

Multivac University - Kansas City, Missouri 2017 Schedule

Basic Course for Thermoformers

April 24 - 16	August 28 - 30
May 22 - 24	September 11 - 13
June 5 - 7	September 25 - 27
June 19 - 21	October 16 - 18
July 5 - 7	November 6 - 8
July 17 - 19	November 20 - 22
July 31 - August 2	December 4 - 6
August 14 - 16	December 18 - 20

Advance Course for Thermoformers

July 10 - 12 IPCOX	November 13 - 15 IPCOX
August 21 - 23 IPCOX	December 11 - 13 MC9X
September 6 - 8 IPCOX	
September 18 - 20 IPCOX	
October 9 - 11 OPCOX	
October 30 - November IPCOX	

Preventative Maintenance Course for Thermoformers

May 25 - 26	October 19 - 20
June 8 - 9	November 2 - 3
June 29 - 30	November 9 - 10
July 13 - 14	November 16 - 17
July 20 - 21	December 7 - 8
August 3 - 4	December 14 - 15
August 17 - 18	December 21 - 22
August 24 - 25	
August 31 - September 1	
September 14 - 15	
September 21 - 22	
September 28 - 29	
October 12 - 13	

Basic Course for Semi-Automatic Traysealers (T200 - T300)

April 17 - 18	October 2 - 3
June 12 - 13	November 27 - 28
August 7 - 8	

Basic Course for Automatic Traysealers (T600 - T850)

April 19 - 21	October 4 - 6
June 14 - 15	November 29 - December 1
August 9 - 11	

****PLEASE CONTACT OUR TRAINING DEPARTMENT FOR CLASS AVAILABILITY PRIOR TO REGISTRATION****

On site customer training is also available. Please call for details.

Multivac University - Kansas City, Missouri

BASIC TRAINING: THERMOFORMERS

Machine Safety • Web with tolerances and film quality • Adjustment of film unwind systems • MULTIVAC controls/user display • Machine sequence for forming/evacuation/sealing • Adjustment of gripper chain advance system • Overview of die lifting system

Who Should attend: Maintenance technicians and supervisors responsible for package quality and machine operation.

Course Length: 2.5 days

Tuition: \$1,700.00 USD (fee includes course material and lunch at the Multivac facility)

ADVANCED TRAINING: THERMOFORMERS

Machine safety • Review of FFS Packaging Process and MULTIVAC schematics • Tracing MULTIVAC electronic safety circuit • Tracing MULTIVAC power supply • Tracing pneumatics and electronics for die lifting/advance • Relating machine sequence to MULTIVAC schematics • Troubleshooting pneumatics and electronics

Who Should attend: Experienced maintenance technicians and supervisors who have completed our BASIC course

Course Length: 2.5 days

Tuition: \$1,700.00 USD (fee includes course material and lunch at the Multivac facility)

PREVENTATIVE MAINTENANCE TRAINING: THERMOFORMERS

Machine Safety • Maintenance of air & water, unwind systems, chain transport, die lifting system, vacuum pump, vacuum manifold valves, and seal die bladders, springs and seal bar • Checking for proper installation of forming/seal dies

Who Should attend: Maintenance technicians and supervisors responsible for maintenance of MULTIVAC rollstock packaging machines

Course Length: 1.5 days

Tuition: \$1,200.00 USD (fee includes course material and lunch at the Multivac facility)

Multivac University - Kansas City, Missouri

TRAINING COURSE: SEMI-AUTOMATIC TRAYSEALERS (T200 - T300)

Machine safety • Adjustment of film unwind systems • Multivac controls/user display • Overview of tray transport system • Machine sequence for evacuation/sealing and cutting • Overview of die lifting system

Who Should attend: Maintenance technicians and supervisors responsible for package quality and machine operation

Course Length: 1.5 days

Tuition: \$1,200.00 USD (fee includes course material and lunch at the Multivac facility)

TRAINING COURSE: AUTOMATIC TRAY SEALERS (T600 - T850)

Machine safety • Adjustment of film unwind systems • Multivac controls/user display • Overview of tray transport system • Machine sequence for evacuation/sealing and cutting • Overview of die lifting system

Who Should attend: Maintenance technicians and supervisors responsible for package quality and machine operation

Course Length: 2 days

Tuition: \$1,700.00 USD (fee includes course material and lunch at the Multivac facility)

TRAINING COURSE: LABELERS (ML and LC Models)

Definition of all parameters/operation screens on user interface • Setting up parameters for error-free label placement • Tracing of pneumatic and electronic circuits of label placement and operation • Troubleshooting common error messages and mechanical failures • Connecting LC controller to laptop for downloading parameters • Preventative maintenance procedures

Who Should attend: Maintenance technicians and senior operators responsible for set-up, operation and troubleshooting of MULTIVAC ML and LC labeler models

Course Length: 1.5 days

Tuition: \$1,200.00 USD (fee includes course material and lunch at the Multivac facility)
