Do you have senior status?

If you will complete or have completed at least 25 years as a certificated educator in a public or approved non-public professional school service (educator must have met the minimum requirements to be an instructional teacher in a nonpublic school as provided in COMAR 13A.09.09.06(B)), or if you are or will be at least 55 years of age any time within the validity dates of this certificate, you may qualify for senior status. Acceptance of senior status is determined by your employer and remains in affect only while you are employed by a local Maryland school system, nonpublic facility, or state institution that recognizes and accepts this allowance. Once you terminate your employment, the senior status no longer applies and you must complete the appropriate requirements.
