AUTOMATED MATCH SCHEDULING WIZARD

Welcome to the match scheduling wizard.

Instructions:

The menu below will guide you through your tournament match scheduling. After each step is complete, the next step will be linked. Continue until you have completed the last step.

Here you decide how many rounds of each division to play on each day. If you are using more than 1 club, you decide which location to play certain divisions. You have an option of setting time avoidances (blocks a time so a match can't be scheduled) You also have an option to set specific divisions at a certain time and the wizard will schedule around it! The last step allows you to decide the order in which the divisions are scheduled each day. Matches are automatically scheduled as you are setting the division order.

Click on **Set Number of Rounds per day to begin**
