Cost Savings Opportunities

Fair Fares NYC (*reduce MetroCard cost*)

Fair Fares NYC is a program created by Mayor Bill De Blasio and City Council Speaker Corey Johnson. This program helps to reduce the cost of MetroCards for low income NYC residents living in the 5 Boroughs by 50 percent if they meet the income requirements.

You might be eligible for Fair Fares NYC if you are:

- A resident of the five (5) boroughs of New York City and
- Between the ages of 18 and 64 and
- Not currently participating in any other reduced-fare MetroCard program and
- Either a CUNY student, veteran student, NYCHA resident, or currently employed New Yorker receiving SNAP and/or Cash Assistance from the NYC Human Resources Administration, and also

Your pre-tax annual household income is *at or below* the following limits:

Persons in household	Income
1	$12,490
2	$16,910
3	$21,330
4	$25,750
5	$30,170
6	$34,590
7	$39,010
8	$43,430

(For families/households with more than 8 persons, add $4,420 for each additional person).

If you meet *all* of the above criteria, you *might* be eligible for Fair Fares NYC.

Based on the information provided on this page, if you think you might be eligible for the Fair Fares NYC MetroCard, log on to ACCESS HRA at nyc.gov/accesshra to check your eligibility status or contact 311. If you need assistance or have questions, please call 311.

The 14th Annual CUNY Black Male Initiative Conference

Restorative Justice Education: We Are ALL Justice Involved

Tuesday, October 1, 2019
8:30 a.m. – 7:00 p.m.

Location:
Borough of Manhattan Community College
199 Chambers Street - Main Academic Complex
NY, NY 10007

Speakers:
Shaun King
CEO, The North Star

Talib Kweli
Hip-Hop Artist and Activist

The 14th Annual CUNY BMI conference entitled "Restorative Justice Education: We Are ALL Justice Involved", will feature a morning keynote by world renown activist and advocate, Mr. Shaun King, an afternoon keynote by world famous hip-hop artist and activist, Mr. Talib Kweli. The conference morning panels will specifically discuss historical context of issues that face the re-entry community and higher education transitioning strategies for all ages. The afternoon panels will discuss how advocacy can be transformed into action for college and surrounding communities who experience justice involvement or are justice involved adjacent. The overall theme of the conference will focus on improving cultural sensitivity and engaging the lens of universal precautions to more deeply support all students - because when one person has justice involvement, we are ALL justice involved.

3D Print Fashion

Wednesday, September 25, 2019
Join 3D Print Fashion, in conjunction with Women of Wearables, for a visual presentation and interactive panel dedicated to the future of fashion tech. Learn more about the people behind fashion's most future forward innovations and exciting designs.

How to Regulate Big Tech

Thursday, September 26, 2019

This live roundtable lays out the social and political problems created by Big Tech - particularly the undermining of democracy and privacy. It then focuses on regulatory strategies designed to both protect and strengthen democracy against the most disruptive elements of the digital revolution.

International Pathways: Cities Decarbonizing Buildings

Friday, September 27, 2019

Leading global cities have been widely hailed as driving climate policy and action, and in large cities with mature public transit systems and little heavy industry, buildings are responsible for the large majority of carbon emissions. Finding practical solutions to dramatic energy and carbon reduction from existing buildings is a major challenge, and this program will highlight policies in place in several of the largest cities in the world that have been recognized as leading the way in building climate policy action. The Tokyo Cap & Trade Program, NYC's Climate Mobilization Act, and the Yokohama Smart City Project have been recognized as world-leading policies and will be highlighted in this session.

Cocktails for a Cause

Saturday, September 28, 2019

So what is Cocktails for a Cause? It's an afternoon that brings together young professionals to celebrate Mouse's mission to bring STEM education to the most overlooked schools in the tristate area and beyond. This event is hosted by the Mouse Associated Board, and we're excited to see you there!

Sundays in Brooklyn

Sunday, September 29, 2019

Free office hours for coding help—any programming language, all levels of experience. The format is super simple: you bring a thing you want to learn or a project to build, and work alongside others doing the same. If you have a question, we will do our best to answer, or at least point you in the right direction. Bring your own laptop if you can, or you can use one at the library. More experienced folks are also welcome as mentors.

