

VMware Inc.  
401(k) Savings Plan

Invest in your retirement—and yourself—today, with help from the VMware Inc. 401(k) Savings Plan and Fidelity.

YOUR GUIDE TO GETTING STARTED

## Invest some of what you earn today for what you plan to accomplish tomorrow.

VMware offers a generous matching contribution, outstanding convenience, and a variety of investment options. Take a look and see what a difference enrolling in the Plan could make in achieving your goals.

If you have not enrolled in the Plan within 30 days of your eligibility date, you will be automatically enrolled in the Plan at a contribution rate of 6% of your pretax eligible earnings and your contributions will be invested in the Vanguard Target Retirement Trust Plus. Please note: if you are a rehire, transfer or intern, you will not be automatically enrolled. We encourage you to take an active role in the Plan and choose a contribution rate and investment options that are appropriate for you. If you do not wish to contribute to the Plan, you must change your contribution rate to 0% within the first 30 calendar days of your eligibility.

### **Benefit from:**

**Matching contributions.** Your Company helps your contributions grow through a generous employer match on a pretax and/or Roth 401(k) basis, of up to 6% annually—it's like getting "free" money. That's why it makes good financial sense to take advantage of this great benefit today!

**Convenience.** Your contributions are automatically deducted regularly from your paycheck.

**Tax savings now.** Your pretax contributions are deducted from your pay before income taxes are taken out. This means that you can actually lower the amount of current income taxes you pay each period. It could mean more money in your take-home pay versus saving money in a taxable account.

**Tax-deferred savings opportunities.** You pay no taxes on any earnings until you withdraw them from your account, enabling you to keep more of your money working for you now.

**Roth after-tax contribution.** A Roth contribution allows you to make **after-tax** contributions and take any associated earnings completely tax free at retirement - as long as the distribution is a qualified one.

**Regular after-tax contribution.** Regular after-tax contributions allow you to make additional **after-tax** contributions to the Plan after you have reached the annual IRS pretax and Roth contribution limit.

**Catch-up contributions.** If you make the maximum contribution to your plan account, and you are 50 years of age or older during the calendar year, you can make an additional "catch-up" contribution of \$6,500 in 2022.

**Portability.** You can roll over eligible savings from a previous employer into this Plan. You can also take your plan vested account balance with you if you leave the company.

**Investment options.** You have the flexibility to select from investment options that range from more conservative to more aggressive, making it easy for you to develop a well-diversified investment portfolio.

**Automatic annual increases.** Save a little more each year, the easy way — the Annual Increase Program automatically increases your contribution each year.

Participate in your plan and invest in yourself today.

# Frequently asked questions about your plan.

Here are answers to questions you may have about the key features, benefits, and rules of your plan.

## **When can I enroll in the Plan?**

There is no waiting period. You can enroll in the Plan at any time.

If you have not enrolled in the Plan within 30 days from your eligibility, you will be automatically enrolled in the Plan at a contribution rate of 6% of your pretax eligible earnings. Note: Rehires, transfers & interns are not automatically enrolled.

Based on your date of birth and assuming a retirement age of 65, you will be invested in the Vanguard Target Retirement Trust Plus, with a corresponding target retirement date. Target Date Funds are an asset mix of stocks, bonds and other investments that automatically becomes more conservative as the fund approaches its target retirement date and beyond. Principal invested is not guaranteed.

We encourage you to take an active role in the Plan and to choose a contribution rate and investment options that are appropriate for you. If you do not wish to contribute to the Plan, you must change your contribution rate to 0% within the first 30 days of your eligibility date. You may change your contribution rate at any time online, or by calling the Fidelity Retirement Benefits Line at 1-800-835-5095.

Please note: If you are a rehire, transfer or intern, you will not be automatically enrolled.

## **How do I enroll in the Plan?**

Enroll online at any time at [www.401k.com](http://www.401k.com), or by calling the Fidelity Retirement Benefits Line at 1-800-835-5095.

## **What is the Roth contribution option?**

A Roth contribution to your retirement savings plan allows you to make after-tax contributions and take any associated earnings completely tax free at retirement - as long as the distribution is a qualified one. A qualified distribution, in this case, is one that is taken at least five tax years after your first Roth 401(k) contribution and after you have attained age 59½, or become disabled or die. Through automatic payroll deductions, you can contribute between 1% and 90% of your eligible pay as designated Roth contributions, up to the annual IRS dollar limits.

Find more information online within the "Library" section of NetBenefits®.

## **How much can I contribute?**

Through automatic payroll deductions, you can contribute between 1% and 90% of your eligible pay on a pretax, Roth 401(k), regular after-tax and/or (if age 50 and older) catch-up basis, up to the annual IRS dollar limits. The Internal Revenue Code provides that the combined annual limit for total plan contributions is 100% of your W2 compensation or \$61,000, whichever is less, and if you are age 50 and older, you can make an additional \$6,500 in catch-up contributions. Sign up online by accessing the "Contribution Amount" section on NetBenefits®, or by calling the Fidelity Retirement Benefits Line at 1-800-835-5095.

In addition, you can automatically increase your retirement savings plan contributions each year through the Annual Increase Program. To sign up online, go to the "Act" menu on the left hand side of the screen,

select "Contribution Amount" and then under the heading "Manage your Contribution Amount" select the link "Annual Increase Program." If you have any questions, please contact the Fidelity Retirement Benefits Line at 1-800-835-5095.

### **What is the IRS contribution limit?**

The IRS contribution limit for 2022 for pretax and Roth contributions is \$20,500.

### **When is my enrollment effective?**

Your enrollment becomes effective once you elect a deferral percentage, which initiates deduction of your contributions from your pay. These salary deductions will generally begin within 1 to 2 pay periods after we receive your enrollment information, or as soon as administratively possible.

### **Does the Company contribute to my account?**

The Plan helps your retirement savings grow by matching your contributions on a pretax and/or Roth 401(k) basis. VMware will match your 401(k) contributions dollar for dollar on a per pay period basis up to 6% of your eligible compensation up to a maximum of \$2,250 per quarter (up to \$9,000 annually). The maximum match will be pro-rated on a quarterly basis for eligible employees who join after Q1.

### **What is a true-up and how does it work?**

A true-up is a 401(k) plan feature that is designed to ensure eligible employees receive their full eligible Company match.

Employees are eligible for up to \$2,250 in Company match (on a per pay period basis) for each quarter they are eligible to participate in the Plan and make contributions (pretax or Roth). The specific quarterly Company match amount is dollar for dollar on your contributions up to 6% of your eligible compensation per pay period not to exceed a total of \$2,250 in each quarter.

If you are eligible but don't contribute during a quarter or contribute an amount that yields less than your maximum eligible quarterly

match (because, for example, you contributed the maximum amount early in the calendar year or vary your contributions throughout the year), you will not receive your full eligible match for that quarter. In such cases, the year-end true-up will provide your full eligible match for the amounts you contributed throughout the plan year, even if you did not receive the maximum Company match for each quarter you were an eligible employee. You must be an eligible employee at the end of the plan year (December 31) to be eligible for the true-up match contributions for that year.

### **How do I designate my beneficiary?**

If you have not already selected your beneficiaries, or if you have experienced a life-changing event such as a marriage, divorce, birth of a child, or a death in the family, it's time to consider your beneficiary designations. Fidelity's Online Beneficiaries Service offers a straightforward, convenient process that takes just minutes. To make your elections, click on the "Profile" link, then select "Beneficiaries" and follow the online instructions.

### **What are my investment options?**

To help you meet your investment goals, the Plan offers you a range of options. You can select a mix of investment options that best suits your goals, time horizon, and risk tolerance. The many investment options available through the Plan include conservative, moderately conservative, and aggressive funds. A complete description of the Plan's investment options and their performance, as well as planning tools to help you choose an appropriate mix, are available online.

### **What if I don't make an investment election?**

We encourage you to take an active role in the VMware Inc. 401(k) Savings Plan and choose investment options that best suit your goals, time horizon, and risk tolerance. If you do not select specific investment options in the Plan, your contributions will be invested in the Vanguard Target Retirement Trust Plus with the

target retirement date closest to the year you might retire, based on your current age and assuming a retirement age of 65, at the direction of VMware, Inc.

If no date of birth or an invalid date of birth is on file at Fidelity, your contributions may be invested in the Vanguard Target Retirement Income Trust Plus. More information about the Vanguard Target Retirement Trust Plus options can be found online.

Target Date Funds are an asset mix of stocks, bonds and other investments that automatically becomes more conservative as the fund approaches its target retirement date and beyond. Principal invested is not guaranteed.

#### **What catch-up contribution can I make?**

If you have reached age 50 or will reach 50 during the calendar year January 1 – December 31 and are making the maximum plan or IRS contribution, you may make an additional catch-up contribution each pay period. The maximum annual catch-up contribution is \$6,500. Going forward, catch-up contribution limits will be subject to cost of living adjustments (COLAs) in \$500 increments.

