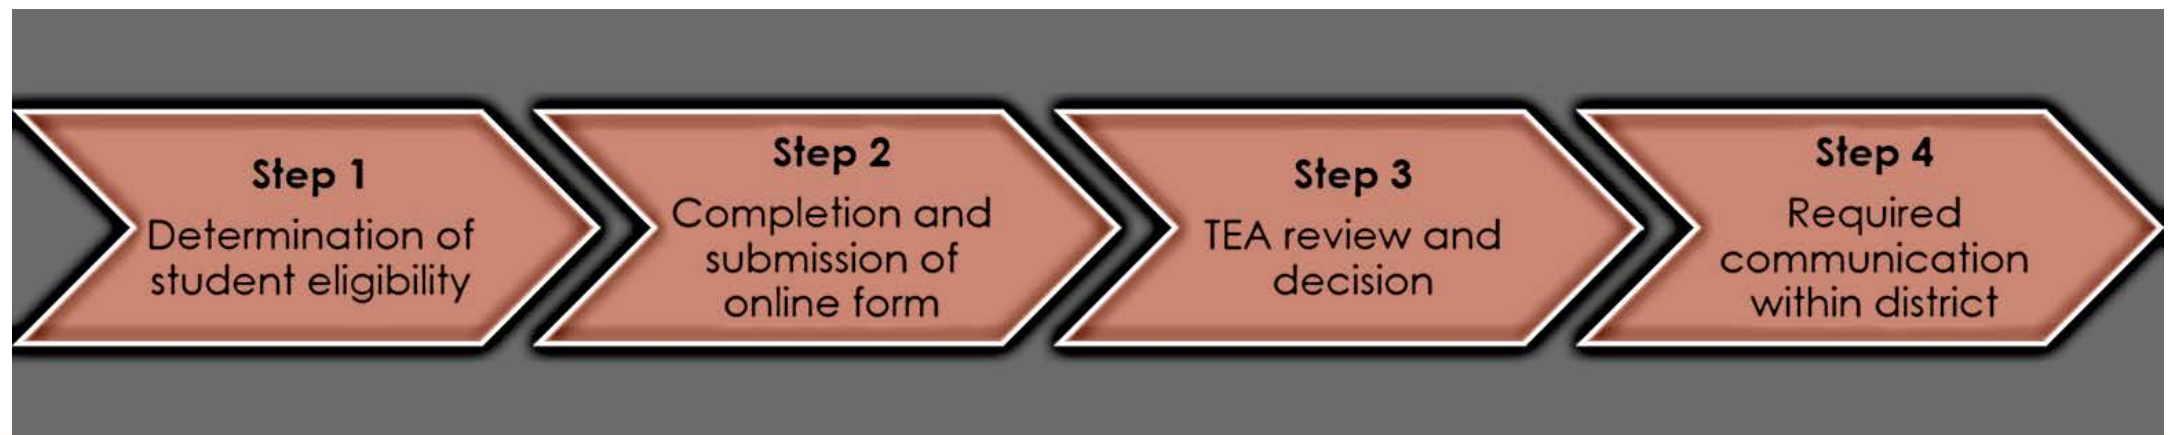

\* Bilingual and ESL dictionaries should be provided in accordance with individual student needs based on how much students use them in instruction and classroom testing. While there is no requirement regarding a minimum number of bilingual or ESL dictionaries schools must provide, for ELs who depend heavily on a dictionary in language arts instruction, it is recommended that there be one dictionary for each student. Additionally, it is important for LPACs to consider the degree to which an EL student relies on a dictionary during language arts instruction or testing when making exit decisions at the end of the year.

# Accommodation Request Process

# The Accommodation Request Process

- Accommodation Request Forms should only be submitted for designated supports requiring TEA approval (i.e., complex transcribing, math scribe, extra day, other).
- The link to the online accommodation request form for 2018-2019 will be on the Accommodation Resources webpage along with a training document.
- Accommodation Request Forms must be received by TEA at least one week prior to testing. Late requests will NOT be processed unless circumstances involving the student change after the deadline. Refer to the submission deadlines document.

# The Accommodation Request Process

- Accommodation requests must be approved by TEA before a student can use the accommodation on a state assessment. Documentation in the appropriate paperwork should state “pending TEA approval.”
- Do **NOT** include confidential student information (request will be deleted and you will be asked to resubmit).
  - Example: student’s first and last name, Social Security numbers, pages from an IEP, medical documents
- The expiration date for all approved requests is June 30<sup>th</sup> of the year the request is approved.
  - For the 2018-2019 school year, the expiration date of approved requests is June 30, 2019.
- The online accommodation request form for 2018-2019 administrations will open in October 2018.
- For the STAAR December 2018 administrations, submit using the 2018-2019 link on the Accommodation Resources webpage when it opens in October.

