Kathy Duffy

“We went home that night to NO symptoms of pain and discontinued all medications! She is now playing! She is better than normal!”

3 weeks of chasing symptoms with all sorts of drugs, considering MRI and surgery. So far they had no results and were unsure of what was going on. Confused, frustrated, worried...until they saw Dr. Savko. READ what mom had to say about the incredible results after just ONE visit.

“Sophie had surgery to remove a fatty tumor on the back of her neck. All went well, but about a month later she began having severe pain, holding up her front paw and limping, yelping and crying with severe muscle spasms in her chest muscles.

We went through many different medicines to treat everything from seizures to pinched nerve with only minimal relief. The next step would have been costly MRI into possible surgery.

Then our vet recommended trying Dr. Savko. I was skeptical, but would try anything before MRI & surgery.

After one 30 minute treatment that was relaxing and enjoyable for Sophie, we went home that night to NO symptoms of pain so we decided to discontinue all medications! After 1 month, she has not shown one sign of discomfort & we have been given our happy dog back.

Thank you Dr Savko for helping Sophie and being so patient and gentle with her and very thorough with all of your explanations to help us understand her treatment.”

**HEALING, not just treating.

Sandy Brown

Psychic/Medium

I am a psychic medium who is unique in that I use a standard deck of playing cards to help guide me through my readings. I discovered my gift about 25 years ago and thoroughly enjoy the Journey it has taken me on. I look forward to all the new and exciting places, people and experiences this wonderful gift of Spirit continues to bring to me each and every day. My readings can provide information about Spirit Guides, messages from family or friends who have passed over. Information about relationships, past, present and sometimes future. I also have been getting a lot of glimpses into people's past lives and how that may be affecting them today. I am so very blessed that my clients trust me with their Journeys, because in that, I have grown above and beyond any of my wild expectations. Your experiences touch me in a way I will never be able to explain. I am very humbled. Thank you. Love and Light, Sandy

Severe spinal trauma and disc injury for poor Pugsly, no function or movement in his lower body.

Euthanasia or spinal surgery were the ONLY options mom was given for Pugsly. Looking for better advice mom found Animal Healing NOW and after a second opinion with a vet smart enough to know it is SAFE and WISE to work with Dr. Savko, we had Pugsly at 100% in three non invasive, cost effective, and natural visits.

"Dr. Savko is a life saver! I have a 5 month old male Holland Lop bunny named Pugsly. One morning this past December, I found him sitting with his back legs splayed open and he had defecated all over himself with no function or movement in his lower body. Without hesitation I rushed him to an emergency animal hospital!

With a physical exam, but no X-Rays, the Dr. at the ER explained his symptoms were because he had unfortunately somehow suffered spinal trauma. She said my options would be to euthanize him or surgery followed with physical therapy.

Thank God I knew someone who instantly recommended me to Dr. Savko! I went to see a veterinarian who referred me to Dr. Savko and not only did he save me thousands in vet bills, but after only a few sessions Pugsly made a full recovery without any surgery! Extremely grateful for his work and I would highly recommend him!"