#### **When am I vested?**

You are immediately 100% vested in your own contributions as well as VMware's matching contributions to the Plan.

#### **Can I convert non-Roth contributions?**

A Roth 401(k) in-plan conversion allows you to move money you have saved in an eligible 401(k) plan into a designated Roth account within your 401(k) Plan. The following are two types of in-plan conversions you have access to, provided certain conditions are met:

- A Roth in-plan conversion involves taking an available, rollover-eligible distribution from your 401(k) plan and directly rolling it over to a Roth account within the same plan. Examples of eligible assets may include your own contributions, contributions from your employer or assets rolled in from a former employer.

- An Expanded Roth in-plan conversion allows for eligible vested plan balances to be rolled over to a designated Roth account within your workplace savings plan, even if those amounts are not currently available for withdrawal.

If you wish to request a transaction or simply speak with a representative about your options, please call Fidelity Investments at 1-800-835-5095 between 5:30 a.m. and 5 p.m. PT. You must call Fidelity to request a Roth in-plan conversion to convert eligible contributions. A Fidelity Representative can also provide you details regarding setting up automated conversions of monies to your Roth account.

#### **Can I take a loan from my account?**

Although your plan account is intended for the future, you may borrow from your account for any reason.

Learn more about and/or request a loan online, or by calling the Fidelity Retirement Benefits Line at 1-800-835-5095.

#### **Can I make withdrawals?**

Withdrawals from the Plan are generally permitted when you terminate your employment, retire, reach age 59½, become permanently disabled, or have severe financial hardship, as defined by your plan.

When you leave the Company, you can withdraw contributions and any associated earnings or, if your vested account balance is greater than \$5,000, you can leave contributions and any associated earnings in the Plan. After you leave the Company, if your vested account balance is equal to or less than \$1,000, it will automatically be distributed to you. However, if your vested account balance is greater than \$1,000 but not more than \$5,000, you will be notified that your entire vested account balance will be transferred to an Individual Retirement Account (Rollover IRA), unless you request either a cash distribution or a rollover distribution of your choice.

Learn more about and/or request a withdrawal online, or by calling the Fidelity Retirement Benefits Line at 1-800-835-5095.

**Can I move money from another retirement plan into my account in the Plan?**

You are permitted to roll over eligible pretax contributions from 401(k) plans; Roth 401(k) accounts; 403(b) plan; Roth 403(b) accounts; governmental 457(b) plans. Additionally, the Plan will accept rollovers of taxable amounts from conduit ("rollover") IRAs and non-conduit IRAs.

Additional information can be obtained online, or by calling the Fidelity Retirement Benefits Line at 1-800-835-5095.

You should consult your tax adviser and carefully consider the impact of making a rollover contribution to your employer's plan because it could affect your eligibility for future special tax treatments.

**Be sure to consider all your available options and the applicable fees and features of each before moving your retirement assets.**

**Where can I find information about exchanges and other plan features?**

Learn about loans, exchanges, and more online. In particular, you can access loan modeling tools that illustrate the potential impact of a loan on the long-term growth of your account. You will also find a withdrawal modeling tool, which shows the amount of federal income taxes and early withdrawal penalties you might pay, along with the amount of earnings you could potentially lose by taking a withdrawal. Additional information can be obtained by calling the Fidelity Retirement Benefits Line at 1-800-835-5095.

# Investment Options

Here is a list of investment options for the VMware Inc. 401(k) Savings Plan. For up-to-date performance information and other fund specifics, go to [www.401k.com](http://www.401k.com).

## Target Date Funds

Placement of investment options within each risk spectrum is only in relation to the investment options within that specific spectrum. Placement does not reflect risk relative to the investment options shown in the other risk spectrums.

Investment options to the left have potentially more inflation risk and less investment risk

Investment options to the right have potentially less inflation risk and more investment risk

Vanguard Target Retirement Income Trust Plus	Vanguard Target Retirement 2025 Trust Plus	Vanguard Target Retirement 2045 Trust Plus
Vanguard Target Retirement 2015 Trust Plus	Vanguard Target Retirement 2030 Trust Plus	Vanguard Target Retirement 2050 Trust Plus
Vanguard Target Retirement 2020 Trust Plus	Vanguard Target Retirement 2035 Trust Plus	Vanguard Target Retirement 2055 Trust Plus
	Vanguard Target Retirement 2040 Trust Plus	Vanguard Target Retirement 2060 Trust Plus
		Vanguard Target Retirement 2065 Trust Plus

Target date investments are generally designed for investors expecting to retire around the year indicated in each investment's name. The investments are managed to gradually become more conservative over time. The investment risks of each target date investment change over time as its asset allocation changes. They are subject to the volatility of the financial markets, including equity and fixed income investments in the U.S. and abroad and may be subject to risks associated with investing in high yield, small cap and foreign securities. Principal invested is not guaranteed at any time, including at or after their target dates.

The chart below lists the assigned fund the VMware Inc. 401(k) Savings Plan believes will best fit your diversification needs should you not select an investment option.

<b>Your Birth Date*</b>	<b>Fund Name</b>	<b>Target Retirement Years</b>

This spectrum, with the exception of the Domestic Equity category, is based on Fidelity's analysis of the characteristics of the general investment categories of the investment options and not on the actual security holdings, which can change frequently. Investment options in the Domestic Equity category are based on the options' Morningstar categories as of 11/30/2021. Morningstar categories are based on a fund's style as measured by its underlying portfolio holdings over the past three years and may change at any time. These style calculations do not represent the investment options' objectives and do not predict the investment options' future styles. Investment options are listed in alphabetical order within each investment category. Risk associated with the investment options can vary significantly within each particular investment category, and the relative risk of categories may change under certain economic conditions. For a more complete discussion of risk associated with the mutual fund options, please read the prospectuses before making your investment decision. The spectrum does not represent actual or implied performance.

## ▶ Fidelity BrokerageLink®

**Fidelity BrokerageLink®** gives you the opportunity to invest in an expanded range of investment choices to manage your plan. BrokerageLink includes investments beyond those in your plan's standard lineup. You should compare investments and share classes that are available in your plan's lineup with those available through BrokerageLink, and determine the available investment and share class that is appropriate for your situation. The plan fiduciary neither evaluates nor monitors the investments available through BrokerageLink. It is your responsibility to ensure that the investments you select are suitable for your situation, including your goals, time horizon, and risk tolerance. To enroll, and for more information about BrokerageLink, including the Plan's BrokerageLink fact sheet, the brokerage commission schedule, and brochure, go to [netbenefits.com](http://netbenefits.com) and click on "Quick Links," then select "BrokerageLink."

# Investment Options

*Before investing in any mutual fund, consider the investment objectives, risks, charges, and expenses. Contact Fidelity for a mutual fund prospectus or, if available, a summary prospectus containing this information. Read it carefully.*

## American Funds EuroPacific Growth Fund® Class R-6

**VRS Code:** 885007

**Fund Objective:** The investment seeks long-term growth of capital.

**Fund Strategy:** The fund invests primarily in common stocks of issuers in Europe and the Pacific Basin that the investment adviser believes have the potential for growth. Growth stocks are stocks that the investment adviser believes have the potential for above-average capital appreciation. It normally will invest at least 80% of its net assets in securities of issuers in Europe and the Pacific Basin. The fund may invest a portion of its assets in common stocks and other securities of companies in emerging markets.

**Fund Risk:** Foreign securities are subject to interest-rate, currency-exchange-rate, economic, and political risks, all of which may be magnified in emerging markets. Growth stocks can perform differently from the market as a whole and can be more volatile than other types of stocks. Stock markets are volatile and can decline significantly in response to adverse issuer, political, regulatory, market, economic or other developments. Additional risk information for this product may be found in the prospectus or other product materials, if available.

**Fund short term trading fees:** None

**Who may want to invest:**

- Someone who is seeking to complement a portfolio of domestic investments with international investments, which can behave differently.
- Someone who is willing to accept the higher degree of risk associated with investing overseas.

**Footnotes:**

- This description is only intended to provide a brief overview of the mutual fund. Read the fund's prospectus for more detailed information about the fund.
- The analysis on these pages may be based, in part, on adjusted historical returns for periods prior to the class's actual inception of 05/01/2009. These calculated returns reflect the historical performance of the oldest share class of the fund, with an inception date of 04/16/1984, adjusted to reflect the fees and expenses of this share class (when this share class's fees and expenses are higher.) Please refer to a fund's prospectus for information regarding fees and expenses. These adjusted historical returns are not actual returns. Calculation methodologies utilized by Morningstar may differ from those applied by other entities, including the fund itself.

## American Funds The Growth Fund of America® Class R-6

**VRS Code:** 885043

**Fund Objective:** The investment seeks growth of capital.

**Fund Strategy:** The fund invests primarily in common stocks and seeks to invest in companies that appear to offer superior opportunities for growth of capital. It may invest up to 25% of its assets in securities of issuers domiciled outside the United States. The investment adviser uses a system of multiple portfolio managers in managing the fund's assets. Under this approach, the portfolio of the fund is divided into segments managed by individual managers.

