Related: How to use Sinking funds Which of these free printables are your favorites? We followed Dave Ramsey's plan for more than a year, and make printables to keep us motivated and stay on track was one of my favorite items to do! I am so happy to share with you these free printable worksheets inspired by Dave Ramsey! Do you use free printables to stay on track with your financial goals? Price:Nil! Free! Free! Free! File type:Excel Spreadsheet (.xls & .xlsx) Operating system:Microsoft Windows Software Req'd:MS Excel 2003 or later versions of the file:~98kb (.ZIP) Last update: October, 2018 Current version: 1.5 Macros: What is this? Dave Ramsey fans and readers of his ultra-popular Total Money Makeover will undoubtedly recognize the following calculation sheet configuration: After creating an entire array of budget spreadsheets — the simple budget, box budget, and my popular YM spending plan amongst them — I decided it was time to give Dave Ramsey's followers the opportunity to enter the spreadsheet action. Ramsey's 2003 edition of his workbook Total Money Makeover contains paper forms for what he calls a "Mohtly Cash-Flow Plan". I studied the modules and adapted (hope!) their financial goodness to this Cash-Flow Budget spreadsheet. You can take your free copy below: Spreadsheet Requires2003 or later The Cash-Flow Budget is not an autonomous program. Instead, it is an Excel spreadsheet. This means that it requires that you have Microsoft Excel 2003 or later installed on your computer to make it work. (Unfortunately, no, Microsoft Microsoftis not the same as Microsoft Excel, and will not run Excel spreadsheets.) As for operating system requirements, it should work on Windows XP and all later versions of Windows. OpenOffice users: I have not yet created a version of the Cash-Flow Budget that is designed to work with OpenOffice. Until I can get around to build one, feel free to download the Excel version. OpenOffice Calc and see how it goes. I don't guarantee compatibility! Dave Ramsey & Budgeting In the old days, when people were paid in cash, they took their money and split it into different envelopes. These developments represented the categories in their budgets: food, clothes and anything else he needs. When a particular envelope was empty, they stopped buying that particular article because the money budgeted for the category had gone. So if you wanted a shirt, but the dress bag was empty, you didn't buy your shirt that month. You could guess that financial guru Dave Ramsey, creator of the Baby Steps plan for financial security, is great on budgeting. Actually, you're wrong, because it's actually insisted on the budget. It is, in fact, probably one of the greatest supporters of QUALSIASI budgeting on the planet. (The planet Saturn can have someone on it which is a bigger fan of budgeting, but I can't talk to that.) To be more precise, Ramsey preaches the merits of two types of budgeting: "zero-based" budgeting, and the "develop" spending control system. Correctly done, these two ideas are really intertwined. Zero-based budgeting In zero-based budgeting, each income dollar gets a job. That is to say, at the beginning of each month, you will sit and estimate as best you can only how much income you will receive during the next month. Then, through the use of this spreadsheet (of course!), you will proceedevery dollar on paper before spending it in real life. you will balance every dollar of income towards savings or expenses. when every unexpected income was budgeted towards something, you will be left ZERO. It's a zero budget in a few words. Budgeting Envelopes Some budget categories — such as food, clothing and the "blow money" — are, because of their nature, difficult to budget for ... and perhaps even more difficult to reinstate a budget already created. (Who wouldn't go on board here on food shopping if a freshly made tiramisu came for sale?) For Ramsey, that's where the envelopes come. Once you decide that, let's say, \$200 of this month's income will go towards the expense, then simply put that \$200 in cash in a bag called GROCERIES. When it is time to do food shopping, you take the envelope (or better yet, just some money from it) along with you at the store. When the GROCERY envelope is empty, that's all. No more UNLESS grocery shopping you take money from one of the other categories to compensate for the fall. More details inside! You will find more specific instructions within the spreadsheet; just check the INSTRUCTION worksheet for all things nitty-gritty. Don't be nervous, though. It's not complicated at all! Any questions? Comments? Contact me! Do you have a question or a problem? Don't hesitate - leave me a row. I'll call you back as soon as possible! possible! dave ramsey budget forms pdf. dave ramsey budget forms excel. dave ramsey budget forms printable. dave ramsey budget forms free printable. dave ramsey budget forms free. dave ramsey budget forms download. printable pdf dave ramsey budget forms. template dave ramsey budget forms
