Pistachio & Matcha Bliss Balls

This is a simple and absolutely gorgeous recipe which also makes for a delicious gift. The stunning green colour comes both from the pistachios and also the Zen Green Tea matcha powder.

INGREDIENTS

- 1 teaspoon Zen Green Tea matcha
- 1/2 cup raw cashew nuts
- 1/2 cup unsweetened desiccated coconut
- 2 x 20ml tablespoons almond meal
- 2 x 20ml tablespoons coconut flour
- 2 x 20ml tablespoons water
- 2 x 20ml tablespoons rice malt syrup
- 1 x 20ml tablespoon extra-virgin coconut oil, melted
- 1/4 cup shelled pistachio nuts, chopped

PROCEDURE

1. In a food processor, blend the cashew nuts, coconut, almond meal, coconut flour and Zen Green Tea matcha powder until you get the texture of fine crumbs.
2. Add the water, rice malt syrup and melted coconut oil and blend until everything is well combined. The mixture should be sticky enough to hold together, but not so sticky that you can't roll it into balls. If the mixture is too sticky, add a tiny bit more coconut flour. If it's too dry, add a touch more water.
3. Roll the mixture into balls and coat in the chopped pistachio nuts, pressing the nuts lightly into the balls to make them stay. Leave the balls in the fridge to set. Store in the fridge in an airtight container.

Strawberry, Oat and Matcha Muffin

This is one of my all time favourite matcha recipes by Thirsty for Tea. The muffins are deliciously moist.

INGREDIENTS

1 cup old-fashioned oats
2 1/4 cups all-purpose flour
2/3 cups sugar
1 Tbsp baking powder
2 Tbsp Zen Green Tea matcha, sifted
1/2 tsp salt
1 1/4 cup milk (I used unsweetened almond milk)
2 tsp vanilla extract
2 eggs, beaten
6 oz container of non-fat Greek yogurt
1/3 cup coconut oil, in liquid state
1 lb organic strawberries, diced into 1/4" pieces

Con'd..
Non-stick spray
sanding sugar, to finish (optional)

Equipment:
2 mixing bowls
mixing spoon
2- 12 cavity standard muffin tins
16 cupcake liners
ice cream scoop (optional)
toothpick
cooling rack

PROCEDURE

1. Preheat the oven to 200 degrees Celsius. Place 8 cupcake liners in each tin, then lightly spray a coating of non-stick spray on them.
2. In one mixing bowl, mix together all the dry ingredients. In another mixing bowl, mix together all the wet ingredients. Slowly mix the wet ingredients into the dry until just mixed through. Gently mix in the diced strawberries. Use a spoon or ice cream scoop to fill the liners until the batter is just shy of the top rim of the liner (pretty much to the top). Sprinkle the tops with sanding sugar for a crunchy muffin crust.
3. Bake the muffins at 200 degrees Celsius for the first 10 minutes, then lower the heat to 80 degrees Celsius for approximately another 12-15 minutes until the tops are very lightly golden and a toothpick comes out clean. When the muffins are cool enough to handle, transfer them to a cooling rack. If you serve the muffins immediately they may tend to stick to the liners. Wait until they cool completely and they should easily release.

Two Ingredient Nice Cream

Another beautiful and easy nice cream recipe

INGREDIENTS

2 large (or 3 small) bananas, peeled, cut into chunks, and then frozen in a freezer bag
1 tsp Zen Green Tea matcha powder

PROCEDURE

1. Place banana chunks into a food processor fitted with the S blade and turn machine on. Let the motor run until the bananas have a super creamy texture, just like soft serve ice cream. It might take a little time and the processor may make loud noises but it will work – don't worry :)
2. After the bananas become creamy, add Zen Green Tea matcha powder and blend. Serve immediately. Makes 2-3 servings. Leftover can be refrozen and then re-blended for a perfect texture. I love to serve topped with fresh summer berries!
You can make an amazing array of flavours too for example vanilla bean, orange peel and cacao:)

The matcha will give you an amazing energy kick and it's packed full of antioxidants

Matcha Energy Drink

Matcha is a natural energy booster!