**Fund Risk:** Growth stocks can perform differently from the market as a whole and can be more volatile than other types of stocks. Stock markets are volatile and can decline significantly in response to adverse issuer, political, regulatory, market, economic or other developments. These risks may be magnified in foreign markets. Additional risk information for this product may be found in the prospectus or other product materials, if available.

**Fund short term trading fees:** None

**Who may want to invest:**

- Someone who is seeking the potential for long-term share-price appreciation.
- Someone who is willing to accept the generally greater price volatility associated with growth-oriented stocks.

**Footnotes:**

- This description is only intended to provide a brief overview of the mutual fund. Read the fund's prospectus for more detailed information about the fund.
  - The analysis on these pages may be based, in part, on adjusted historical returns for periods prior to the class's actual inception of 05/01/2009. These calculated returns reflect the historical performance of the oldest share class of the fund, with an inception date of 11/30/1973, adjusted to reflect the fees and expenses of this share class (when this share class's fees and expenses are higher.) Please refer to a fund's prospectus for information regarding fees and expenses. These adjusted historical returns are not actual returns. Calculation methodologies utilized by Morningstar may differ from those applied by other entities, including the fund itself.
- 

**Dodge & Cox Income Fund****VRS Code:** 892767**Fund Objective:** The investment seeks a high and stable rate of current income, consistent with long-term preservation of capital.**Fund Strategy:** The fund invests in a diversified portfolio of bonds and other debt securities. Under normal circumstances, the fund will invest at least 80% of its total assets in (1) investment-grade debt securities and (2) cash equivalents. "Investment grade" means securities rated Baa3 or higher by Moody's Investors Service, or BBB- or higher by Standard & Poor's Ratings Group or Fitch Ratings, or equivalently rated by any nationally recognized statistical rating organization, or, if unrated, deemed to be of similar quality by Dodge & Cox.**Fund Risk:** In general the bond market is volatile, and fixed income securities carry interest rate risk. (As interest rates rise, bond prices usually fall, and vice versa. This effect is usually more pronounced for longer-term securities.) Fixed income securities also carry inflation risk and credit and default risks for both issuers and counterparties. Unlike individual bonds, most bond funds do not have a maturity date, so avoiding losses caused by price volatility by holding them until maturity is not possible. The fund may invest in lower-quality debt securities that involve greater risk of default or price changes due to potential changes in the credit quality of the issuer. Foreign securities are subject to interest-rate, currency-exchange-rate, economic, and political risks, all of which may be magnified in emerging markets. Additional risk information for this product may be found in the prospectus or other product materials, if available.**Fund short term trading fees:** None**Who may want to invest:**

- Someone who is seeking potential returns primarily in the form of interest dividends rather than through an increase in share price.
- Someone who is seeking to diversify an equity portfolio with a more conservative investment option.

**Footnotes:**

- This description is only intended to provide a brief overview of the mutual fund. Read the fund's prospectus for more detailed information about the fund.
- 

**Fidelity® 500 Index Fund****VRS Code:** 002328**Fund Objective:** Seeks to provide investment results that correspond to the total return (i.e., the combination of capital changes and income) performance of common stocks publicly traded in the United States.**Fund Strategy:** Normally investing at least 80% of assets in common stocks included in the S&P 500 Index, which broadly represents the performance of common stocks publicly traded in the United States.**Fund Risk:** Stock markets, especially foreign markets, are volatile and can decline significantly in response to adverse issuer, political, regulatory, market, or economic developments.**Fund short term trading fees:** None**Who may want to invest:**

- Someone who is seeking the potential for long-term share-price appreciation and, secondarily, dividend income.
- Someone who is seeking both growth- and value-style investments and who is willing to accept the volatility associated with investing in the stock market.

**Footnotes:**

- This description is only intended to provide a brief overview of the mutual fund. Read the fund's prospectus for more detailed information about the fund.
- The S&P 500 Index is a market capitalization-weighted index of 500 common stocks chosen for market size, liquidity, and industry group representation to represent U.S. equity performance.
- Returns prior to May 4, 2011 are those of the Premium Class and reflect the Premium Class' expense ratio. Had the Institutional Premium Class' expense ratio been reflected, total returns would have been higher.

---

## Fidelity® Contrafund® K6

**VRS Code:** 002946

**Fund Objective:** Seeks capital appreciation.

**Fund Strategy:** Normally investing primarily in common stocks. Investing in securities of companies whose value Fidelity Management & Research Company LLC (FMR) believes is not fully recognized by the public. Investing in domestic and foreign issuers. Investing in either "growth" stocks or "value" stocks or both. Using fundamental analysis of factors such as each issuer's financial condition and industry position, as well as market and economic conditions, to select investments.

**Fund Risk:** Stock markets, especially foreign markets, are volatile and can decline significantly in response to adverse issuer, political, regulatory, market, or economic developments. Foreign securities are subject to interest rate, currency exchange rate, economic, and political risks.

**Fund short term trading fees:** None

**Who may want to invest:**

- Someone who is seeking the potential for long-term share-price appreciation.
- Someone who is willing to accept the generally greater price volatility associated with growth-oriented stocks.

**Footnotes:**

- This description is only intended to provide a brief overview of the mutual fund. Read the fund's prospectus for more detailed information about the fund.
- 

## Fidelity® Extended Market Index Fund

**VRS Code:** 002365

**Fund Objective:** Seeks to provide investment results that correspond to the total return stocks of mid- to small-capitalization United States companies.

**Fund Strategy:** Normally investing at least 80% of assets in common stocks included in the Dow Jones U.S. Completion Total Stock Market Index, which represents the performance of stocks of mid- to small-capitalization U.S. companies.

**Fund Risk:** Stock markets, especially foreign markets, are volatile and can decline significantly in response to adverse issuer, political, regulatory, market, or economic developments. Investments in smaller companies may involve greater risks than those in larger, more well known companies.

**Fund short term trading fees:** None

**Who may want to invest:**

- Someone who is seeking the potential for long-term share-price appreciation.
- Someone who is willing to accept the generally greater price volatility associated both with growth-oriented stocks and with smaller companies.

**Footnotes:**

- This description is only intended to provide a brief overview of the mutual fund. Read the fund's prospectus for more detailed information about the fund.
  - The Dow Jones U.S. Completion Total Stock Market Index is an unmanaged index that represents all U.S. equity issues with readily available prices, excluding components of the S&P 500.
  - Returns prior to September 8, 2011 are those of the Premium Class and reflect the Premium Class' expense ratio. Had the Institutional Premium Class' expense ratio been reflected, total returns would have been higher.
- 

## Fidelity® Investments Money Market Government Portfolio - Institutional Class

**VRS Code:** 002642

**Fund Objective:** Seeks to obtain as high a level of current income as is consistent with the preservation of principal and liquidity within the limitations prescribed for the fund.

**Fund Strategy:** The Adviser normally invests at least 99.5% of the fund's total assets in cash, U.S. Government securities and/or repurchase agreements that are collateralized fully (i.e., collateralized by cash or government securities). Certain issuers of U.S. Government securities are sponsored or chartered by Congress but their securities are neither issued nor guaranteed by the U.S. Treasury. Investing in compliance with industry-standard regulatory requirements for money market funds for the quality, maturity, liquidity and diversification of investments. The Adviser stresses maintaining a stable \$1.00 share price, liquidity, and income. In addition the Adviser normally invests at least 80% of the fund's assets in U.S. Government securities and repurchase agreements for those securities.

**Fund Risk:** *You could lose money by investing in the fund. Although the fund seeks to preserve the value of your investment at \$1.00 per share, it cannot guarantee it will do so. An investment in the fund is not insured or guaranteed by the Federal Deposit Insurance Corporation or any other government agency. Fidelity Investments and its affiliates, the fund's sponsor, have no legal obligation to provide financial support to the fund, and you should not expect that the sponsor will provide financial support to the fund at any time.* The fund will not impose a fee upon the sale of your shares, nor temporarily suspend your ability to sell shares if the fund's weekly liquid assets fall below 30% of its total assets because of market conditions or other factors. Interest rate increases can cause the price of a money market security to decrease. A decline in the credit quality of an issuer or a provider of credit support or a maturity-shortening structure for a security can cause the price of a money market security to decrease.

**Fund short term trading fees:** None

**Who may want to invest:**

- Someone who has a low tolerance for investment risk and who wishes to keep the value of his or her investment relatively stable.
- Someone who is seeking to complement his or her bond and stock fund holdings in order to reach a particular asset allocation.

**Footnotes:**

- This description is only intended to provide a brief overview of the mutual fund. Read the fund's prospectus for more detailed information about the fund.
- Initial offering of the Fidelity® Institutional Money Market Government Portfolio - Institutional Class took place on May 14, 2014. Returns and expenses prior to that date are those of the Fidelity® Institutional Money Market Government Portfolio - Class I. Had Fidelity® Institutional Money Market Government Portfolio - Institutional Class expenses been reflected in the returns shown, total returns would have been higher.
- Fidelity is voluntarily reimbursing a portion of the fund's expenses. If Fidelity had not, the returns would have been lower.

