APPLICATION FOR PERMIT TO INSTALL OR REINSTALL A BOILER OR PRESSURE VESSEL

A CONTRACTOR MUST RECEIVE A PERMIT PRIOR TO INSTALLING OR REINSTALLING A BOILER OR PRESSURE VESSEL IN THE STATE OF NEVADA.

Applicants must meet the following provisions before a permit to install is issued:

1. The boiler must be constructed to meet the standards of the State of Nevada.
2. Provide with this application copies of the following:

- Manufacturer's Data Report
- Submittal Drawing (Layout or sketch) that shows location of the equipment and clearances (as required)
- Nevada Contractor License
- Code Symbol Stamp (where applicable) for each piece of equipment being installed

The installer will be invoiced for the permit to install once the application is approved. We will no longer accept cash as a form of payment. Acceptable forms of payment are check, cashier's check or money order. The first operating permit will be invoiced separately upon acceptance of the installation.

ALL ITEMS LISTED BELOW AND ON PAGE 2 OF THIS APPLICATION MUST BE COMPLETED.

Owner Name	Phone
<hr/>	
Mailing Address <small>(Street, City, State, Zip)</small>

Pressure vessels, boilers and water heaters for potable water use shall bear the "HLW" Stamp or be separated from the potable water system by a double walled heat exchanger in accordance with NAC 455C.066 - 2. (b), and Appendix L of the Uniform Plumbing Code. A Boiler, Heater or Pressure Vessel will be installed and trimmed according to its code stamping, NAC455C.182-1.

VESSEL DESCRIPTION (Boiler/Water Heater/ Pressure Vessel) *Select from List below		Manufacturer Name	National Board No.	Serial No.	Boiler/Pressure Vessel Size, Volume, Rating			Maximum Allowable W.P.	ASME Code Stamp or CI for Cast Iron
Type	Use				PPH or SQ FT	BTU	GAL or Cubic Foot Volume		

SELECT ONE OF EACH TYPE AND USE FOR EACH OBJECT AND ENTER IN SPACE PROVIDED ABOVE

TYPE
Boiler-Heater/Pressure Vessels

- A. Auto Clave Generator
- B. CI (Cast Iron)
- C. Electric Boiler
- D. Fire Tube Boiler
- E. Fire Jacketed Kettle
- F. Fired Storage Water Heater
- G. High Temperature-Hot Water Generator
- H. Steam Separator
- I. Tankless Water Heater
- J. Thermal Fluid Heater
- K. Tubeless Boiler
- L. Waste Heat Boiler
- M. Water Tube Boiler
- N. Water Tube Heater
- O. Yankee Dryer
- AA. Ammonia Storage Vessel
- BB. Autoclave Pressure Vessel
- CC. Carbon Dioxide Vessel
- DD. Chlorine Storage Vessel
- EE. Condenser Vessel
- FF. De-aeration Vessel
- GG. Expansion Vessel
- HH. Flash Receiver Vessel
- II. Flat Plate Vessel
- JJ. Gas Filter Vessel
- KK. Heat Exchanger Vessel
- LL. Hot Water Storage Vessel
- MM. Methane Storage Vessel
- NN. Pentane Storage Vessel
- OO. Pre-Heater Vessel
- PP. Unfired Steam Kettle

USE
Boiler-Heater/Pressure Vessel

- A. Domestic Hot Water Supply – HLW
- B. Hot Water Heating Supply – H
- C. Hot Water Supply Boiler
- D. Low Pressure Process Boiler
- E. High Pressure Process – Boiler
- F. High Pressure Process – Sterilization
- G. Power Process – Boiler/Generator
- H. Steam Heating – Low Pressure
- I. Pool Hot Water Supply
- AA. Product Cooling Supply
- BB. Product Filtering
- CC. Product Heat Exchange
- DD. Product Heating
- EE. Product Hot Water Supply
- FF. Product Steam Process
- GG. Product Storage
