**I.**
**Loans**
**IMPORTANT NOTES**

- **Law 128/75 levy:** (a) **Consumer loans / Credit cards / Business Loans / Medium & Large Corporates Loans & Specialized Lending:** Interest rates are augmented by the levy specified in Law 128/1975 (**0,60%** per annum). (b) **Mortgage loans:** Interest rates are augmented by the levy specified in Law 128/1975 (**0,12%** per annum). Exception: Post Credit cards to which the Law 128/75 levy is not applied.
- **Floating rates for fixed term loans:** Interest rates are calculated as the sum of the Base Rate and a fixed spread depending on the type of loan. The base rate is adjusted every month to reflect the change in the Euribor 3m rate. Specific information about the interest period and how interest is calculated is included in the loan agreement in each case.
- **Euribor 3M rate:** The Euribor benchmark rate and historical values can be found on the website [www.euribor-ebf.eu](http://www.euribor-ebf.eu). In addition, information is also available from the Bank of Greece (Bulletin of Conjunctural Indicators) on the website [www.bankofgreece.gr](http://www.bankofgreece.gr). The current Euribor 3m rate is also published in the daily financial press.
- **Special Loan Rates** (interest rate discounts): If appropriate and if the customer meets specific criteria, we offer special interest rate discounts. Several of these can be applied at the same time to the loan's interest rate.
- **Validity of Special Rates:** If one of the criteria used to give an interest rate discount ceases to apply, only the discount associated with that criterion will cease to apply. Failure to consistently keep up monthly loan repayments will entail the total special rate being lost.
- **Interest Computation Basis:** (a) Consumer Loans: Days of the year: 365 / Days of the month: 30/31, (b) Mortgage Loans: Days of the year: 365 / Days of the month: 12 equals of 30,41666 days, (c) Business Loans: Days of the year: 365 / Days of the month: 30/31, (d) Medium & Large Corporates Loans & Specialized Lending: Days of the year: 360 / Days of the month: 30/31.
- **Default:** Overdue debts (principal, interest, expenses) are liable to an extra 2,50% on top of the contractual interest rate. Calculated from the 1st day of arrears on the amount of debt overdue, and compounded every calendar half year.
- **Compounding period start date:** (a) **Consumer loans:** Monthly compounding, on the 1st or 15th day or at the end of each month or at a date corresponding to the disbursement of the loan. (b) **Overdraft / Open Line:** Monthly compounding, can be chosen by customer when submitting the application for financing. (c) **Mortgage loans:** Monthly compounding, 1st working day of each month (d) **SBB:** Monthly / Quarterly / Semiannual compounding, 1st working day of each month (e) **Corporate:** Monthly / Quarterly / Semiannual compounding, can be chosen by customer before the beginning of the new interest period.
- **Early repayment of all or part of the loan:** Loans can be repaid early in whole or in part without the cost of floating rates loans, but the fixed rates loans can be repaid with a penalty, depending on the terms of the loan agreement.
- **Commission – charges:** If applicable, fees for examining loan applications are charged as well as loan management fees and other fees (such as Due Diligence - Technical Inspection Lump Sum Charges of mortgage etc. ) (See the Bank's main price list).
- **FX LOANS:** These loans are offered at the LIBOR rate (plus an agreed spread) and entail a risk of change in the total cost of the loan and amount owed depending on the change in the value of the currency the loan or interest rate are expressed in. In all events the customer can contact the relevant department to learn about available risk mitigation techniques for FX loans and the cost of using them. Other charges, as appropriate.
- **Loan life insurance:** Mortgage loans and loans taken out to meet personal needs secured with collateral can be accompanied by life insurance optionally, excluding some cases which is mandatory.
- For Mortgage Loans and Consumer Loans with collateral, you can receive the "General Information on Mortgages / Consumer Credit Insurance Coverage" which are available at all branches of the Bank.
- If you are interested in a particular loan, you will get personalized and more accurate information through the European Standardized Information Sheet.
- The exact pricing of your loan will be communicated to you with the binding offer you will receive from the Bank, upon the final approval of your loan and prior to the conclusion of the contract.