# Special Administration Request Process

# Special Administration Request Process

- Because English and Spanish Content and Language Supports are embedded PNP accommodations presented in an online format, replicating these features in a paper version is not always possible.
- Technology-based supports enable most students to test online; however, in instances in which the use of an accommodation is not feasible or appropriate, or if the administration of an online test is inappropriate due to a student's particular disability, a special request may be made to TEA for approval to administer a paper test booklet.
  - This process also applies to TELPAS reading.
  - For students taking TELPAS Listening and Speaking, a special request may be made to TEA for approval to assess holistically.

# Special Administration Request Process

- A link to the instructions and request form for a special administration of STAAR with Embedded Supports, STAAR Spanish with Embedded Supports, and TELPAS is posted on the TEA's District and Campus Coordinator Resources webpage.
- All requests must be received by TEA at least two weeks prior to testing. This allows sufficient time for STAAR materials to be ordered and shipped to districts and/or time for TELPAS raters to train and calibrate.
- If a student also needs a designated support requiring a TEA approval, include it on this form. Do NOT submit a separate accommodation request form.

# Special Administration Request Process

- Form will be located on the District and Campus Coordinator Resources webpage under the link of Special Administration of an Online Assessment.
- Form is currently being updated and is due to be open for submissions for the 2018-2019 school year in October.

# Special Administration Request Process: STAAR with Embedded Supports

## New for 2019:

- For students who are eligible for Content and Language Supports and take the braille version of STAAR, including students who access STAAR online with screen reader support for refreshable braille displays, the test administrator will use the paper version of STAAR with Embedded Supports and the appropriate guide to provide these supports. This requires a TEA approval through the Special Administration Request process.
  
- Using the STAAR with Embedded Supports Paper Administration Guide, the test administrator will have instructions on how to provide all accommodations specific to braille test takers. These supports will be indicated in the secured accommodations tables “Content and Language Support” column and identified for the test administrator as “Braille Instructions ONLY.”
  - No longer need separate braille instructions as these are now included in the Paper Administration Guide.

# Accommodations for Special Situations

# Accommodations in Unexpected or Emergency Situations

- When an unexpected or emergency situation (e.g., broken arm, lost eyeglasses) occurs just prior to or on the day of the state assessment, it may or may not be necessary to contact TEA. After testing, document the accommodation used on the answer document or in the STAAR Assessment Management System.
- **Step 1: No need to contact TEA**
  - Make available Accessibility Features which are allowed for any student.
- **Step 2: No need to contact TEA**
  - Make available locally-approved Designated Supports. Consideration should be given to accommodations that the student can independently use.
- **Step 3: Contact TEA**
  - If the student's needs cannot be met with Step 1 or 2, contact a member of the Accommodations Task Force. The district testing coordinator may need to submit an Accommodation Request Form.

# Proctor Codes for Signed Online Administrations

- For students who are deaf or hard-of-hearing who are eligible for
  - Oral/Signed Administration, **AND**
  - Content and Language Supports
  
- Students will take the STAAR online but are not able to access text-to-speech. ASL videos are available as an embedded PNP support; however, these are not available for Content and Language Supports. A test administrator (TA) will need to sign this information for the student. If a student does not use ASL or need signed support for some of the signs in a video, the TA may need to assist with the signing.
  
- A signed administration is allowed for those parts of the test that can be read aloud. Test administrators should be trained using the Oral/Signed Administration Guidelines and also read the specific guidelines for signing test content included in the General Instructions for Administering State Assessments to Students Who are Deaf or Hard of Hearing document.

# Proctor Codes for Signed Online Administrations

- Similar to 2017 and 2018 administrations, proctor codes will be available to district testing coordinators and assistants in the STAAR Assessment Management System to download and distribute to test administrators providing a signed administration of an online STAAR test.
  
