There are many different types of multiplayer games that you can play on Minecraft. Some types of servers are: Survival Servers: In Survival Servers, you have to survive on the land for as long as possible without the knowledge of other players in the world. If another player sees that first person breaking fences and trees and decides they want to claim ownership, they can kill them and then take ownership of that location. In a Survival Server, you will be given an item called "Permission Node" which allows you to see where other players are on the server. These items are very rare and can only be obtained by doing some specific tasks in game such as going through long distances or through many different biomes, etc. Creative Servers: In Creative Servers, players can build anything they want with real-world objects inside the game. There aren't any rules, so you can build anything that your imagination can think of. You can build houses, villages, and even dungeons for people to explore; and if you ever get bored of your creation you can destroy it and start over! Mini Game Servers: These servers are focused on playing mini games in order to win rewards. In a mini game server, there will usually be an objective that the players have to reach in order to win a prize. There are many different types of mini games: Sky Block Servers: Players have to survive on floating islands.",
