I got 10-15 ukulele books to sample for using with my ukulele choir at church, and this book is the best for them. It's fairly simple for beginners. Nice changes, with minor chords, 7ths and a few diminished chords. Don't get this one if you're a "player" and looking for more spice" than that in terms of chord changes. Great hymns to strum, laid-out well with chord diagrams above. 23 songs, mostly in the keys of C and F: 9 in the key of C 7 in the key of F 4 in the key of G 2 in Dm

This is the book that I'm learning to play the ukulele with... It is so much fun... Every time I get one of these familiar lines right, I just want to learn more... I haven't been able to play everything in this book yet, but I can already say that it is exactly what I wanted when I was looking for a book of songs to begin learning the ukulele with

The songs are great, however, uke tabs are not provided!??

A great collection of well known hymns. Complete chords, melody and words. What else could anyone ask for except there is another volume with more great hymns.

You can be a stay at home hobbyist, or a serious performer. This book will satisfy. Hal Leonard has done it again, brought us music at its best.

Great little book for the beginning uke player. Will instantly allow you to play beautiful old time standards with basic chord skills. Highly recommend

I ordered this book to begin and learn to play as we sing. Very easy to follow, and the music is in good range for voices. Enjoying it!!

These are a delight to sing and play - something familiar for everyone, and not too hard for the beginner. Highly recommend.
