

THE WORLD'S SMALLEST GPS PERSONAL LOCATOR BEACON

The new, FCC-approved ResQLink™ is the world's smallest 406 MHz GPS Personal Locator Beacon (PLB). Manufactured by ACR Electronics, this PLB is small (3.9 in) and light (4.6 oz) enough to hold comfortably in one hand yet powerful enough to guide rescuers to within 100 meters or less of the user's position in a life-threatening emergency. It combines ease of use and ACR technology to give boaters a powerful and accurate safety companion, ready for action at the simple push of a button.

With three levels of integrated signal technology—GPS positioning, a powerful 406 MHz signal, and 121.5 MHz homing capability—the ResQLink™, with its reusable antenna, quickly and accurately relays critical emergency position to the Cospas-Sarsat International worldwide network of rescue satellites.

The waterproof ResQLink™ broadcasts a unique registered distress signal that not only tells rescuers where the sender is, but who they are. The onboard 66-channel GPS can quickly fix the sender's position to within 100 meters and then utilizes a powerful 406 MHz signal to relay the distress call to orbiting satellites. As local Search and Rescue is deployed, a separate homing signal and integrated LED strobe light guide rescuers to the sender's exact position.

Two built-in tests allow users to routinely verify that the ResQLink™ is functioning and ready for use—with the push of a button, users can easily test internal electronics and GPS functionality. Add the optional 406Link.com™ subscription service (www.406link.com) and ResQLink™ can simultaneously alert friends and family with a test message and a map of the user's location via text and email.

To celebrate fall boating in tropical South Florida, ACR is offering two spectacular Boat Show specials. Receive a \$99 retail value gift with the purchase of any ACR AquaLink™/SARLink™ or AquaLink™ View/SARLink™ View PLB. The gift includes a 57-piece First Aid Kit and RapidDitch Express abandon ship bag. Select any ACR GlobalFix™ iPRO or PRO EPIRB and receive the same gift plus a Firfly®3 Waterbug Strobe Light and Hot Shot Signal Mirror, a \$208 retail value. These specials are available only through October 31, 2011.
