Maryland Department of Labor Releases May Jobs Report

BALTIMORE, MD (June 21, 2019) – The U.S. Department of Labor's Bureau of Labor Statistics (BLS) released state jobs and unemployment data. According to the preliminary survey data, Maryland's unemployment rate held steady at 3.8%. Maryland's total jobs decreased by 1,200 jobs in May. Compared with this time last year, Maryland jobs are up by 15,000 for an over-the-year increase of 0.5%. In addition, Maryland's private sector jobs have risen by 11,800 over the year for an increase of 0.5%. Since Governor Hogan took office, employment in Maryland has increased by 118,000 jobs.

"The Maryland Department of Labor has its finger on the pulse of workforce innovation and is focused on finding creative ways to introduce more Marylanders to new career pathways," said Acting Labor Secretary James E. Rzepkowski. "Exploring new business opportunities such as becoming an apprenticeship sponsor with the Maryland Department of Labor allows employers to identify qualified talent and to expand their future pipeline."

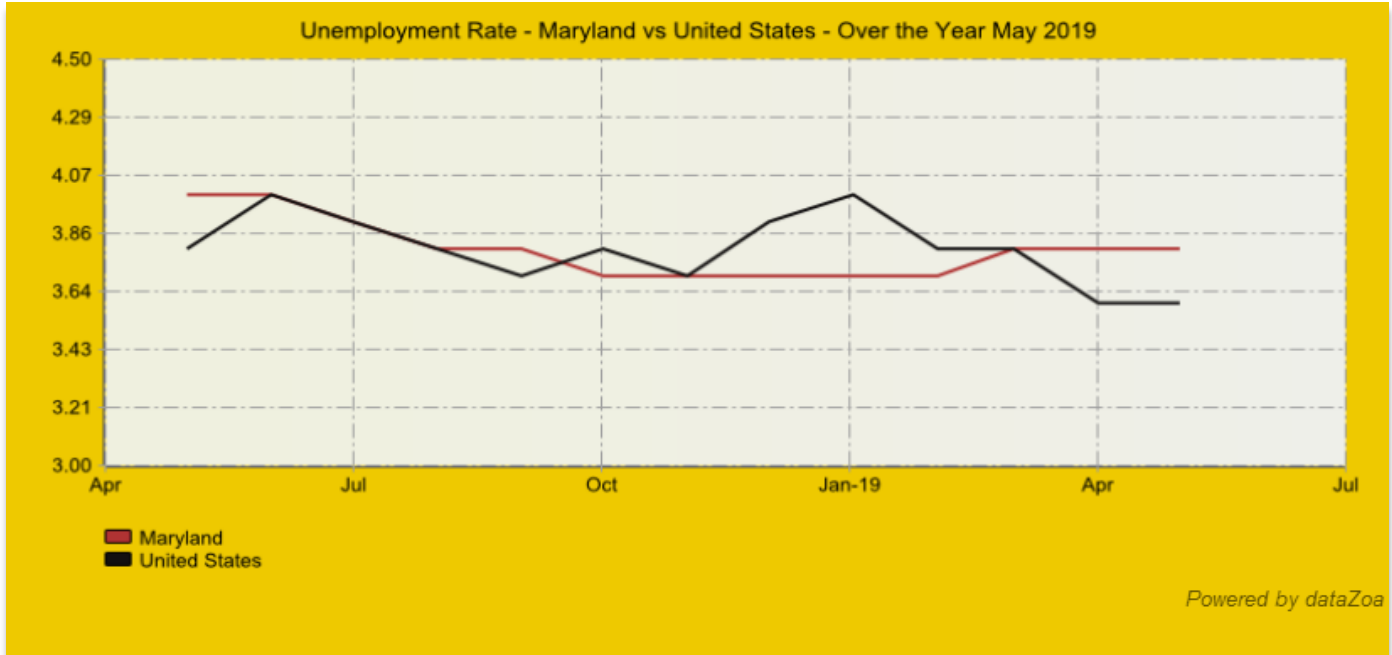

Last month, the Education and health services sector experienced the most growth with an increase of 600 jobs attributed to the Health care and social assistance subsector (1,000 jobs). (This growth was offset by a decrease of 400 jobs in the Educational services subsector.) Other sectors that experienced growth last month include the Professional and business services sector (400 jobs) and the Financial activities sector (200 jobs). The Manufacturing sector remained the same.

Several sectors experienced decline, including the Information sector which decreased by 200 jobs. Other services sector decreased by 200 jobs. The Leisure and hospitality sector decreased by 1,000 jobs across the Arts, entertainment, and recreation subsector (200 jobs) and the Accommodation and food services subsector (800 jobs).

April's preliminary jobs estimate as reported by BLS was revised downwards by 1,200 jobs, from a gain of 1,200 to a report of neither a loss or gain.

Amazon Will Hire More Than 100 Workers in North East

According to the Carrol County Times, Amazon plans to hire 100 workers at its distribution center in North East, the online retail giant said Wednesday. Employees are needed to pick, pack and ship customer orders. Wages start at \$15 an hour, with night shifts available for up to \$16.15 an hour.

New Ugly Produce Company Aims to Bring Fresh Goods to Every ZIP Code

According to the Frederick News-Post, a new ugly produce company might start popping up in Frederick as it expands into the Maryland area. Misfits Market uses a model of selling misshapen or ugly produce to address food insecurity and is set to expand from the Philadelphia area into the D.C., Maryland and Virginia region.

Glossary of Terms

Nonagricultural payroll employment: Employment data referring to persons on establishment payrolls who receive pay for any part of the pay period that includes the 12th of the month. Persons are counted at their place of work rather than at their place of residence; those appearing on more than one payroll are counted on each payroll. Establishments are classified in an industry on the basis of their principal product or activity in accordance with the most recent North American Industry Classification System Manual.

Civilian labor force: All persons 16 years and over in the civilian noninstitutional population classified as either employed or unemployed.

Employed persons: All persons who, during the reference week (the week including the 12th day of the month), (a) did any work as paid employees, worked in their own business or profession or on their own farm, or worked 15 hours or more as unpaid workers in an enterprise operated by a member of their family, or (b) were not working but who had jobs from which they were temporarily absent because of vacation, illness, bad weather, childcare problems, maternity or paternity leave, labor management dispute job training, or other family or personal reasons, whether or not they were paid for the time off or were seeking other jobs. Each employed person is counted only once, even if he or she holds more than one job.

Unemployed persons: All persons who had no employment during the reference week, were available for work, except for temporary illness, and had made specific efforts to find employment some time during the 4-week period ending with the reference week. Persons who were waiting to be recalled to a job from which they had been laid off need not have been looking for work to be classified as unemployed.

Unemployment rate: The ratio of unemployed to the civilian labor force expressed as a percent.

Seasonal adjustment: A statistical technique that eliminates the influences of weather, holidays, the opening and closing of schools, and other recurring seasonal events from economic time series. This permits easier observation and analysis of cyclical, trend, and other nonseasonal movements in the data.