- [Operations Early Career Program Summer 2020 Intern](#)
- [Data Science Early Career Program Summer 2020 Intern](#)

Technical Digital Marketer at ViaHero

ViaHero helps connect travelers to local travel planners- Heroes- so they can create a lasting and memorable experience. The company is currently looking for a Technical Digital Marketer to join their team. The ideal candidate will have 2 years of data-driven analytics and technical integrations experience as well as a proven record of optimizing marketing campaigns. [Read more about the opportunity and submit an application here.](#)

Junior IT Engineer at Brandwatch

Brandwatch is searching for a new Junior IT Engineer that will be tasked with supporting the internal technical needs of every Brandwatch employee within their NYC office while assisting the rest of the IT team with supporting other employees worldwide. This is a hands-on role and the selected candidate is expected to plug in cables, lift heavy items at times and occasionally use tools. Brandwatch staff will rely on the technical solutions created by the Junior IT Engineer.

Moreover, the Junior IT Engineer is expected to deploy and support those solutions and deliver reliable services to the company's customers. Interested candidates can apply here

Android Developer at goTenna

goTenna is looking to hire an Android Developer with 1-2 years of experience and a degree in Computer Science (BSc/MSc). The chosen candidate will contribute to the design, build, testing, optimization, and maintenance of the goTenna Android mobile apps and goTenna Android SDK. Other responsibilities include collaborating with the firmware and full-stack team, supporting the QA team as well as assisting the product management teams to define, implement and develop new features with the user in mind. Interested candidates can apply here.

Research Assistant at the Federal Reserve for Spring and Summer 2020

The Board of Governors and the 12 Federal Reserve Banks throughout the country are currently recruiting upcoming graduates to fill a number of Research Assistant positions that will become available in spring and summer 2020. The positions are full-time, salaried, and offer full benefits, including tuition assistance. Research Assistants work closely with economists at the top of their fields on a variety of research questions and real-world policy issues while developing a toolkit beneficial for graduate study and future career paths. Research Assistants typically work for two to three years, before going on to competitive graduate programs or pursuing other careers.

Learn more about the opportunity and submit your application here.

Opportunities at HHM

HHM, a hospitality company, is recruiting for A LOT of roles in their hotels in NYC and Westchester. There are currently 50+ openings in the New York metro area. Check them out and apply here.

Opportunities at TMI Trading

TMI Trading's mission is to connect and inspire people through their tasty and innovative Asian foods. TMI Trading is looking to fill the following roles:

- Account Development Assistant
- Branding & Marketing Manager
- Business Analyst
- Business Development Coordinator
- CSR Assistant
- Logistics Coordinator
- Receiving Supervisor
- Warehouse Coordinator

If you are interested in applying, email your resume to Lisa Yu (lisa@tmitrading.com) and list the position in the subject line.

TripAdvisor Entry Level Full Stack Engineer

The TripAdvisor Engineering team is looking for passionate, talented, and resourceful computer science graduates (between December 2019 and August 2020) to join them in their New York City office. TripAdvisor moves quickly and they're seeking individuals who will thrive in their challenging environment. As a full stack engineer you should be just as comfortable creating new pages as you are working on the back-end. Learn more about the opportunities and submit your application here.

Platform Facilitator with Forest Solutions at MoMA

 Forrest Solutions is seeking creative individuals to work onsite at The Department of Education at The Museum of Modern Art. The ideal candidate will have a commitment to inclusion, equity, and diversity as they act as facilitators for the Platform, a new experimental learning space for all visitors ages 10 and up located at the center of the Museum. At the Platform, visitors can explore the art and ideas of our time through art-making experiences, workshops and conversations. Facilitators will be a first point of contact to welcome visitors and support their engagement with self-guided activities, resources, artist installations, scheduled workshops, and other programming during open hours.

Visit here to learn more and to submit an application.

Opportunities at Girls Who Code

Girls Who Code is on a mission to close the gender gap in technology and to change the image of what a programmer looks like and does. They are hiring for a number of non-tech roles in NYC and Internationally to help build and manage their network of partners and operate their training program that prepares high school girls for future careers in software engineering. Apply here for jobs like Partner Engagement Manager, Manager of Community Partnerships and Outreach, or Program Operations Associate for Events.

Full Time and Summer Internship Opportunities at HSBC

CUNY Winternships
DEADLINE: Friday, October 11, 2019

Landing one or more summer internships nearly doubles the likelihood of landing a job within six months of graduating from college. We also know that employers look for internship candidates that have some tech experience on their resumes, so it is a classic Catch-22. If you don't have a 'connection', how do you land that first tech internship? The Winternship, a paid, three-week, mini-internship experience during the January academic recess, is an innovative program that creates a new pathway into those coveted summer internships. In just three weeks, 'Winterns' get immersed in their host company's business and work on a challenge project. Over 80 companies have hosted over 700 Winterns in the last few years and the results have been amazing in terms of launching these young women into tech careers.

