Print | Share

There are two ways to change your network name and password

With the Xfinity My Account app

Online at xfinity.com/myaccount

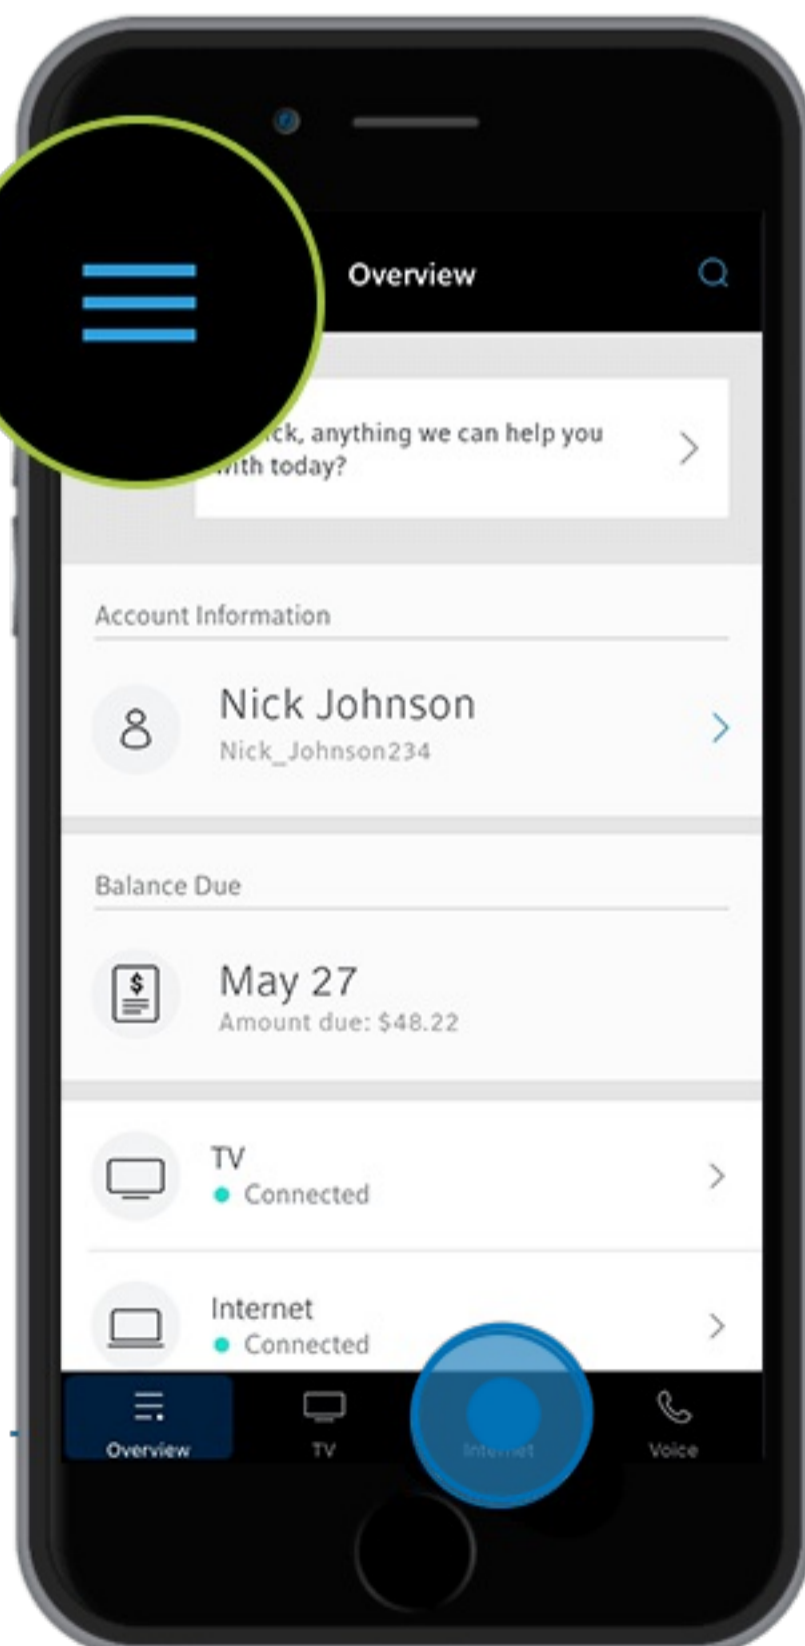

You may need your **Xfinity username and password** to log in.

