AELS Public Site

 The Arkansas Educator Licensure System Public Site allows public access to educator licensure data. Educator licensure data may be searched for any Arkansas-licensed educator by entering known public information, such as the educator's last name and first name. The public view shows applicant information, professional license effective and expiration dates, background check information and licensure areas. Confidential data is restricted from the public view.

AELS Educator Login Site

 The AELS Educator Login Site allows licensed educators to update their contact information, including email, phone number and mailing address. Educators may login to view their license, license activity and all information accessible through the public view. Educators may also use the login to start a new application online.

Expiring Educator Licenses

 This Expiring Educator Licenses website allows approved district administrators to view educators in their district with a license expiring soon. A district local education agency (LEA) number must be present in educator's records in order to be displayed online in the Expiring Educator Licenses website.
