

# International Congregations and Organisations in Leeds

This directory is based on information gathered during the last two years. It includes many international congregations which are predominantly one culture but there a number which are multicultural. The term congregation is used since we believe there is only one church in Leeds which meets in different groupings and locations. There are also fellowships which meet based on a particular language e.g. Farsi. Also included are international social enterprises and creative arts groups. Wherever possible some of the specific projects are mentioned that different congregations and organisations are involved with. We realise that there may be various groups that have not been included. Sometimes this is because of the sensitive nature of their ministry or that they have specifically asked not to be included.

We hope to update this directory every year and if you wish your group to be included, please get in touch with either Steve Besford at [unityinmission@gmail.com](mailto:unityinmission@gmail.com) Mob: 07504 464179: or Paul Lancaster at [paulhftnations@gmail.com](mailto:paulhftnations@gmail.com). Tel:01943 879370

The directory has been produced in conjunction with the "**Direction in Diverse-city?**" report and both together aim to encourage more understanding and partnering together in mission.

Produced by Steve Besford (Unity in Mission) and Paul Lancaster (Hope for the Nations)
