

The Mitten

Early Learning Printables

{Kindergarten add-on}

Thanks so much for stopping by my site and downloading this file. I hope that you and your child have **MUCH** fun together using this free resource! You can find all of my files and links for this unit on this webpage:

<http://homeschoolcreations.com/TheMittenPrintables.html>

This pack contains early learning printables to use with your child when reading [The Mitten by Jan Brett](#). The first half of the kit focuses on skills for younger children and the second includes pages for more advanced preschoolers or kindergarteners. I would highly recommend printing the activities from this set onto cardstock so that they are sturdier for younger hands.

If you would like to share, please share a link to my blog or to the page that hosts these files. **Please do not link directly to just the PDF files** (the link you are at now). Please feel free to print this pdf file for your own personal use. They were created for private and non-profit use. Please do not sell or host these files anywhere else.

Print, laminate and cut out the cards. Have your child clip a clothespin to the correct number or use a dry erase marker to circle the correct number. I punch a hole in the top left corner of the cards and put them on a jump ring {after mixing up the card numbers} so that they are not in numerical order. You can also make them into a small counting booklet and/or have your child point out the animals that are missing from the mitten.

Directional Words and Word Recognition

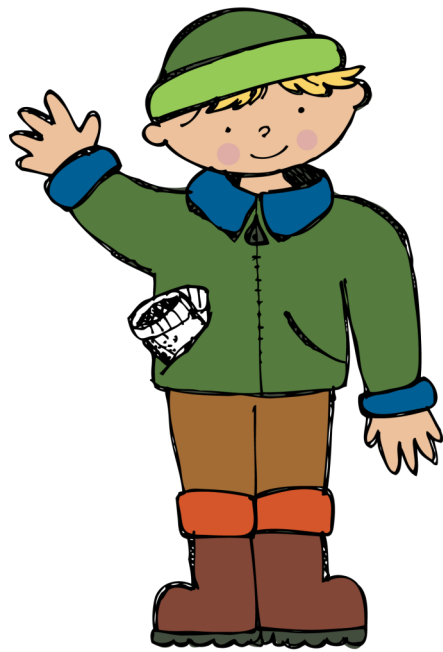

Print out the following pages {a mini-reader of sorts}. Cut each sheet of paper in half and then staple the pages together. Cut out the clip art below and have your child glue the appropriate pieces to the story pages. Use the vocabulary word sheet to help your child identify some of the words in the story if needed.

Where is the Mitten?

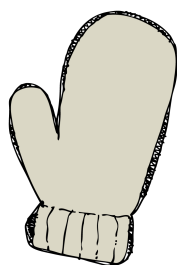

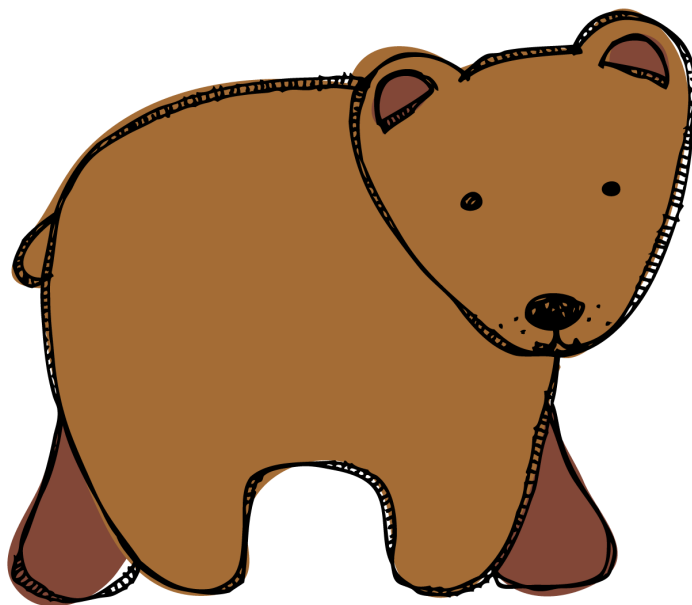

The mitten is **under** the tree.

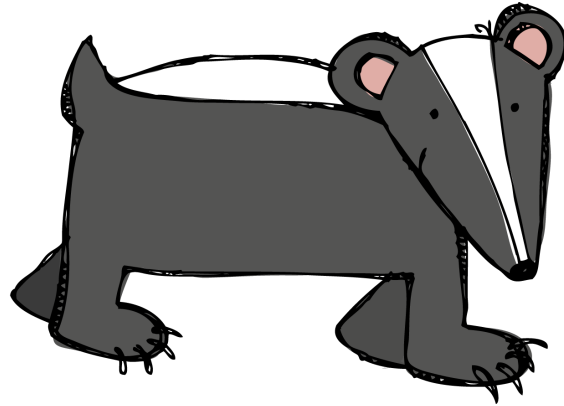

The mitten is **next to** Nicki.

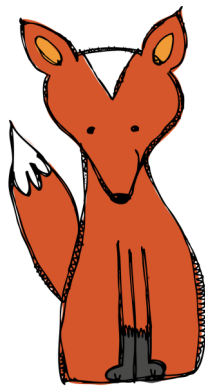

The mitten is **behind** the rabbit.