JP Morgan Chase's Software Engineering Program (SEP) Internship

Deadline: Applications will be reviewed on a rolling basis until all slots are filled

JP Morgan Chase's Software Engineer Summer Intern Program is a 10-week internship that will provide you the opportunity to learn about their technology business, hone your professional skills, and start your career. Interns work on projects to deliver real solutions for their businesses and clients, building great customer experiences for digital users, or transforming cloud technologies. No matter if you're working on payment solutions or trading algorithms around the world, you'll see tangible results from your work. Successful completion of the internship has the potential to lead to a full-time offer in JPMC's Software Engineer Program.

>>Apply Here

Bank of America Summer 2020 Internships

Scholarships

UK Marshall Scholarship

Marshall Scholarships finance young Americans of high ability to study for a degree in the United Kingdom. Up to forty Scholars are selected each year to study at graduate level at an UK institution in any field of study.

As future leaders, with a lasting understanding of British society, Marshall Scholars strengthen the enduring relationship between the British and American peoples, their governments and their institutions. Marshall Scholars are talented, independent and wide-ranging, and their time as Scholars enhances their intellectual and personal growth. Their direct engagement with Britain through its best academic programmes contributes to their ultimate personal success.

<div align="right">Back to Top</div>

The Fulbright U.S. Student Program

FULBRIGHT The Fulbright U.S. Student Program provides grants for individually designed study/research projects or for English Teaching Assistant Programs. A candidate will submit a Statement of Grant Purpose defining activities to take place during one academic year in a participating country outside the U.S.

During their grants, Fulbrighters will meet, work, live with and learn from the people of the host country, sharing daily experiences. The program facilitates cultural exchange through direct interaction on an individual basis in the classroom, field, home, and in routine tasks, allowing the grantee to gain an appreciation of others' viewpoints and beliefs, the way they do things, and the way they think. Through engagement in the community, the individual will interact with their hosts on a one-to-one basis in an atmosphere of openness, academic integrity, and intellectual freedom, thereby promoting mutual understanding.

<div align="right">Back to Top</div>

The Rhodes Scholarships

The Rhodes Scholarships are the oldest and most celebrated international fellowship awards in the world. Each year 32 young students from the United States are selected as Rhodes Scholars, through a decentralized process representing the 50 states, the District of Columbia, and the U.S. territories. Applicants from more than 320 American colleges and universities have been selected as Rhodes Scholars. In most years, even after a century of competition, a Rhodes Scholar is selected from an institution which has not formerly supplied a successful applicant.

Rhodes Scholars are chosen not only for their outstanding scholarly achievements, but for their character, commitment to others and to the common good, and for their potential for leadership in whatever domains their careers may lead. The Rhodes Trust, a British charity established to honor the will and bequest of Cecil J. Rhodes, provides full financial support for Rhodes Scholars to pursue a degree or degrees at the University of Oxford in the United Kingdom in partnership with the Second Century Founder, John McCall MacBain and other generous benefactors. Upon Cecil Rhodes' death, the scholarships were created in 1902. The first Rhodes Scholars arrived at Oxford in 1903 and the first U.S. Rhodes Scholars entered Oxford in 1904.

Benjamin A. Gilman International Scholarship

The U.S. Department of State's Benjamin A. Gilman International Scholarship is a grant program that enables students of limited financial means to study or intern abroad, thereby gaining skills critical to our national security and economic prosperity. The Institute of International Education has administered the program since its inception in 2001.

The Gilman Scholarship Program broadens the student population that studies and interns abroad by supporting undergraduates who might not otherwise participate due to financial constraints. The program aims to encourage students to study and intern in a diverse array of countries or areas and world regions. The program also encourages students to study languages, especially critical need languages (those deemed important to national security). Veterans of military service are encouraged to apply, and preference is given to veterans when other factors are equivalent. By supporting undergraduate students who have high financial need, the program has been successful in supporting students who have been historically underrepresented in education abroad, including but not limited to first-generation college students, students in STEM (science, technology, engineering, and mathematics) fields, ethnic minority students, students with disabilities, students attending HBCUs (Historically Black Colleges and Universities) or other minority-serving institutions, students attending community colleges, and students coming from U.S. states with less study abroad participation.