---

## Fidelity® Low-Priced Stock K6 Fund

**VRS Code:** 002955

**Fund Objective:** Seeks capital appreciation.

**Fund Strategy:** Normally investing primarily in common stocks. Normally investing at least 80% of assets in low-priced stocks (those priced at or below \$35 per share or with an earnings yield at or above the median for the Russell 2000 Index), which can lead to investments in small and medium-sized companies. Earnings yield represents a stock's earnings per share for the most recent 12-months divided by current price per share. Potentially investing in stocks not considered low-priced. Investing in domestic and foreign issuers. Investing in either "growth" stocks or "value" stocks or both. Using fundamental analysis of factors such as each issuer's financial condition and industry position, as well as market and economic conditions, to select investments.

**Fund Risk:** Stock markets, especially foreign markets, are volatile and can decline significantly in response to adverse issuer, political, regulatory, market, or economic developments. Foreign securities are subject to interest rate, currency exchange rate, economic, and political risks. The value of securities of smaller issuers can be more volatile than that of larger issuers.

**Fund short term trading fees:** None

**Who may want to invest:**

- Someone who is seeking the potential for long-term share-price appreciation and, secondarily, dividend income.
- Someone who is comfortable with value-style investments and the potentially greater volatility of investments in smaller companies.

**Footnotes:**

- This description is only intended to provide a brief overview of the mutual fund. Read the fund's prospectus for more detailed information about the fund.
- The Russell 2000® Index is an unmanaged market capitalization-weighted index of 2,000 small company stocks of U.S. domiciled companies.

---

## Fidelity® Puritan® Fund - Class K

**VRS Code:** 002100

**Fund Objective:** Seeks income and capital growth consistent with reasonable risk.

**Fund Strategy:** Investing approximately 60% of assets in stocks and other equity securities and the remainder in bonds and other debt securities, including lower-quality debt securities, when its outlook is neutral. Investing at least 25% of total assets in fixed-income senior securities (including debt securities and preferred stock). Engaging in transactions that have a leveraging effect on the fund.

**Fund Risk:** Stock markets, especially foreign markets, are volatile and can decline significantly in response to adverse issuer, political, regulatory, market, or economic developments. Fixed income investments entail interest rate risk (as interest rates rise bond prices usually fall), the risk of issuer default, issuer credit risk and inflation risk. Foreign securities are subject to interest rate, currency exchange rate, economic, and political risks. Lower-quality bonds can be more volatile and have greater risk of default than higher-quality bonds. Leverage can increase market exposure and magnify investment risk.

**Fund short term trading fees:** None

**Who may want to invest:**

- Someone who is seeking to invest in a fund that invests in both stocks and bonds.
- Someone who is seeking the potential both for income and for long-term share-price appreciation and who is willing to accept the volatility of the bond and stock markets.

**Footnotes:**

- This description is only intended to provide a brief overview of the mutual fund. Read the fund's prospectus for more detailed information about the fund.
- On May 9, 2008, an initial offering of the retirement (K) class took place. Returns and expenses prior to that date are those of the non-K, non-advisor class. Had K class expenses been reflected in the returns shown, total returns would have been higher.

### PIMCO High Yield Fund Institutional Class

**VRS Code:** 893596

**Fund Objective:** The investment seeks maximum total return, consistent with preservation of capital and prudent investment management.

**Fund Strategy:** The fund invests at least 80% of its assets in high yield investments ("junk bonds"), which may be represented by forwards or derivatives. It may invest up to 20% of its total assets in securities rated Caa or below by Moody's, or equivalently rated by S&P or Fitch, or, if unrated, determined by PIMCO to be of comparable quality. The fund may invest, without limitation, in derivative instruments, such as options, futures contracts or swap agreements, or in mortgage- or asset-backed securities.

**Fund Risk:** The fund may invest in lower-quality debt securities that involve greater risk of default or price changes due to potential changes in the credit quality of the issuer. In general the bond market is volatile, and fixed income securities carry interest rate risk. (As interest rates rise, bond prices usually fall, and vice versa. This effect is usually more pronounced for longer-term securities.) Fixed income securities also carry inflation risk and credit and default risks for both issuers and counterparties. Unlike individual bonds, most bond funds do not have a maturity date, so avoiding losses caused by price volatility by holding them until maturity is not possible. Additional risk information for this product may be found in the prospectus or other product materials, if available.

**Fund short term trading fees:** None

**Who may want to invest:**

- Someone interested in a bond fund that provides the potential for both current income and share-price appreciation.
- Someone who is seeking to complement his or her core bond holdings with a bond investment that seeks higher returns from riskier bonds, and who can tolerate higher risk.

**Footnotes:**

- This description is only intended to provide a brief overview of the mutual fund. Read the fund's prospectus for more detailed information about the fund.

### PIMCO Total Return Fund Institutional Class

**VRS Code:** 899622

**Fund Objective:** The investment seeks maximum total return, consistent with preservation of capital and prudent investment management.

**Fund Strategy:** The fund invests at least 65% of its total assets in a diversified portfolio of Fixed Income Instruments of varying maturities, which may be represented by forwards or derivatives such as options, futures contracts, or swap agreements. It invests primarily in investment-grade debt securities, but may invest up to 20% of its total assets in high yield securities. It may invest up to 30% of its total assets in securities denominated in foreign currencies, and may invest beyond this limit in U.S. dollar-denominated securities of foreign issuers.

**Fund Risk:** In general the bond market is volatile, and fixed income securities carry interest rate risk. (As interest rates rise, bond prices usually fall, and vice versa. This effect is usually more pronounced for longer-term securities.) Fixed income securities also carry inflation risk and credit and default risks for both issuers and counterparties. Unlike individual bonds, most bond funds do not have a maturity date, so avoiding losses caused by price volatility by holding them until maturity is not possible. The fund may invest in lower-quality debt securities that involve greater risk of default or price changes due to potential changes in the credit quality of the issuer. Foreign securities are subject to interest-rate, currency-exchange-rate, economic, and political risks, all of which may be magnified in emerging markets. Additional risk information for this product may be found in the prospectus or other product materials, if available.

**Fund short term trading fees:** None

**Who may want to invest:**

- Someone who is seeking potential returns primarily in the form of interest dividends rather than through an increase in share price.
- Someone who is seeking to diversify an equity portfolio with a more conservative investment option.

**Footnotes:**

- This description is only intended to provide a brief overview of the mutual fund. Read the fund's prospectus for more detailed information about the fund.

---

## T. Rowe Price Mid-Cap Growth Fund I Class

**VRS Code:** 869304

**Fund Objective:** The investment seeks long-term capital appreciation.

**Fund Strategy:** The fund normally invests at least 80% of its net assets (including any borrowings for investment purposes) in a diversified portfolio of common stocks of mid-cap companies whose earnings T. Rowe Price expects to grow at a faster rate than the average company. The advisor defines mid-cap companies as those whose market capitalization falls within the range of either the S&P MidCap 400<sup>®</sup> Index or the Russell Midcap<sup>®</sup> Growth Index. While most assets will typically be invested in U.S. common stocks, the fund may invest in foreign stocks in keeping with the fund's objectives.

**Fund Risk:** Growth stocks can perform differently from the market as a whole and can be more volatile than other types of stocks. The securities of smaller, less well-known companies can be more volatile than those of larger companies. Stock markets are volatile and can decline significantly in response to adverse issuer, political, regulatory, market, economic or other developments. These risks may be magnified in foreign markets. Additional risk information for this product may be found in the prospectus or other product materials, if available.

**Fund short term trading fees:** None

**Who may want to invest:**

- Someone who is seeking the potential for long-term share-price appreciation.
- Someone who is willing to accept the generally greater price volatility associated both with growth-oriented stocks and with smaller companies.

**Footnotes:**

- This description is only intended to provide a brief overview of the mutual fund. Read the fund's prospectus for more detailed information about the fund.
- The analysis on these pages may be based, in part, on adjusted historical returns for periods prior to the class's actual inception of 08/28/2015. These calculated returns reflect the historical performance of the oldest share class of the fund, with an inception date of 06/30/1992, adjusted to reflect the fees and expenses of this share class (when this share class's fees and expenses are higher.) Please refer to a fund's prospectus for information regarding fees and expenses. These adjusted historical returns are not actual returns. Calculation methodologies utilized by Morningstar may differ from those applied by other entities, including the fund itself.
- S&P MidCap 400 Index is a market capitalization-weighted index of 400 mid cap stocks of U.S. companies chosen for market size, liquidity, and industry group representation.
- The Russell Midcap Growth Index is an unmanaged market capitalization-weighted index of medium-capitalization growth-oriented stocks of U.S. domiciled companies that are included in the Russell Midcap Index. Growth-oriented stocks tend to have higher price-to-book ratios and higher forecasted growth values.