- TEA's Student Assessment Division works in conjunction with the Region 11 State Lead for Deaf/Hard of Hearing Services to provide the most current and consistent information to districts about state assessments for students who are deaf or hard of hearing.
  - <https://www.smores.com/p53ab>

# Accommodation Recommendations for Reading and Writing: Impact on Reclassification Criteria for ELs

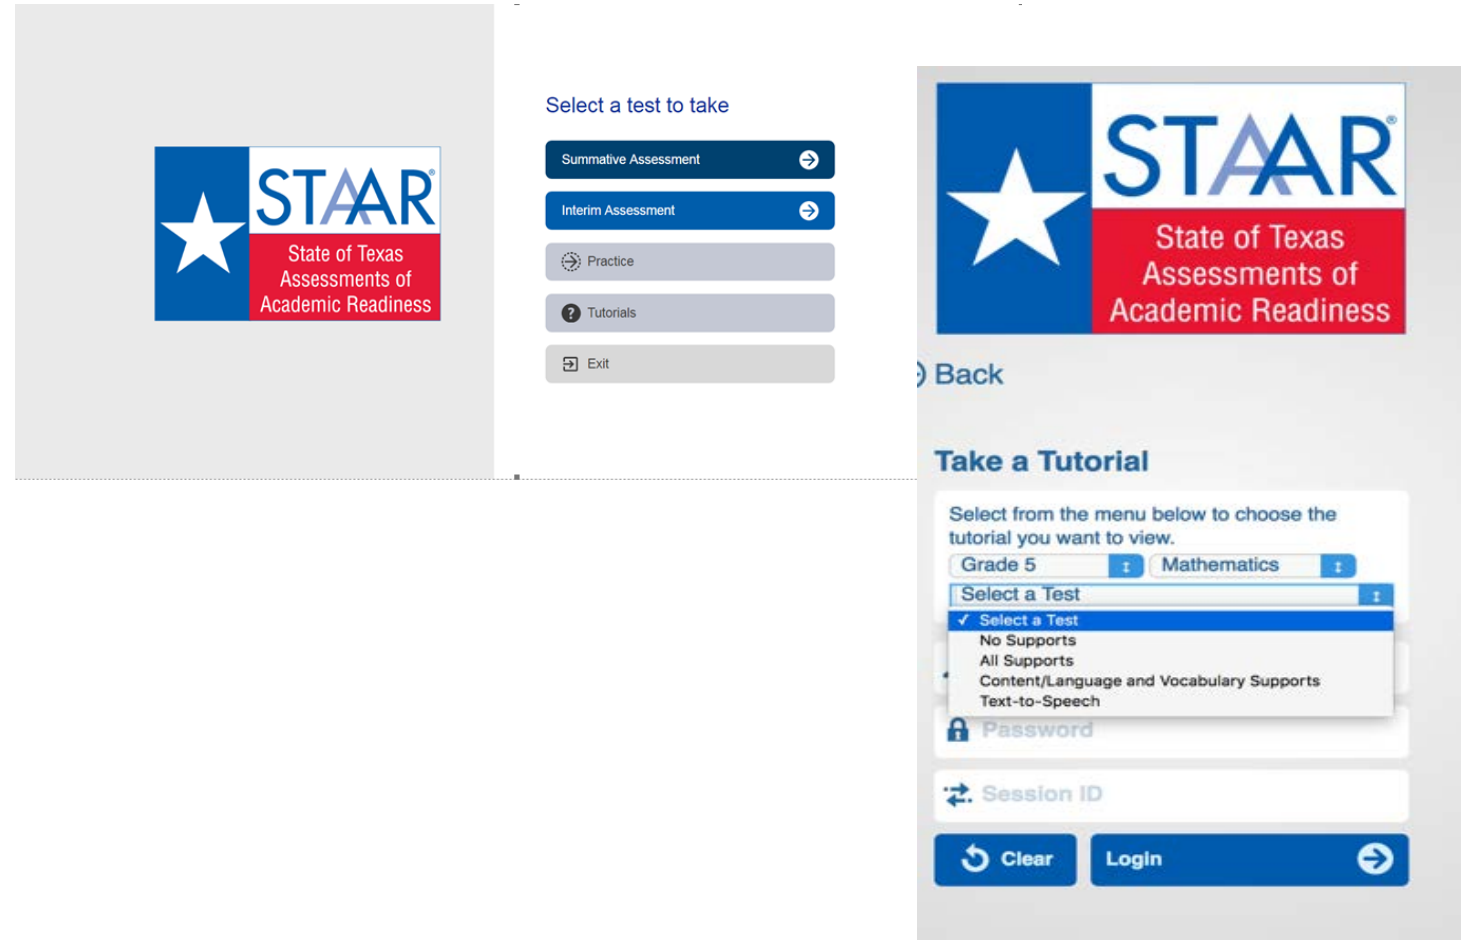

- Students for whom the LPAC recommends the following designated supports for any reading or writing assessment, may not be considered for reclassification at the end of the school year.
  - Oral Administration
  - Content and Language Supports
  - Extra Time
  
- It is important for LPACs to consider the degree to which an EL student relies on a dictionary during language arts instruction or testing when making reclassification decisions at the end of the year.

