Cy-Fair Women's Club

CY-FAIR WOMEN'S CLUB WOMEN SERVING THE COMMUNITY

CWC is a non-profit service organization that gives back to the Cy-Fair community. All the funds raised by the club are given to the community by way of scholarships for graduating high school seniors, grants at Lone Star College-CyFair and funds to other non-profits in our community as well.

Membership for the Cy-Fair Women's Club is open to all ladies in Northwest Houston/Cypress neighborhoods. We always meet the **first Thursday of the month** at Juergen's Hall Community Center, 26026 Hempstead Road, Cypress, TX 77429 (near Fry and Hwy. 290). Our meetings begin with social time and refreshments at 6:15 PM, immediately followed by a program at 6:45 PM.

Our monthly meetings are not only educational and enjoyable, but they can also develop lasting friendships too. In addition, we have a social event and volunteer opportunities throughout the month as well. Please check out our website at cyfairwomensclub.org and contact Susan McLeroy in Membership at susan.mcleroy@garygreene.com if you have any questions about the club or our meeting location. We look forward to meeting you there!

COYOTES IN COPPERFIELD

Coyotes have been sighted in many of the subdivisions in the Copperfield area at night and before dawn. Please protect your pets. They should not be left unattended after dark, even in their own enclosed yard as coyotes can jump or scale a 6-7 ft fence.

MESSAGE FROM THE CY-FAIR VOLUNTEER FIRE DEPARTMENT

The Cy-Fair Volunteer Fire Department is requesting homeowner assistance in addressing the low hanging trees within the community. These low hanging branches or limbs are hampering responses to calls for assistance. The branches and limbs are damaging equipment and Homeowner's trees. Routes to locations have to be altered. Some locations are unable to have an alternate route, leaving no recourse but to park the apparatus and walk to the location.

Several pieces of equipment are 13 feet tall and CVFVD is requesting that homeowners trim the trees to have a 14 feet umbrella over the street. The Department members have been instructed not to damage their apparatus or the Homeowner's trees by driving down streets that do not have appropriate passage. The fire department does not wish to have a citizen with a fire or medical emergency that delays them receiving attention due to having to locate an alternate route or being forced to walk to the emergency location. If damage is caused by a homeowner's tree, the homeowner will be held responsible for the repair.

COPPERFIELD PLACE VILLAGE NEWS

(CPV) A WORD FROM THE BOARD

Autumn is here and Thanksgiving is just around the corner. We are looking forward to cooler weather. We are still facing hurricane season until the end of **November**, so stay alert.

SPECIAL THANKS for our pool and parks volunteers who made sure our pool was clean for your use the next day. It is not a good thing to have to clean up after each and everyone who leaves their messes behind!! Without them we would have to limit our pool hours in order to clean behind you. They do this for you, so please do your share by not leaving trash behind you.

EASTON COMMONS VILLAGE NEWS

(EC) YARD OF THE MONTH

Congratulations to our Yard of the Month winner! The September recipient was Nancy Mitchell at 15111 Easton Park. Thanks to all of the Easton Commons owners who do so much to keep up the appearance of their property!

(EC) EGRETS AND HERONS HAVE COME TO EASTON COMMONS

As I'm sure many of you are already aware, Easton Commons has become a nesting area for egrets and herons. At this point in the season, the owners of affected properties are very limited in what they can do to be rid of this problem, as egrets, herons and other migratory birds are protected by international treaty and it's illegal for residents to harass or harm the birds once they lay eggs. However, because

the condition of nesting areas creates extremely unattractive and unsanitary conditions that can have a negative impact on property values, we want all of the community to be aware of the issue so that the birds' return can be prevented in the spring of **2019**.

Any home with mature trees is a potential nesting site for these birds but they especially like oak trees with touching canopies. Prevention is crucial - when the birds first arrive in spring, they are somewhat nervous and more easily scared away. The absolute critical time period is between when the first bird is spotted in the area until the first egg is laid in a nest. This is the crunch time when you have the only opportunity to scare the birds away and to disrupt the problem.

Putting visual deterrents in trees is recommended before nest building begins. You can also scare off birds with noisemakers, water sprayers and other non-lethal devices. Neighbors are advised to check their trees daily and remove the start of any nest. Once birds begin sitting on the nest, eggs are probably present and birds cannot be harassed.

Watch for Signs - Night herons are the first to migrate in **mid-February**. While not usually a nuisance, the presence of night herons lets other migrating birds know they've found a good place to nest. It is important for the entire neighborhood to act together. Our hope is migrating birds eventually make their rookery in trees away from residential homes.

Serving Houston For Over 20 Years

Below is a list of possible tools and tactics you can use to deter migratory birds from nesting on your property. Experts say a variety of deterrents works best. Just remember - do not harm birds or eggs.