---

## T. Rowe Price QM U.S. Small-Cap Growth Equity Fund I Class

**VRS Code:** 864382

**Fund Objective:** The investment seeks long-term growth of capital by investing primarily in common stocks of small growth companies.

**Fund Strategy:** The fund will normally invest at least 80% of its net assets (including any borrowings for investment purposes) in equity securities issued by small-cap U.S. growth companies. While most assets will typically be invested in U.S. equity securities, the fund may invest up to 10% of its total assets in foreign securities, including securities of emerging market issuers.

**Fund Risk:** The securities of smaller, less well-known companies can be more volatile than those of larger companies. Growth stocks can perform differently from the market as a whole and can be more volatile than other types of stocks. Stock markets are volatile and can decline significantly in response to adverse issuer, political, regulatory, market, economic or other developments. These risks may be magnified in foreign markets. Additional risk information for this product may be found in the prospectus or other product materials, if available.

**Fund short term trading fees:** None

**Who may want to invest:**

- Someone who is seeking the potential for long-term share-price appreciation.
- Someone who is willing to accept the generally greater price volatility associated both with growth-oriented stocks and with smaller companies.

**Footnotes:**

- This description is only intended to provide a brief overview of the mutual fund. Read the fund's prospectus for more detailed information about the fund.
- The analysis on these pages may be based, in part, on adjusted historical returns for periods prior to the class's actual inception of 03/23/2016. These calculated returns reflect the historical performance of the oldest share class of the fund, with an inception date of 06/30/1997, adjusted to reflect the fees and expenses of this share class (when this share class's fees and expenses are higher.) Please refer to a fund's prospectus for information regarding fees and expenses. These adjusted historical returns are not actual returns. Calculation methodologies utilized by Morningstar may differ from those applied by other entities, including the fund itself.

## T. Rowe Price Value Fund I Class

**VRS Code:** 869005

**Fund Objective:** The investment seeks to provide long-term capital appreciation by investing in common stocks believed to be undervalued; income is a secondary objective.

**Fund Strategy:** In taking a value approach to investment selection, at least 65% of the fund's total assets will normally be invested in common stocks that the portfolio manager regards as undervalued. The fund may purchase stocks issued by companies of any size, but typically focuses its investments on large-cap stocks.

**Fund Risk:** Value stocks can perform differently than other types of stocks and can continue to be undervalued by the market for long periods of time. Stock markets are volatile and can decline significantly in response to adverse issuer, political, regulatory, market, economic or other developments. These risks may be magnified in foreign markets. Additional risk information for this product may be found in the prospectus or other product materials, if available.

**Fund short term trading fees:** None

**Who may want to invest:**

- Someone who is seeking the potential for long-term share-price appreciation and, secondarily, dividend income.
- Someone who is comfortable with the volatility of large-cap stocks and value-style investments.

**Footnotes:**

- This description is only intended to provide a brief overview of the mutual fund. Read the fund's prospectus for more detailed information about the fund.
- The analysis on these pages may be based, in part, on adjusted historical returns for periods prior to the class's actual inception of 08/28/2015. These calculated returns reflect the historical performance of the oldest share class of the fund, with an inception date of 09/30/1994, adjusted to reflect the fees and expenses of this share class (when this share class's fees and expenses are higher.) Please refer to a fund's prospectus for information regarding fees and expenses. These adjusted historical returns are not actual returns. Calculation methodologies utilized by Morningstar may differ from those applied by other entities, including the fund itself.

## Vanguard FTSE Social Index Fund Admiral

**VRS Code:** 900564

**Fund Objective:** The investment seeks to track the performance of a benchmark index that measures the investment return of large- and mid-capitalization stocks.

**Fund Strategy:** The fund employs an indexing investment approach designed to track the performance of the FTSE4Good US Select Index. The index, which is market-capitalization weighted, is composed of large- and mid-cap stocks of companies that are screened for certain ESG criteria by the index sponsor. The manager attempts to replicate the target index by investing all, or substantially all, of its assets in the stocks that make up the index, holding each stock in approximately the same proportion as its weighting in the index.

**Fund Risk:** Value and growth stocks can perform differently from other types of stocks. Growth stocks can be more volatile. Value stocks can continue to be undervalued by the market for long periods of time. Stock markets are volatile and can decline significantly in response to adverse issuer, political, regulatory, market, economic or other developments. These risks may be magnified in foreign markets. Additional risk information for this product may be found in the prospectus or other product materials, if available.

**Fund short term trading fees:** None

**Who may want to invest:**

- Someone who is seeking the potential for long-term share-price appreciation and, secondarily, dividend income.
- Someone who is seeking both growth- and value-style investments and who is willing to accept the volatility associated with investing in the stock market.

**Footnotes:**

- This description is only intended to provide a brief overview of the mutual fund. Read the fund's prospectus for more detailed information about the fund.
- The FTSE4Good US Select Index is a socially responsible investment (SRI) index of US stocks that excludes companies with certain business activities such as weapons, tobacco, gambling, alcohol, nuclear power, and adult entertainment. Additionally, in order to be included companies must meet a series of stringent environmental and social criteria in areas including environmental management, labor rights, human rights, health and safety, and diversity.
- **Additional Risk Information:** The Fund's social responsibility criteria will affect the fund's exposure to certain issuers, industries, sectors, regions and countries and could cause the fund to sell or avoid stocks that subsequently perform well. In addition, stocks that do not meet the social criteria could outperform those that do.
- The analysis on these pages may be based, in part, on adjusted historical returns for periods prior to the class's actual inception of 02/07/2019. These calculated returns reflect the historical performance of the oldest share class of the fund, with an inception date of 01/14/2003, adjusted to reflect the fees and expenses of this share class (when this share class's fees and expenses are higher.) Please refer to a fund's prospectus for information regarding fees and expenses. These adjusted historical returns are not actual returns. Calculation methodologies utilized by Morningstar may differ from those applied by other entities, including the fund itself.

---

## Vanguard Real Estate Index Fund Institutional Shares

**VRS Code:** 849961

**Fund Objective:** The investment seeks to provide a high level of income and moderate long-term capital appreciation by tracking the performance of the MSCI US Investable Market Real Estate 25/50 Index that measures the performance of publicly traded equity REITs and other real estate-related investments.

**Fund Strategy:** The advisor attempts to track the index by investing all, or substantially all, of its assets-either directly or indirectly through a wholly owned subsidiary, which is itself a registered investment company-in the stocks that make up the index, holding each stock in approximately the same proportion as its weighting in the index. The fund is non-diversified.

**Fund Risk:** Real Estate is a cyclical industry that is sensitive to interest rates, economic conditions (both nationally and locally), property tax rates, and other factors. Changes in real estate values or economic downturns can have a significant negative effect on issuers in the real estate industry. Stock markets are volatile and can decline significantly in response to adverse issuer, political, regulatory, market, economic or other developments. These risks may be magnified in foreign markets. Sector funds can be more volatile because of their narrow concentration in a specific industry. In general the bond market is volatile, and fixed income securities carry interest rate risk. (As interest rates rise, bond prices usually fall, and vice versa. This effect is usually more pronounced for longer-term securities.) Fixed income securities also carry inflation risk and credit and default risks for both issuers and counterparties. Unlike individual bonds, most bond funds do not have a maturity date, so avoiding losses caused by price volatility by holding them until maturity is not possible. Additional risk information for this product may be found in the prospectus or other product materials, if available.

**Fund short term trading fees:** None

**Who may want to invest:**

- Someone who is willing to accept the potentially lower diversification and higher risks associated with investing in a particular industry or sector.
- Someone who is seeking to complement his or her core holdings with investments concentrated in a particular sector or industry.

**Footnotes:**

- This description is only intended to provide a brief overview of the mutual fund. Read the fund's prospectus for more detailed information about the fund.
- MSCI US Investable Market Real Estate 25/50 Transition Index measures the performance of publicly traded equity REITs and other real estate-related investments.
- The analysis on these pages may be based, in part, on adjusted historical returns for periods prior to the class's actual inception of 12/02/2003. These calculated returns reflect the historical performance of the oldest share class of the fund, with an inception date of 05/13/1996, adjusted to reflect the fees and expenses of this share class (when this share class's fees and expenses are higher.) Please refer to a fund's prospectus for information regarding fees and expenses. These adjusted historical returns are not actual returns. Calculation methodologies utilized by Morningstar may differ from those applied by other entities, including the fund itself.

**Vanguard Small-Cap Value Index Fund Institutional Shares****VRS Code:** 849993**Fund Objective:** The investment seeks to track the performance of the CRSP US Small Cap Value Index that measures the investment return of small-capitalization value stocks.**Fund Strategy:** The fund employs an indexing investment approach designed to track the performance of the CRSP US Small Cap Value Index, a broadly diversified index of value stocks of small U.S. companies. The advisor attempts to replicate the target index by investing all, or substantially all, of its assets in the stocks that make up the index, holding each stock in approximately the same proportion as its weighting in the index.**Fund Risk:** The securities of smaller, less well-known companies can be more volatile than those of larger companies. Value stocks can perform differently than other types of stocks and can continue to be undervalued by the market for long periods of time. Stock markets are volatile and can decline significantly in response to adverse issuer, political, regulatory, market, economic or other developments. These risks may be magnified in foreign markets. Additional risk information for this product may be found in the prospectus or other product materials, if available.**Fund short term trading fees:** None**Who may want to invest:**

- Someone who is seeking the potential for long-term share-price appreciation and, secondarily, dividend income.
- Someone who is comfortable with value-style investments and the potentially greater volatility of investments in smaller companies.