## STAAR Online Tutorials

- When you open the STAAR online testing platform, you will see a menu of options, including “Tutorials.”
- Once you select “Tutorials,” you will be taken to a screen with several drop-down menus.
- Choose the grade, subject, and test (i.e., available supports) you want to view.

At the top, there is a blue header with the text "STAAR Student Tutorial" on the left and a navigation menu on the right containing icons for Audio, Pause, Help, Logout, Zoom, and Color. The main content area features the STAAR logo, which consists of a blue square with a white star on the left and a red square with the text "State of Texas Assessments of Academic Readiness" on the right. Below the logo, the text "Grade 5 Mathematics Tutorial" is displayed in a bold, black font. At the bottom of the main content area, there is a small copyright notice: "Copyright © 2016, Texas Education Agency. All rights reserved. STAR 2018 Practice Test Grade 8 Reading All PNP Question 1 of 44

Tools: Guideline, Eliminator, Sticky Notes, Pencil

Read the selection and choose the best answer to each question.

*In this selection, the author recalls a devious adventure he and his brother, Kenny, took when they were young children. The boys' mother asks them to go buy groceries from Miss Andrews' store. The author and Kenny have taken their old, monochromatic gray wagon to the store many times, but this time the author has concocted a new plan. The author wants to explore a new street that is off-limits to him and Kenny since it is near the busy Dallas Highway. After the boys buy their groceries from Mr. Byford, they begin their foray, or trip, down the forbidden street. On their way they pass behind businesses and see their house through a vacant, empty lot.*

Read the selection to learn what happens with the boys' adventure beyond Parrish Street.

# New Online Features for 2019

# American Sign Language (ASL)

- Available on STAAR online as a PNP for students eligible for Oral/Signed Administration
- STAAR questions and answer choices are signed in ASL.
- Closed-Captioning is supported in each video.
- Available in all subjects beginning with the spring 2019 administrations.
- A release of a mini practice test is scheduled for late fall 2018
  - Few samples to show of the ASL function online
- ASL is not currently available for Content and Language Supports in 2019.
  - NOTE: Content and Language Supports can still be available for signed users through Oral/Signed Administration. See Oral/Signed Administration Guidelines for procedures. If a student does not use ASL or need signed support for some of the signs in a video, the TA may need to assist with the signing for certain words.

The screenshot shows the STAAR online assessment interface. At the top, it says "STAAR Guest" and "Question 1 of 1". There are icons for Zoom, Color, Help, and Logout. Below that, there are icons for Tools and Pencil. In the top right corner, there are buttons for Clear, Mark for Review, and ASL. The ASL button is circled in red. A blue arrow points from the ASL button to a text box that says "ASL will be present in the upper right corner of a question when this PNP is chosen for a STAAR assessment." The main content of the question is as follows:

1. Margaret opened a new case of lightbulbs.

- The case contained 3 boxes of lightbulbs with 8 lightbulbs in each box.
- Margaret threw 2 of these lightbulbs in the trash because they were damaged.
- Then she took 7 of the lightbulbs out of the case.

Which expression can be used to show that there are 15 lightbulbs still in the case?

