Important points to consider at the time to proceed the wire in order to make it easier.

It must be processed as a domestic wire from your bank in USA to the Bank of New York Mellon located in N.Y.

InterCam is the account holder at the Bank of New York Mellon. So, first of all, it must be sent to the InterCam's account which is: **8901137952** and you probably would need the ABA Routing number: **021000018**.

Then, it is very important that my name **ALDEMARO JOSE GARCES FLORES** appears as the final beneficiary and the following reference number **00104433479** as well.

Please, it is important after sending the wire transfer send me an email with the bank confirmation.

Thank you.
