

Additional Off-peak Days (aka "Holidays) July, 2014

All "NERC Additional Off-Peak Holidays" for the Eastern and Western Interconnections 2011-2016 are approved by the NERC Resources Subcommittee. While an exact formula does not exist, recently these six "NERC Additional Off-Peak Holidays" have been selected using the following methods:

Three of these days occur on the same day each year:

- Memorial Day is the last Monday in May.
- Labor Day is the first Monday in September.
- Thanksgiving Day is the fourth Thursday in November.

New Year's Day, Independence Day, and Christmas Day, by definition, are predetermined dates each year. However, in the event that they fall on a Sunday, The "NERC Additional Off-Peak Holiday" is celebrated the Monday immediately following that Sunday. If these days fall on a Saturday, the "NERC Additional Off-Peak Holiday" remains on that Saturday.

On-peak/Off-peak Definitions: The on-peak/off-peak hours used to be defined in NERC's Policy 1, Appendix 1F. However, they were determined to be a business practice rather than a reliability practice so they were moved over to the North American Energy Standards Board (NAESB). They are defined in NAESB's WEQ IIPTF.