(A)  $3 \times 8 - 2 + 7$

(B)  $3(8) - 2(7)$

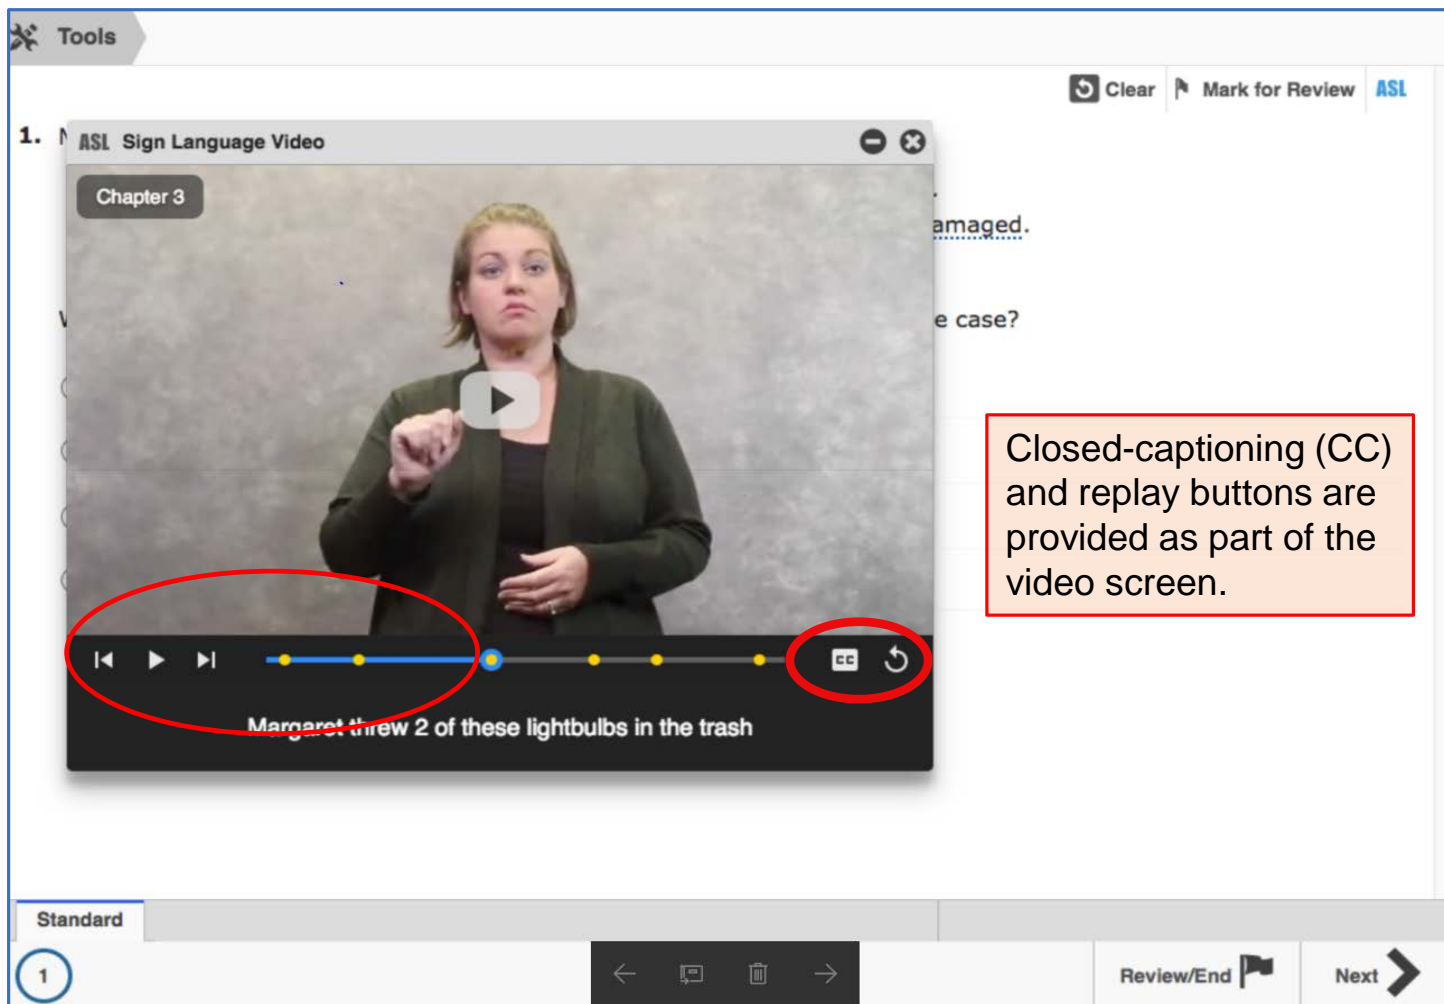

(C)  $3 \times 8 - (2 + 7)$

(D)  $3 + 8 - 2 + 7$

At the bottom of the interface, there is a "Standard" tab, a "1" in a circle, and buttons for "Review/End" and "Next".

# American Sign Language (ASL) Videos

ASL videos will allow students to play, rewind, and fast forward signed videos. Specific chapters, or parts of the question, are marked by dots that appear along the video track. These dots, or chapters, will allow students to go back and review specific parts of the video (e.g., answer choice) as needed.