1

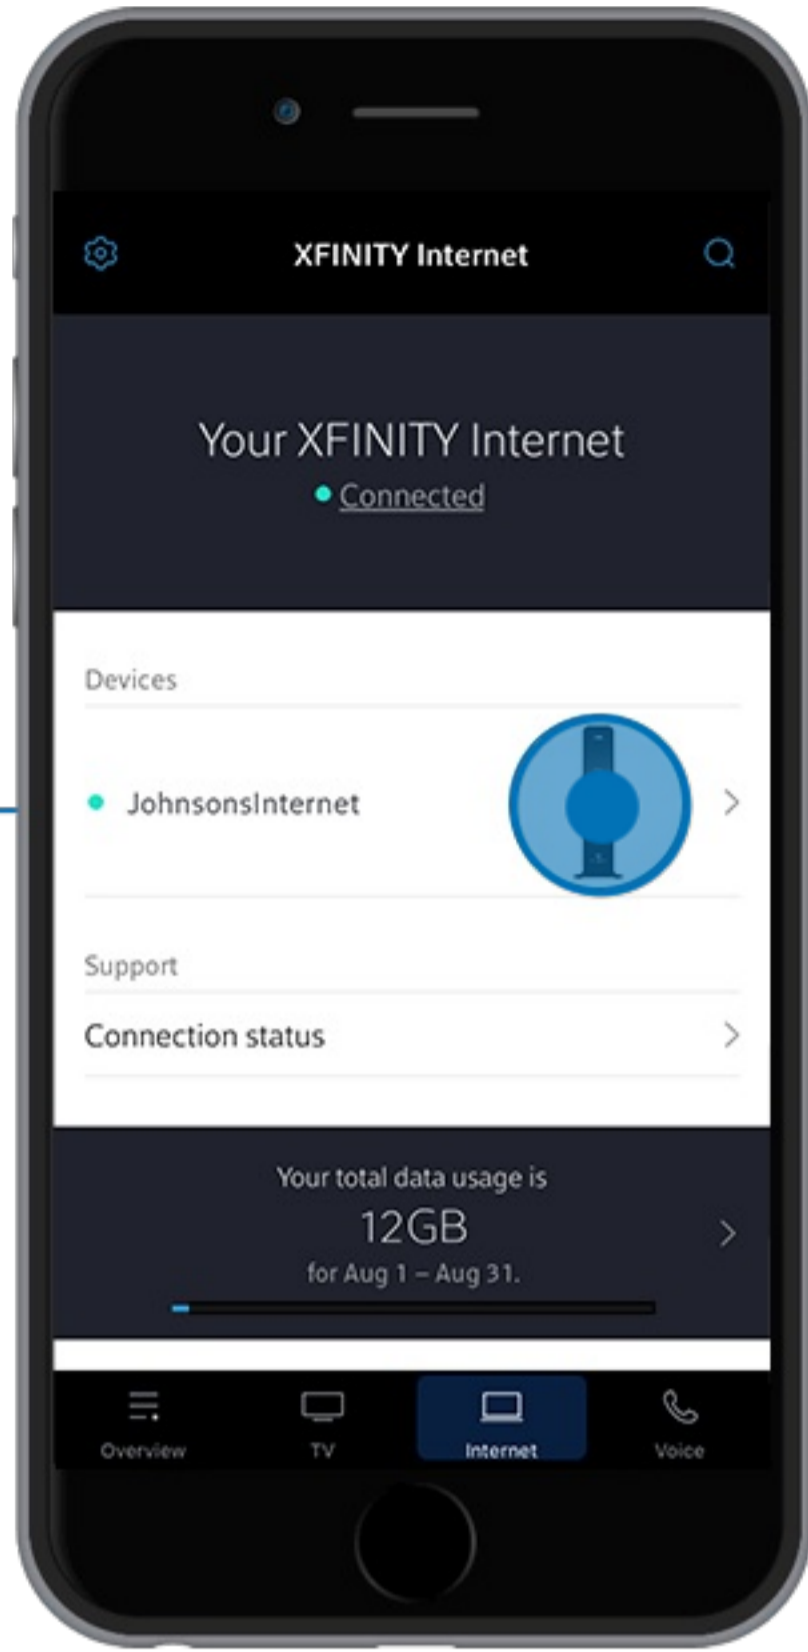

Open the **My Account app** and tap the Internet icon.

For Android devices, tap the menu icon in the upper-left corner of the screen, then tap Internet.