**Footnotes:**

- This description is only intended to provide a brief overview of the mutual fund. Read the fund's prospectus for more detailed information about the fund.
- The CRSP US Small Cap Value Index includes U.S. companies that fall between the bottom 2%-15% of the investable market capitalization. There is no lower limit in market capitalization, other than what is specified by investability screens. CRSP classifies value securities using the following factors: book to price, forward earnings to price, historic earnings to price, dividend-to-price ratio and sales-to-price ratio.
- The analysis on these pages may be based, in part, on adjusted historical returns for periods prior to the class's actual inception of 12/07/1999. These calculated returns reflect the historical performance of the oldest share class of the fund, with an inception date of 05/21/1998, adjusted to reflect the fees and expenses of this share class (when this share class's fees and expenses are higher.) Please refer to a fund's prospectus for information regarding fees and expenses. These adjusted historical returns are not actual returns. Calculation methodologies utilized by Morningstar may differ from those applied by other entities, including the fund itself.

**Vanguard Target Retirement 2015 Trust Plus****VRS Code:** 905061**Fund Objective:** Seeks to provide capital appreciation and current income consistent with its current asset allocation.**Fund Strategy:** The trust invests in Vanguard mutual funds using an asset allocation strategy designed for investors planning to retire and leave the workforce in or within a few years of 2015 (the target year). The trust's asset allocation will become more conservative over time. Within seven years after 2015, the trust's asset allocation should resemble that of the Target Retirement Income Trust Plus. Unit price and return will vary.

**Fund Risk:** The target date funds are designed for investors expecting to retire around the year indicated in each fund's name. The funds are managed to gradually become more conservative over time as they approach their target date. The investment risk of each target date fund changes over time as its asset allocation changes. They are subject to the volatility of the financial markets, including that of equity and fixed income investments in the U.S. and abroad, and may be subject to risks associated with investing in high-yield, small-cap, and foreign securities. Principal invested is not guaranteed at any time, including at or after their target dates. Additional risk information for this product may be found in the prospectus or other product materials, if available.

**Fund short term trading fees:** None

**Who may want to invest:**

- Someone who is seeking an investment option intended for people in or very near retirement and who is willing to accept the volatility of diversified investments in the market.
- Someone who is seeking a diversified mix of stocks, bonds, and short-term investments in one investment option or who does not feel comfortable making asset allocation choices over time.

**Footnotes:**

- The investment option is a collective investment trust. It is managed by Vanguard. This description is only intended to provide a brief overview of the fund.
- This investment option is not a mutual fund.
- The analysis on these pages may be based, in part, on adjusted historical returns for periods prior to the class's actual inception of 08/15/2011. The returns are provided by Morningstar and reflect the historical performance of the oldest, eligible share class of the Pool with reported expenses and an inception date of 06/28/2007, adjusted to reflect the fees and expenses of this share class (when this share class's fees and expenses are higher.) The adjusted historical returns are not actual returns. Calculation methodologies utilized by Morningstar may differ from those applied by other entities, including the Pool itself. Please refer to a Pool's offering materials for information regarding its' fees and expenses.

---

## Vanguard Target Retirement 2020 Trust Plus

**VRS Code:** 905062

**Fund Objective:** Seeks to provide capital appreciation and current income consistent with its current asset allocation.

**Fund Strategy:** The trust invests in Vanguard mutual funds using an asset allocation strategy designed for investors planning to retire and leave the workforce in or within a few years of 2020 (the target year). The trust's asset allocation will become more conservative over time. Within seven years after 2020, the trust's asset allocation should resemble that of the Target Retirement Income Trust Plus. Unit price and return will vary.

**Fund Risk:** The target date funds are designed for investors expecting to retire around the year indicated in each fund's name. The funds are managed to gradually become more conservative over time as they approach their target date. The investment risk of each target date fund changes over time as its asset allocation changes. They are subject to the volatility of the financial markets, including that of equity and fixed income investments in the U.S. and abroad, and may be subject to risks associated with investing in high-yield, small-cap, and foreign securities. Principal invested is not guaranteed at any time, including at or after their target dates. **Vanguard Target Retirement 2035 Trust Plus****VRS Code:** 905065**Fund Objective:** Seeks to provide capital appreciation and current income consistent with its current asset allocation.**Fund Strategy:** The trust invests in Vanguard mutual funds using an asset allocation strategy designed for investors planning to retire and leave the workforce in or within a few years of 2035 (the target year). The trust's asset allocation will become more conservative over time. Within seven years after 2035, the trust's asset allocation should resemble that of the Target Retirement Income Trust Plus. Unit price and return will vary.**Fund Risk:** The target date funds are designed for investors expecting to retire around the year indicated in each fund's name. The funds are managed to gradually become more conservative over time as they approach their target date. The investment risk of each target date fund changes over time as its asset allocation changes. They are subject to the volatility of the financial markets, including that of equity and fixed income investments in the U.S. and abroad, and may be subject to risks associated with investing in high-yield, small-cap, and foreign securities. Principal invested is not guaranteed at any time, including at or after their target dates. Additional risk information for this product may be found in the prospectus or other product materials, if available.**Fund short term trading fees:** None**Who may want to invest:**

- Someone who is seeking an investment option that gradually becomes more conservative over time and who is willing to accept the volatility of the markets.
- Someone who is seeking a diversified mix of stocks, bonds, and short-term investments in one investment option or who does not feel comfortable making asset allocation choices over time.

**Footnotes:**

- The investment option is a collective investment trust. It is managed by Vanguard. This description is only intended to provide a brief overview of the fund.
  - This investment option is not a mutual fund.
  - The analysis on these pages may be based, in part, on adjusted historical returns for periods prior to the class's actual inception of 08/15/2011. The returns are provided by Morningstar and reflect the historical performance of the oldest, eligible share class of the Pool with reported expenses and an inception date of 06/28/2007, adjusted to reflect the fees and expenses of this share class (when this share class's fees and expenses are higher.) The adjusted historical returns are not actual returns. Calculation methodologies utilized by Morningstar may differ from those applied by other entities, including the Pool itself. Please refer to a Pool's offering materials for information regarding its' fees and expenses.
- 

**Vanguard Target Retirement 2040 Trust Plus****VRS Code:** 905066**Fund Objective:** Seeks to provide capital appreciation and current income consistent with its current asset allocation.**Fund Strategy:** The trust invests in Vanguard mutual funds using an asset allocation strategy designed for investors planning to retire and leave the workforce in or within a few years of 2040 (the target year). The trust's asset allocation will become more conservative over time. Within seven years after 2040, the trust's asset allocation should resemble that of the Target Retirement Income Trust Plus. Unit price and return will vary.

**Fund Risk:** The target date funds are designed for investors expecting to retire around the year indicated in each fund's name. **Vanguard Target Retirement 2065 Trust Plus****VRS Code:** 905071**Fund Objective:** Seeks to provide capital appreciation and current income consistent with its current asset allocation.**Fund Strategy:** The trust invests in Vanguard mutual funds using an asset allocation strategy designed for investors planning to retire and leave the workforce in or within a few years of 2065 (the target year). The trust's asset allocation will become more conservative over time. Within seven years after 2065, the trust's asset allocation should resemble that of the Target Retirement Income Trust Plus. Unit price and return will vary.**Fund Risk:** The target date funds are designed for investors expecting to retire around the year indicated in each fund's name. The funds are managed to gradually become more conservative over time as they approach their target date. The investment risk of each target date fund changes over time as its asset allocation changes. They are subject to the volatility of the financial markets, including that of equity and fixed income investments in the U.S. and abroad, and may be subject to risks associated with investing in high-yield, small-cap, and foreign securities. Principal invested is not guaranteed at any time, including at or after their target dates. Additional risk information for this product may be found in the prospectus or other product materials, if available.**Fund short term trading fees:** None**Who may want to invest:**

- Someone who is seeking an investment option that gradually becomes more conservative over time and who is willing to accept the volatility of the markets.
- Someone who is seeking a diversified mix of stocks, bonds, and short-term investments in one investment option or who does not feel comfortable making asset allocation choices over time.

