

EQUIPMENT TRAINING BUSINESS FOR SALE BY OWNER

RETIRING AFTER 25 YEARS IN BUSINESS

If you are a heavy equipment trainer or a senior operator with at least 10 years' equipment operating experience and can competently operate at least 5 key items of equipment plus have forklift and aerial lift training and/or operating experience, **I have an excellent ready-made business for you.** It would also be an advantage if you are an accredited NCCER (National Center for Construction Education and Research) and or NCCCO (National Commission for the Certification of Crane Operators) instructor or operator capable of obtaining these credentials.

This opportunity may also be of interest to an company who wishes to expand into the lucrative heavy equipment safety and training market.

With this business you can work from anywhere. **National or International** opportunities are available if you are willing to travel. If you are prepared to work hard and take this business to the next level, the financial rewards can be great. I have International connections and established business opportunities in many states and as far as North Dakota.

The existing business has tremendous potential for further expansion. The present market for independent trainers who offer training, testing and certification on heavy equipment, forklifts and aerial lift equipment is excellent due to the upturn in the economy. Therefore, the time is right to make a move into an already existing business and start earning right away.

Business assets included are website, PowerPoint presentations, and manufacturer safety and operational DVD's by Caterpillar, John Deere, National Safety Compliance and more. Other items included are present and past client lists with full contact details, projector and screen.

Most of the PowerPoint presentations have been designed by me for clients and specific training programs that are not available on the market today.

Training Offered to Clients Includes:

- Heavy Equipment (backhoe, dozer, excavator, skid steer loader and more).
- Forklift (all seven OSHA classifications).
- Aerial Lift (manlift and scissor lift).
- Special Safety Presentations (PowerPoint).
- Special Equipment Maintenance Presentations (PowerPoint).
- Train the Trainer.
- Operator Performance Evaluations and Testing for all equipment.
- Crane Training to NCCER and NCCCO Standards (sub-contracted to third party).
- Rigging (sub-contracted to third party).

Client base includes:

- City and Parish DPW's.
- Contractors – Road Construction and Road Maintenance Contractors.
- General Site Development Contractors.
- Landfill Operations.

- Mechanical Plant Services Contractors.
- Technical Colleges.
- Refineries and Process Plants.
- Equipment Rental and Hire Companies.
- Local Technical Assistance Programs (Louisiana and North Dakota).

The list provided will include current and past clients.

All training provided meets or exceeds the following standards:

- NCCER, OSHA, MSHA, ANSI, NCCCO and Equipment Manufacturers Recommended Operational Standards and Best Practices.

Price upon application.

DON'T MISS OUT ON THIS GREAT OPPORTUNITY TO OWN YOUR OWN BUSINESS.