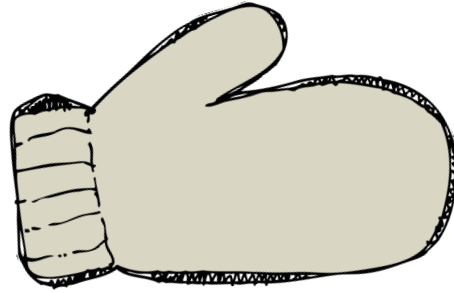

The mitten is **in front of** the bear.

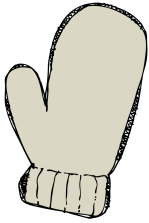

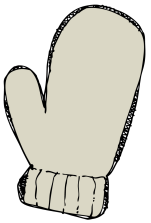

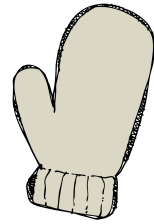

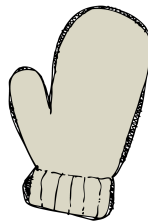

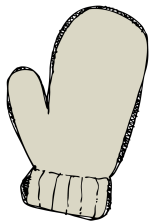

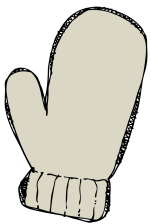

The mitten is **on** the badger.