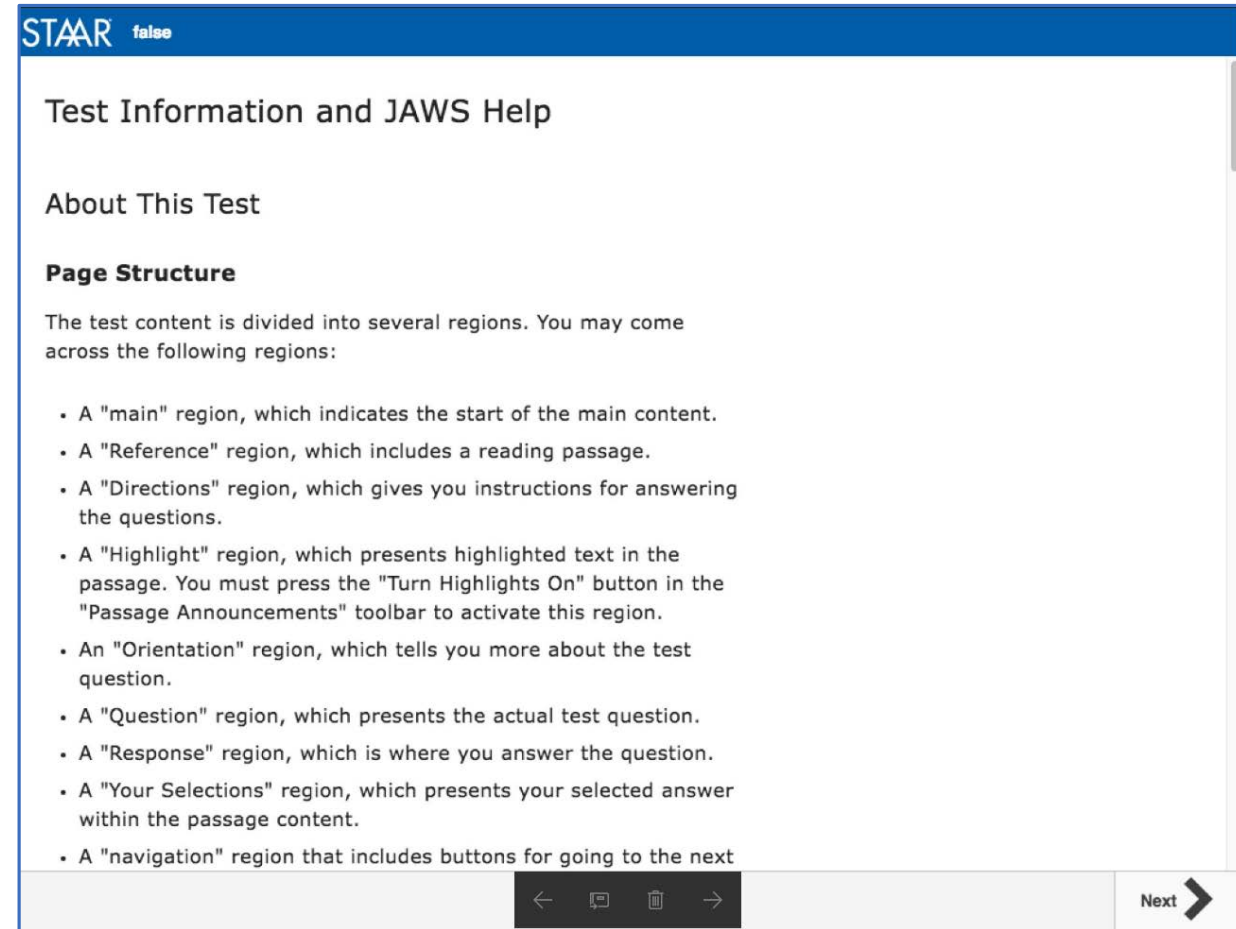

The screenshot shows a video player interface. At the top left, there is a 'Tools' tab. In the top right corner, there are buttons for 'Clear', 'Mark for Review', and 'ASL'. The video player itself is titled '1. ASL Sign Language Video' and has a 'Chapter 3' label. The video content shows a woman signing. A play button is overlaid on the video. Below the video is a progress bar with several yellow dots representing chapters. A red oval highlights the left side of the progress bar, including the play, pause, and stop buttons. Another red oval highlights the 'CC' (closed captions) and 'replay' buttons on the right side of the progress bar. The video player has a subtitle 'Margaret threw 2 of these lightbulbs in the trash'. At the bottom of the interface, there is a 'Standard' tab, a '1' in a circle, and navigation buttons for 'Review/End' and 'Next'.

Closed-captioning (CC) and replay buttons are provided as part of the video screen.