2

Tap the Wireless Gateway.

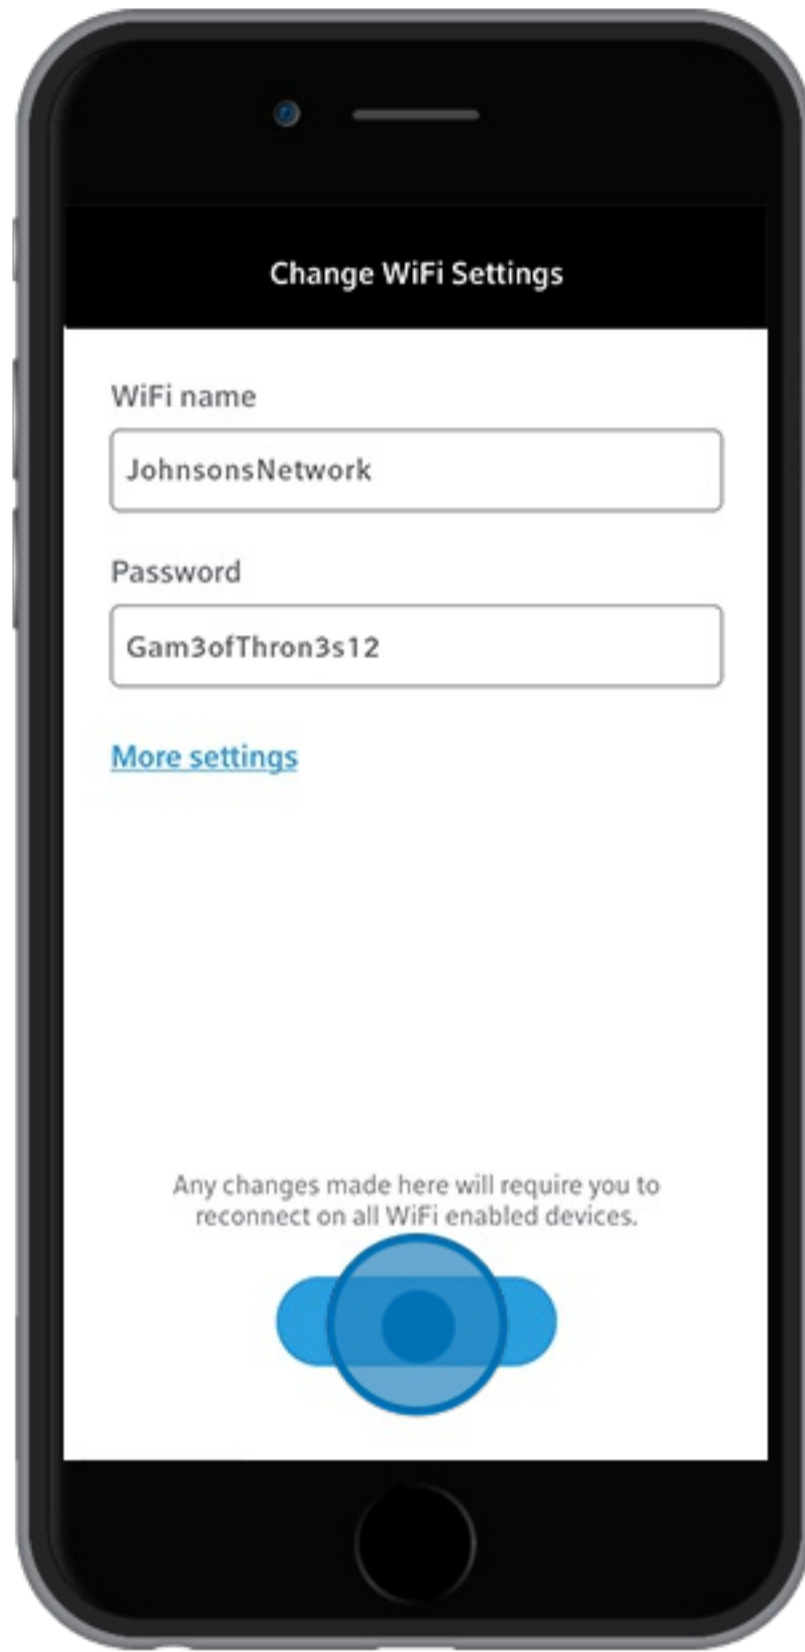

3

Select "Change WiFi Settings."

4

Enter your new network name and password. When finished, tap "Save."

