

LexisNexis® ProviderLookup®

quick and easy access to the most correct, current, and comprehensive provider information.

Get access to the richest, most reliable source of health care provider information available. Right now.

Looking for complete and trusted information about a Provider? Your life just got a lot easier. Find it fast with LexisNexis® ProviderLookup®, our Web-based, real-time provider information search service. Our easy-to-use, powerful Web search engine lets you query the LexisNexis Master Provider Referential Database (MPRD™) to view the most correct, current and comprehensive profile available for each health care provider.

Get more done. Faster and easier. With ProviderLookup.

Give your staff one source of information and shave time from your research. Whether you're researching new providers, helping claim/service operations, or assisting with credentialing and provider maintenance, ProviderLookup is invaluable.

Provider information you can trust.

In each ProviderLookup search, you can find detailed, accurate and up-to-date demographic data for every provider, including:

- Provider status (e.g., deceased or retired)
- Company names and locations (including address, phone, fax, and verification dates for that location)
- Group and hospital affiliations
- License number, state, type, status, and end date
- DEA number, Business Activity Indicator, and expiration or deactivation date
- Medical school and graduation year
- CMS specialty code
- Taxonomies (including Primary Indicator)
- Sanctions
- NPPES Health Care Provider Data (including NPI number and deactivation date)

Discover the power of the most comprehensive provider database

Over 160 million data records from more than 1,000 verified sources are distilled by the LexisNexis acclaimed AcuSync® algorithms to create detailed, accurate, and timely information on over 6.5 million providers. It's all at your fingertips via our fast, easy-to-use website. All you need is a Web browser, and an Internet connection to find the information you need on practically any provider, just about anywhere, almost any time.

Find the answers you need in a snap with ProviderLookup's simple interface. You can search using many different variables, including Name, UPIN, NPI, or DEA number to get detailed and validated information about a specific doctor, dentist, other health care provider, or their office, or practice.

About LexisNexis® Risk Solutions

LexisNexis Risk Solutions (www.lexisnexis.com/risk/) is a leader in providing essential information that helps customers across industries and government predict, assess and manage risk. Combining cutting-edge technology, unique data and advanced analytics, Risk Solutions provides products and services that address evolving client needs in the risk sector while upholding the highest standards of security and privacy. LexisNexis Risk Solutions is part of Reed Elsevier, a leading global provider of professional information solutions across a number of sectors.

Our health care solutions assist payers, providers and integrators with ensuring appropriate access to health care data and programs, enhancing disease management contact ratios, improving operational processes, and proactively combating fraud, waste and abuse across the continuum.

LexisNexis® ProviderLookup® is not provided by "consumer reporting agencies," as that term is defined in the federal Fair Credit Reporting Act (15 U.S.C. § 1681, et seq.) (FCRA) and do not constitute "consumer reports," as that term is defined in the FCRA. Accordingly, ProviderLookup may not be used in whole or in part as a factor in determining eligibility for credit, insurance, employment or another purpose in connection with which a consumer report may be used under the FCRA. Due to the nature of the origin of public record information, the public records and commercially available data sources used in reports may contain errors. Source data is sometimes reported or entered inaccurately, processed poorly or incorrectly, and is generally not free from defect. This product or service aggregates and reports data, as provided by the public records and commercially available data sources, and is not the source of the data, nor is it a comprehensive compilation of the data. Before relying on any data, it should be independently verified.