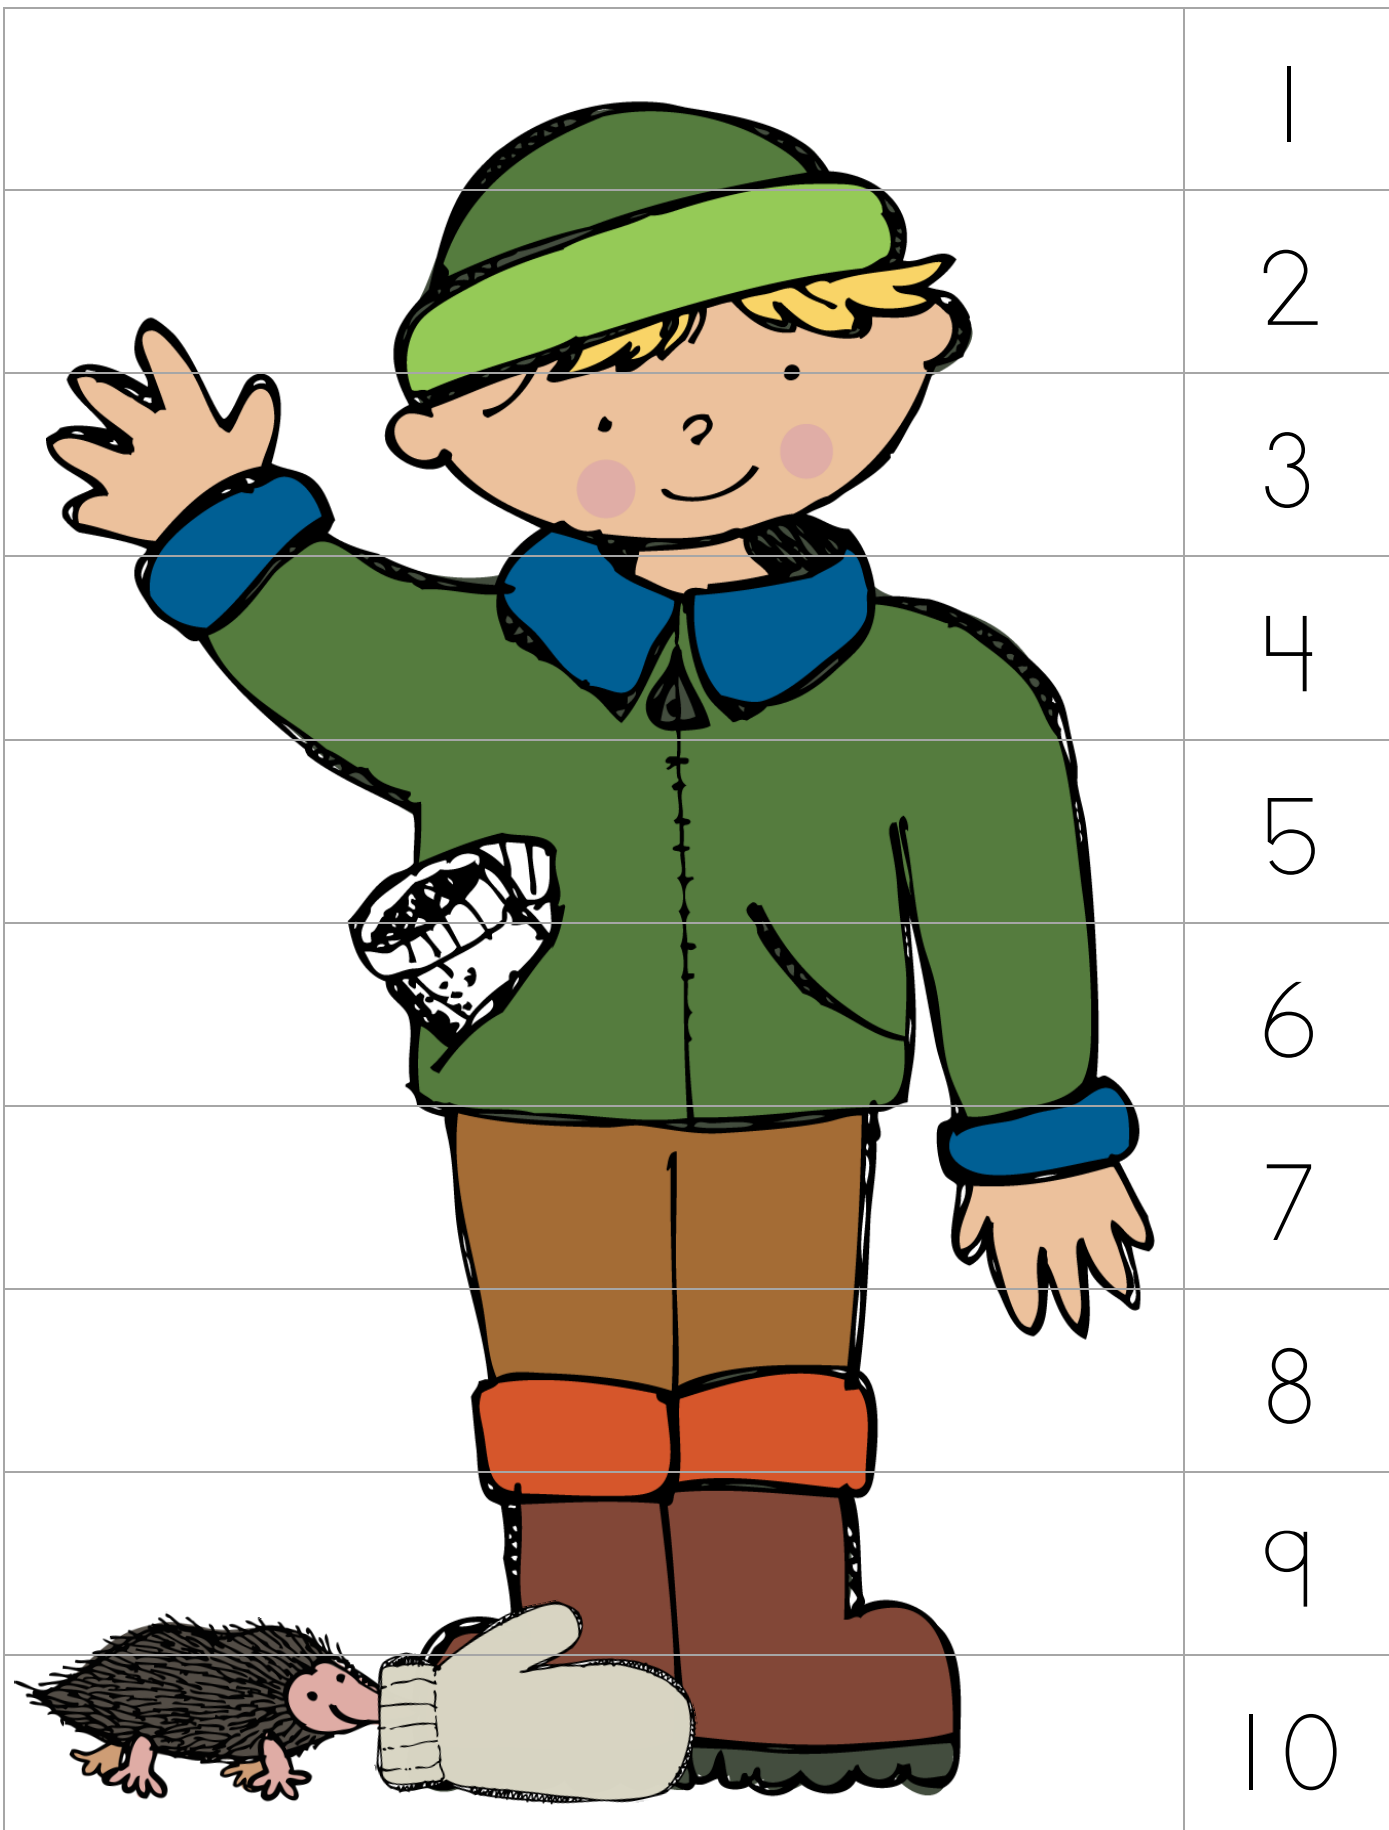

The mitten is **between** the fox and the mole.

The mole is going **into** the mitten.

Print and cut apart puzzle pieces. Leave the numbers on so your child can practice numbering from 1-10 or cut them off and let him have fun figuring out the puzzle!

Sequencing Cards

Cut the cards apart and have your child sequence them in the order that the animals go into Nicki's mitten. Then work on the sequencing of 1st, 2nd, etc...places using either the number cards or the word cards.