**Footnotes:**

- The investment option is a collective investment trust. It is managed by Vanguard. This description is only intended to provide a brief overview of the fund.
  - This investment option is not a mutual fund.
- 

**Vanguard Target Retirement Income Trust Plus****VRS Code:** 905060**Fund Objective:** Seeks to provide current income and some capital appreciation.**Fund Strategy:** The trust invests in Vanguard mutual funds according to an asset allocation strategy designed for investors currently in retirement. Unit price and return will vary.**Fund Risk:** The fund is subject to the volatility of the financial markets, including that of equity and fixed income investments. Fixed income investments carry issuer default and credit risk, inflation risk, and interest rate risk. (As interest rates rise, bond prices usually fall, and vice versa. This effect is usually more pronounced for longer-term securities.) Principal invested is not guaranteed at any time, including at or after retirement. Additional risk information for this product may be found in the prospectus or other product materials, if available.**Fund short term trading fees:** None**Who may want to invest:**

- Someone who is seeking an investment option intended for people in retirement and who is willing to accept the volatility of diversified investments in the market.
- Someone who is seeking a diversified mix of stocks, bonds, and short-term investments in one investment option and looking primarily for the potential for income and, secondarily, for share-price appreciation.

**Footnotes:**

- The investment option is a collective investment trust. It is managed by Vanguard. This description is only intended to provide a brief overview of the fund.
  - This investment option is not a mutual fund.
  - The analysis on these pages may be based, in part, on adjusted historical returns for periods prior to the class's actual inception of 08/15/2011. The returns are provided by Morningstar and reflect the historical performance of the oldest, eligible share class of the Pool with reported expenses and an inception date of 06/22/2007, adjusted to reflect the fees and expenses of this share class (when this share class's fees and expenses are higher.) The adjusted historical returns are not actual returns. Calculation methodologies utilized by Morningstar may differ from those applied by other entities, including the Pool itself. Please refer to a Pool's offering materials for information regarding its' fees and expenses.
- 

**Vanguard Total Bond Market Index Fund Institutional Shares****VRS Code:** 844511**Fund Objective:** The investment seeks to track the performance of the Bloomberg Barclays U.S. Aggregate Float Adjusted Index.**Fund Strategy:** This index measures the performance of a wide spectrum of public, investment-grade, taxable, fixed income securities in the United States-including government, corporate, and international dollar-denominated bonds, as well as mortgage-backed and asset-backed securities-all with maturities of more than 1 year. All of the fund's investments will be selected through the sampling process, and at least 80% of its assets will be invested in bonds held in the index.**Fund Risk:** In general the bond market is volatile, and fixed income securities carry interest rate risk. (As interest rates rise, bond prices usually fall, and vice versa. This effect is usually more pronounced for longer-term securities.) Fixed income securities also carry inflation risk and credit and default risks for both issuers and counterparties. Unlike individual bonds, most bond funds do not have a maturity date, so avoiding losses caused by price volatility by holding them until maturity is not possible. Additional risk information for this product may be found in the prospectus or other product materials, if available.**Fund short term trading fees:** None**Who may want to invest:**

- Someone who is seeking potential returns primarily in the form of interest dividends rather than through an increase in share price.
- Someone who is seeking to diversify an equity portfolio with a more conservative investment option.

**Footnotes:**

- This description is only intended to provide a brief overview of the mutual fund. Read the fund's prospectus for more detailed information about the fund.
- The Bloomberg U.S. Aggregate Float Adjusted Index measures the total universe of public, investment-grade, taxable, fixed income securities in the United States-including government, corporate, and international dollar-denominated bonds, as well as mortgage-backed and asset-backed securities-all with maturities of more than 1 year.
- The analysis on these pages may be based, in part, on adjusted historical returns for periods prior to the class's actual inception of 09/18/1995. These calculated returns reflect the historical performance of the oldest share class of the fund, with an inception date of 12/11/1986, adjusted to reflect the fees and expenses of this share class (when this share class's fees and expenses are higher.) Please refer to a fund's prospectus for information regarding fees and expenses. These adjusted historical returns are not actual returns. Calculation methodologies utilized by Morningstar may differ from those applied by other entities, including the fund itself.

**Vanguard Total International Stock Index Fund Institutional Shares****VRS Code:** 877800**Fund Objective:** The investment seeks to track the performance of a benchmark index that measures the investment return of stocks issued by companies located in developed and emerging markets, excluding the United States.**Fund Strategy:** The fund employs an indexing investment approach designed to track the performance of the FTSE Global All Cap ex US Index, a float-adjusted market-capitalization-weighted index designed to measure equity market performance of companies located in developed and emerging markets, excluding the United States. It invests all, or substantially all, of its assets in the common stocks included in its target index.**Fund Risk:** Foreign securities are subject to interest-rate, currency-exchange-rate, economic, and political risks, all of which may be magnified in emerging markets. Value and growth stocks can perform differently from other types of stocks. Growth stocks can be more volatile. Value stocks can continue to be undervalued by the market for long periods of time. Stock markets are volatile and can decline significantly in response to adverse issuer, political, regulatory, market, economic or other developments. Additional risk information for this product may be found in the prospectus or other product materials, if available.**Fund short term trading fees:** None**Who may want to invest:**

- Someone who is seeking to complement a portfolio of domestic investments with international investments, which can behave differently.
- Someone who is willing to accept the higher degree of risk associated with investing overseas.

**Footnotes:**

- This description is only intended to provide a brief overview of the mutual fund. Read the fund's prospectus for more detailed information about the fund.
- The FTSE Global All Cap ex US Index is part of a range of indices designed to help US investors benchmark their international investments. The index comprises large, mid and small cap stocks globally excluding the US.
- The analysis on these pages may be based, in part, on adjusted historical returns for periods prior to the class's actual inception of 11/29/2010. These calculated returns reflect the historical performance of the oldest share class of the fund, with an inception date of 04/29/1996, adjusted to reflect the fees and expenses of this share class (when this share class's fees and expenses are higher.) Please refer to a fund's prospectus for information regarding fees and expenses. These adjusted historical returns are not actual returns. Calculation methodologies utilized by Morningstar may differ from those applied by other entities, including the fund itself.

**Victory Sycamore Established Value Fund Class R6****VRS Code:** 872212**Fund Objective:** The investment seeks long-term capital growth by investing primarily in common stocks.**Fund Strategy:** Under normal circumstances, at least 80% of the fund's assets will be invested in equity securities of companies with market capitalizations, at the time of purchase, within the range of companies comprising the Russell MidCap® Value Index. It may invest a portion of its assets in equity securities of foreign companies traded in the U.S., including American Depositary Receipts and Global Depositary Receipts (ADRs and GDRs).

**Fund Risk:** Value stocks can perform differently than other types of stocks and can continue to be undervalued by the market for long periods of time. The securities of smaller, less well-known companies can be more volatile than those of larger companies. Stock markets are volatile and can decline significantly in response to adverse issuer, political, regulatory, market, economic or other developments. These risks may be magnified in foreign markets. Additional risk information for this product may be found in the prospectus or other product materials, if available.

**Fund short term trading fees:** None

**Who may want to invest:**

- Someone who is seeking the potential for long-term share-price appreciation and, secondarily, dividend income.
- Someone who is comfortable with value-style investments and the potentially greater volatility of investments in smaller companies.

**Footnotes:**

- This description is only intended to provide a brief overview of the mutual fund. Read the fund's prospectus for more detailed information about the fund.
- The Russell Midcap<sup>®</sup> Value Index is an unmanaged market capitalization-weighted index of medium-capitalization value-oriented stocks of U.S. domiciled companies that are included in the Russell Midcap Index. Value-oriented stocks tend to have lower price-to-book ratios and lower forecasted growth values.
- The analysis on these pages may be based, in part, on adjusted historical returns for periods prior to the class's actual inception of 03/04/2014. These calculated returns reflect the historical performance of the oldest share class of the fund, with an inception date of 08/16/1983, adjusted to reflect the fees and expenses of this share class (when this share class's fees and expenses are higher.) Please refer to a fund's prospectus for information regarding fees and expenses. These adjusted historical returns are not actual returns. Calculation methodologies utilized by Morningstar may differ from those applied by other entities, including the fund itself.

# What is the Roth 401(k) Contribution Option?

A Roth contribution is available to employees who participate in the 401(k) plan. For payroll purposes, Roth contributions are treated as after tax. This feature will allow participants to make Roth contributions to their plan while taking their earnings completely **tax-free** at retirement—as long as the withdrawal is a qualified one. A qualified withdrawal is one that can be taken five tax years after the year of the first Roth contribution *and* after the participant has attained age 59½, has become disabled, or has died.

If you qualify to make traditional 401(k) contributions, you are eligible for a Roth 401(k) contribution.

## How does a Roth 401(k) contribution option work?

You elect an amount of your salary that you wish to contribute to the Roth source, just as you would for your traditional 401(k). The contribution is based on your eligible compensation, not on your net pay — for example, if your total annual eligible compensation is \$40,000 per year and you elect a 6% deferral amount, then \$2,400 per year would go into your Roth 401(k) account.

Unlike your traditional 401(k) pretax contribution, with a Roth 401(k) contribution, you pay the taxes now on the contributions you make—but later your earnings are all tax-free, if you meet certain criteria.

