

AN IDEAL JOB

Write a text describing your ideal job. Write what kind of work it is, why you think you would enjoy it, what kind of skills you need and what talent you would bring to this job. Why do you think it is the ideal job for you.

I would like to be a **farmer** one day and this is my ideal job.

A farmer is a person who lives in the countryside and has a farm. He also works in the fields with grain and vegetables. A farmer works long hours from early in the morning until late. The work is not easy but a farmer is always close to nature and this is what I like most.

There are pros and cons to the job but I think it would be an ideal job for me because I love animals and if you live in a city you can only have a dog or a cat. A farmer doesn't need any special skills but he should have some knowledge about the animals and how to look after them as well as how to grow different plants. The work is not easy but it can bring a lot of satisfaction.

I think I would be a good farmer because my grandparents have a farm and I spend some time with them every summer. I have learnt a lot of things about the work and I am quite good at feeding the animals. And I love riding horses.

The great thing about the job is you are always close to nature. You can spend a lot of time outdoors which I find a lot of fun. I love nature and could not spend the whole day sitting in front of the computer. The office work is not for me.
