

# Asking the Right Questions

*Are you confident in evaluating outcomes from teaching, learning and assessment? Are you asking the right questions?*

Due to popular demand, we are delighted to welcome back **Mark Wilson** to guide school leaders and governors through evaluating evidence, accountability, and quality assurance.

**Friday 24th May 2019 - 9.45am – 1.45pm (including lunch)**

**Cost £90 per delegate**

**3 Kyra Credits for Partner Schools**

**Kyra Training Centre, The Priory Pembroke Academy, LN3 4JP**

We would encourage school leaders to attend with a governor:

- The focus will be on evaluating classroom evidence, linking this to your current assessment information, and comparing to external sources of assessment data such as your inspection data summary report .

Also:

- The implications of driving school improvement at all levels of leadership, including governance.
- What evidence base is your school building to justify to governors, for example, the accuracy of your school's self-evaluation?
- How to make the most of the inspection dashboard, triangulating learning, planning, data and daily practice.

**“Leaving with ideas about how I can continue to drive school improvement. Great to attend the session with a school governor”**

**Headteacher 2017**