*Example:* Sally earns \$40,000 and has elected to put 6% toward her Roth 401(k) contributions and 6% toward her traditional 401(k) pretax contributions on a monthly basis.

	ROTH 401(k)*	TRADITIONAL 401(k)*
Sally's monthly contribution into each account	\$200	\$200
Sally's reduction in take-home pay	\$200	\$156

\*This hypothetical example is based solely on an assumed federal income tax rate of 22%. No other payroll deductions are taken into account. Your own results will be based on your individual tax situation.

Your combined Roth and traditional pretax 401(k) contributions cannot exceed the IRS limits for the year.

## Would a Roth 401(k) contribution option benefit me?

The potential benefits of Roth 401(k) contributions really depend on your personal situation, but are mainly focused on your existing tax rate and your anticipated tax rate at the time of retirement. If you are contributing to a Roth, you are giving up a tax break today for a tax break in the future.

Therefore, a Roth contribution might benefit you if your tax rate in retirement were **higher** than it had been during the years you contributed.

If your tax rate were **lower** in retirement, then a traditional 401(k) might be more beneficial to you than the Roth option. Talk with a tax professional for more information on how to determine if Roth 401(k) contributions are right for you.

## Is a traditional pretax 401(k) still beneficial?

Yes. For many participants, a traditional pretax 401(k) will still be the most beneficial type of retirement savings plan. We do not know what the future holds regarding tax rates. Therefore, it is not possible to predict with certainty which type of 401(k) savings will be most beneficial to a participant.

Remember, because Roth 401(k) contributions are made after tax, you may take home less money in your paycheck than you would if you contributed to a traditional pretax 401(k).

VMware, Inc.  
3401 Hillview Avenue  
Palo Alto, CA 94304

**Plan Name:** The VMware Inc. 401(k) Savings Plan

**Plan #:** 75472

## Incoming Rollover Instructions

"Rolling over" money into the VMware Inc. 401(k) Savings Plan is a three-step process. Please follow these instructions to ensure that this process is completed in a timely and accurate manner. *Please Note:* Failure to follow these instructions may result in a delay in the processing of your request and may jeopardize your ability to roll over your distribution.

### Step 1. Request your distribution

*Request a direct rollover distribution from your previous eligible retirement plan. See the Rollover Contribution Form for a list of the types of plans or accounts from which rollovers may be made to your employer's plan. There are two distribution check payable options:*

#### Option 1.

The check can be made payable to Fidelity Investments Institutional Operations Company LLC (or FIIOC), for the benefit of (YOUR NAME). The check must be from the distributing trustee or custodian. (Personal checks are not acceptable.)

**Note:** This type of distribution avoids automatic income tax withholding. Also, it avoids the possible 10% early withdrawal penalty if you are under the age of 59 ½.

#### Option 2.

If the distribution was originally made payable directly to you, you must send your rollover contribution to Fidelity via a certified check or money order only for the amount you are rolling over. (Personal checks are not acceptable.)

**Note:** If your distribution is initially received as a check made payable to you, your rollover must be completed within 60 days of receipt of the distribution. Your previous administrator will be required to withhold income taxes. As a result, you will not be able to roll over 100% of your eligible distribution unless you have extra savings available to make up the amount withheld. You must also roll over that amount within 60 days of receipt of your distribution. If you do not make up the amount withheld, that amount will be considered a withdrawal from the previous program and the taxable portion will be subject to ordinary income taxes and possibly a 10% early withdrawal penalty.

*Fidelity does not accept wire transfers of funds. You must request a CHECK from your previous plan or IRA.*

*The check should be mailed directly to you. Once you have received the check, please follow the directions in Step 2.*

## **Step 2. Initiate your rollover request**

Please log on to NetBenefits® at [www.401k.com](http://www.401k.com) to initiate your request or complete the Incoming Rollover Contribution Form. Please be sure to complete all items and sign the form if indicated.

Failing to properly complete the process will result in your transaction not being processed and your check being returned to you. This form and any separate documentation required by your Plan Sponsor will be reviewed through an automated process. Fidelity will not consider or act upon any unrequested documentation or any information provided outside the areas of the form where specific information has been requested.

Please Note: This rollover contribution will be invested based on the investment elections you have on file for rollover contributions to the Plan. If you have not made investment elections for rollover contributions, this amount will be invested in the Plan-designated default investment option. If you wish to make investment elections for your rollover contribution, please do so via NetBenefits or by contacting Fidelity Investments prior to submitting this form.

If you are not sure of the plan type that you are rolling out of, please contact your previous plan sponsor or IRA custodian for verification. An incorrect plan type could invalidate your rollover.

## **Step 3. Mail the information**

Mail (1) the Incoming Rollover Contribution Application and (2) the check to:

FIRST CLASS MAIL WITH STAMP:

Fidelity Investments  
Client Service Operations  
P.O. Box 770003  
Cincinnati, OH 45277-0065

### **Overnight Address:**

Fidelity Investments  
Client Service Operations (KC1F-L)  
100 Crosby Parkway  
Covington, KY 41015

Please include all the information requested. Incomplete forms and the accompanying check will be returned to you and may jeopardize your ability to roll over your distribution.

Once your contribution is accepted into the VMware Inc. 401(k) Savings Plan, you can log on to Fidelity NetBenefits® at [www.401k.com](http://www.401k.com) to view your rollover contribution and investment election(s). Please allow at least seven business days for processing. If you have any questions about rollover contributions, call **1-800-835-5095**. Please be sure you have beneficiary information for the Plan on file.

To establish or change your beneficiary information for the VMware Inc. 401(k) Savings Plan, please access [www.401k.com](http://www.401k.com).

You should make a copy of the check and the Incoming Contribution Application for your records.

#### Section Two: Rollover Contribution Information

##### Acceptable rollover sources

**The Plan will accept** taxable money\* from the following types of employer-sponsored plans: 401(k) plans; Roth 401(k) accounts; 401(a) plans; Roth 401(a) accounts; 403(b) plans (e.g., plans of tax exempt organizations); Roth 403(b) accounts; governmental 457(b) plans. The Plan will also accept rollovers of after-tax contributions and eligible distributions you may receive as a spousal beneficiary or a participant in one of these plans. Additionally, the Plan will accept rollovers of taxable amounts from conduit ("rollover") IRAs and non-conduit IRAs.

**\* Taxable money is defined as pretax contributions (employee and employer), earnings on pretax contributions, and taxable earnings on after-tax contributions from your previous employer's plan.**

Enclosed Contribution:

<input type="text"/> <input type="text"/> / <input type="text"/> <input type="text"/> / <input type="text"/> <input type="text"/> <input type="text"/>	Date of first Roth 401(k) contribution	

Please provide the following information concerning the origin of this rollover: Plan name: \_\_\_\_\_

401(k) Plan

Governmental 457(b) Plan

Conduit IRA (rollover IRA)

401(a) Plan

Roth 401(a)/401(k) Plan

Nonconduit IRA

403(b) Plan

Roth 403(b) Plan

**Unacceptable rollover sources**

The Plan cannot accept money from the following sources: Roth 457(b) accounts; rollovers from beneficiaries (other than from a spouse); payments over a life expectancy or a period of 10 or more years; or mandatory age-72\* distributions. Also, unacceptable are hardship distributions; distributions to a former spouse under a qualified domestic relations order (QDRO); distributions to a beneficiary (other than a spousal beneficiary); IRAs; Roth IRAs; Coverdell Education IRAs; traditional IRAs; Simplified Employee Pension plans (SEP-IRAs); "SIMPLE" IRA distributions; qualified domestic relations orders (QDROs); or retirement plans of foreign countries. In-kind distributions of employer stock are not acceptable; therefore, stock must be sold and the proceeds (including any appreciation realized through the date of distribution) may be rolled over.

\* The change in the RMD age requirement from 70½ to 72 only applies to individuals who turn 70½ on or after January 1, 2020. Please speak with your tax advisor regarding the impact of this change on future RMDs.

**Section Three: Investment Elections**

I direct Fidelity to invest my rollover contribution into my current investment mix applicable to rollover contributions. If I have not selected an investment mix on my own via NetBenefits® or by telephone, I understand that this rollover contribution will be invested in the Plan's default investment option as directed by my employer.

To make an investment election or to request a fund prospectus please log on to [www.401k.com](http://www.401k.com).

**Section Four: Participant Certification**

I authorize the investment election for this rollover and acknowledge that I have received information detailing my available investment options. I acknowledge that my rollover contribution will be invested according to the investment election on file at Fidelity. I also acknowledge that if I do not already have investment elections on file at Fidelity, my rollover contribution will be invested in my plan's default investment option.

I certify that this rollover amount is composed ONLY of money from acceptable sources listed under Section Two, and I have completed the information regarding the source of this money to the best of my knowledge. Also, if the distribution check was made payable to me, I understand that this rollover must be received and deposited to my account within 60 days of receipt of the distribution. I understand that, once invested, these monies will be subject to the terms that govern the VMware Inc. 401(k) Savings Plan.
