What if your child spent their summer learning to make apps instead of playing them? This camp, designed for 10- to 15-year-old students, introduces the fundamentals of coding. Students will create websites, mobile apps, and video games all while having fun with our energetic team.

By the end of the week, each student will have built at least one web page, app, and video game using programming languages like HTML, CSS, JavaScript, Arduino w/C++, and Unity 3D w/C#. The camp is kept small to ensure everyone gets focused attention and learns at their pace.

JA BizTown® Summer Camp

That's because JA BizTown® is a mini-metropolis – home to Forcht Bank, Keeneland, Kentucky Utilities, Chick-fil-A, Toyota, LEX 18, and other businesses found in Central Kentucky. But it's much more than that! JA BizTown Camp is an indoor, academic camp that combines classroom-style teaching with hands-on activities. Kids will discover the real-life opportunities available in the free enterprise system, as they become business operators, taxpayers and consumers for the day.