The scope and scale of “energy” drinks on the market today never cease to amaze me. They’re everywhere, in local markets, gas station minimarts, supermarket chains, department stores, even in vending machines.

Why do people buy these things? They contain so many controversial ingredients – taurine, theophylline, theobromine – and are known to interfere with sleep, and are associated with all kinds of health problems. Red Bull, Monster, and Rock Star: the marketing is mind-boggling.

I suspect it’s really the caffeine blast in them that makes them “work”. Then again all the added sugar in them is always good for a quick-but detrimental-energy boost.

For a real energy drink on the go, just fill a water bottle most of the way with icy cold filtered water, add a teaspoon or so of Zen Green Tea matcha, and shake it vigorously. Voila! You can also do it in a blender with ice (my preferred method). You can then keep it in your purse/bag, take it in the car with you, or take it on your bike ride or to the gym. I keep a small supply of them in the fridge. Just be sure to shake up well before sipping (matcha never fully dissolves; it will eventually settle at the bottom of the bottle). It keeps its vibrancy, flavour, and colour for a few days. Adding a splash of lemon juice/yuzu juice can be nice, too.

The killer combo of l-theanine and small amounts (25mg) of caffeine found in matcha will give you more energy than you know what to do with. You’ll never go back to purchasing fake industrial drinks.

Matcha and Raspberry Friands

This is a Japanese inspired version of one of my favourite tea cakes. I love how the cake is moist and flavourful. You need quite a bit of matcha powder for the flavour and the colour to come through. Raspberries go well with the matcha - it's like the unexpected kick in acidity.

INGREDIENTS

95g unsalted butter, cubed
135g egg whites
150g granulated sugar
100g almond meal
60g flour
12g Zen Green Tea matcha
pinch of salt
Optional: Fresh/frozen raspberries

PROCEDURE

1. Grease your muffin tins thoroughly with butter and dust flour sparingly over it.
2. Heat the butter in a pan over low-medium fire and allow it to cook until it is golden brown in colour. Turn off the fire and take it off the heat once it is golden brown, otherwise, it will go from golden brown to black very quickly. Allow to cool to room temperature while you prepare the rest of the ingredients.
3. In a bowl, place sugar, flour and ground almond, matcha powder and salt together. Whisk the dry ingredients a little. Add in the (cooled) butter (including the brown sediments) and whisk to combine.
4. Add in the egg whites slowly while whisking till incorporated. You do not need to create too much volume in the egg whites. I do all this by hand as you just need the batter to come together.
5. Spoon the friands batter into the greased muffin moulds. Place a raspberry into the centre of the friand. Bake in a 190 degrees preheated oven for about 15 minutes, or until it springs back to touch.
6. Allow it to cool slightly in the muffin tins before unmoulding. Cool them completely on wire racks before serving.

Matcha Truffles

These little gems take only a few minutes of prep time, some cooling down time in the fridge, then a few more minutes to shape the chocolate into balls. Wrapped up in a pretty box, they make beautiful gifts for friends. Makes about 50 truffles.

INGREDIENTS

225 grams of heavy cream
¼ cup maple syrup
2 tablespoons brown sugar
1 tablespoon Zen Green Tea Matcha, plus another tablespoon for dusting
340 grams bittersweet chocolate, chopped finely
Pinch of Matcha Salt or kosher salt

PROCEDURE

1. Bring cream to a simmer in a small saucepan over gentle heat, add the maple syrup and brown sugar, and stir until dissolved, about 2 minutes. Add 1 tablespoon of matcha, stir until dissolved, and set aside.
2. Place the chocolate in a large mixing bowl and pour in the cream mixture. Mix thoroughly, and pour into a baking sheet lined with parchment paper. Smooth it out with a rubber spatula. Cool in the refrigerator for about an hour.
3. Using a spoon, scoop out a heaping teaspoon, and make a ball using the palms of your hands. Repeat until all the chocolate is used –you should wind up with about 50 truffles. Line them up on a tray or plate, and dust them with the additional matcha, using a fine sieve. Top with a very light sprinkling of matcha.