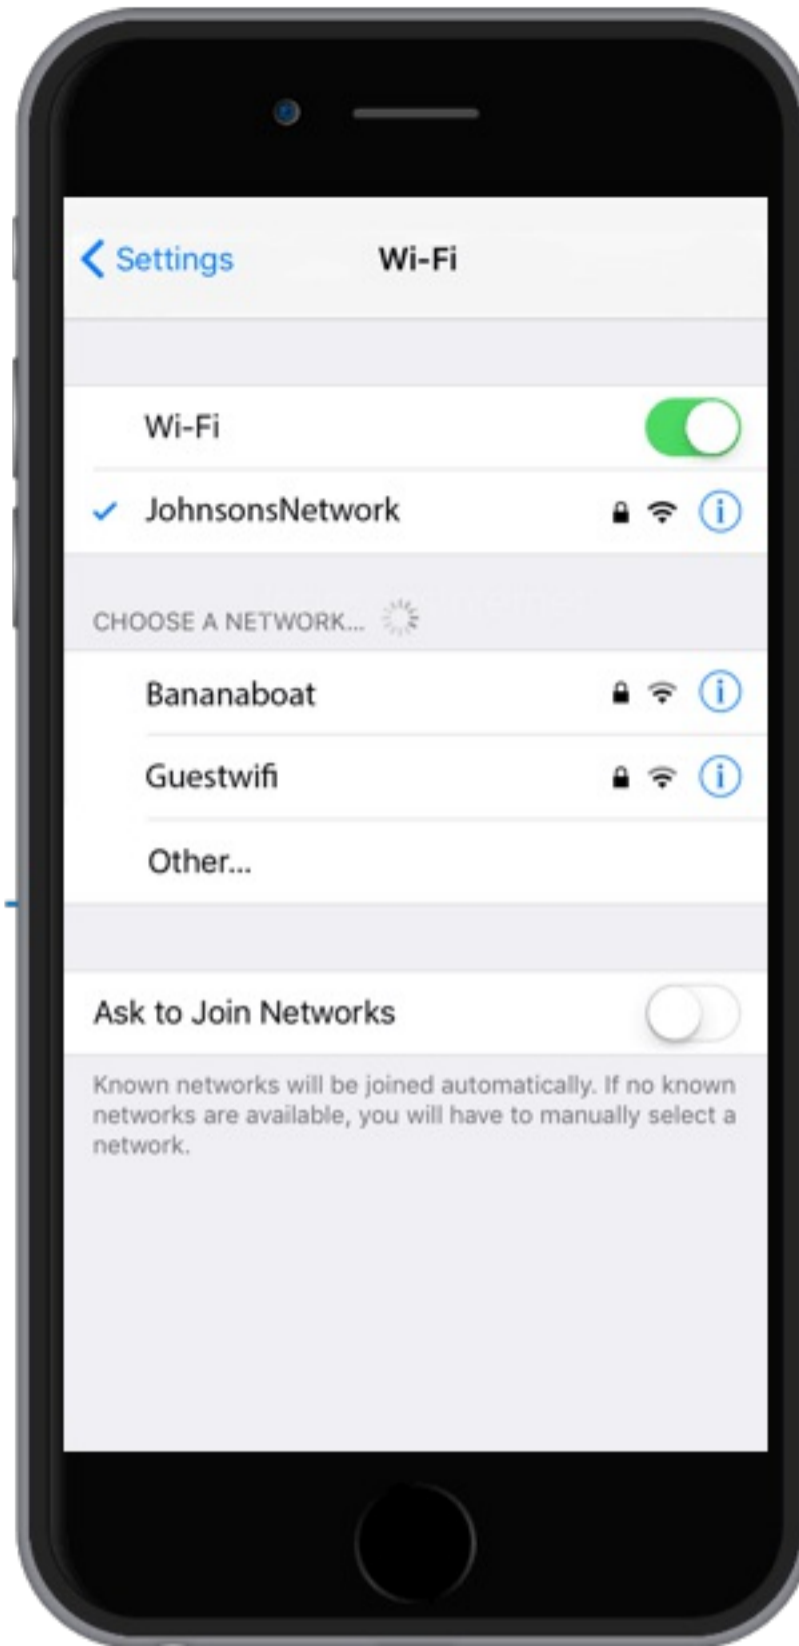

Your Gateway will take a few minutes to update your settings.

5

Reconnect your wireless devices to your WiFi network using your new network name and password.

You've reached the end of your voyage. Good job!