- Trim your trees - Remove dead wood. Thin tree canopy to allow sunlight between limbs and other trees. Experts say this is the most effective step you can take.
- Visual deterrents - Hang aluminum pie plates, Mylar balloons, beach balls with shiny streamers or other moving objects in large trees before **mid-Feb.**
- Noisemakers - Pump-style air horns, whistles, clappers and even children's toys are effective. Make as much noise as possible aimed at the bird.
- Bright lights - High-intensity flashlights, strobe lights, flashing holiday lights can be effective.
- Water sprayers - Power sprayers and pump-style toy water shooters can help. Homemade PVC pipe sprayers can help reach tall tree limbs.
- Pool poles - Telescoping pool safety poles can be used to reach and remove early nesting material.

REMEMBER THAT RESIDENTS ARE RESPONSIBLE FOR THEIR OWN PROPERTY

(EC) COMMUNITY CENTER

(EC) VACATION WATCH

The Harris County Sheriff's Department has a Vacation Watch Program. To sign up see the website: www.harriscountyo.org/Programs/programs_VacationWatch.aspx.

(EC) MOSQUITO CONTROL

Although the Easton Commons HOA has mosquito control come through regularly during the summer, it is not enough to get rid of them completely. The summer months can be uncomfortable, due to all of the biting insects. One of the best ways to prevent mosquitoes is to eliminate their breeding grounds. Controlling mosquitoes also minimizes the risk of mosquito-borne diseases, including St. Louis encephalitis and West Nile Virus encephalitis. Homeowners need to scan their property and dispose of or remedy anything causing standing water. The eggs that mosquitoes lay in rainwater hatch in as little as two days. Tip over buckets or containers, flowerpots with reservoirs, toys, boats, wheelbarrows, birdbaths and wading pools. Clean clogged roof gutters; fill in low areas of the yard that collects water, dispose of leaf piles and chlorinate pools. Treat water in fountains or water gardens if the water does not flow on a regular basis.

(EC) CURB REPAIR

Curbs are repaired through Harris County Precinct 4. To request a work order, visit their website - www.hcp4.net/cad/. You also may call 281-353-8424 or fax a report to 281-893-5589. The homeowner's must be involved with the request. Only the straight part of the curb in front of the home will be repaired. The end of the driveway and the inlet (curved smaller area) to the driveway is the homeowner's responsibility.

Precinct 4 has been remarkably responsive to requests, often making repairs in only two to three days.

(EC) TRASH PICK UP SERVICE

All Residents must have an account with WCA for trash pickup. If you do not have an account with WCA, your trash will no longer be picked up.

Trash pickup days are **Tuesdays** for trash and **Fridays** for trash and recycling. Have waste ready at the curb for collection no later than 7 AM. Residents may purchase a trash receptacle from any hardware store. Recycling boxes may be requested from WCA, additional boxes may be purchased from them as well. WCA Phone# 281-766-1914.

MIDDLGATE VILLAGE NEWS

(MG) MIDDLEGATE GARAGE SALE SATURDAY, OCTOBER 13TH

You've been looking forward to the date. From 7 AM to 3 PM on **October 13th**, Middlegate welcomes you to set up a garage sale on your property.

Whether you're an experienced garage sale merchant or a first time seller, be prepared for success. Here are tips to consider from DIY freelance writer Ellen Ford:

STAGE THE SHOW: We ran out of tables to put small items on, so I got a little creative and pulled out a large tarp and some clean, blank cardboard to make a display on the ground. Guess what? Nothing on the ground sold. NOTHING. The lesson? Get everything up off the ground and onto tables, shelves and clothing racks. Even if you have to fake a clothing rack with a sawhorse, do it. People browsed the... ahem... WELL-LOVED snowboarding jackets my husband put on a clothing rack far more than the adorable, barely worn baby clothes I had on the cardboard/tarp on the ground. It makes literally no sense - baby clothes are usually a hot ticket item at yard sales. And being a picky perfectionist, these were barely worn, excellent condition, name brand clothes.

CASH: Do Not Forget The Bank. Barely by the skin of our teeth, we remembered to go get plenty of ones, fives, tens and quarters. By the end of the day, we were swimming in ones and fives, but in the early morning, everyone was passing us twenty dollar bills for purchases of \$1.50.

(MG) HOA BOARD OF DIRECTORS, MEETINGS AND MORE

Your Middlegate HOA Board is made up of Board members, called Directors. The Directors routinely meet each month to conduct HOA business. If you'd like to attend the general session of a monthly meeting, you're welcome to drop in. Meetings are held at the Copperfield Community Center typically the **first Wednesday of the month**. Refer to calendar on SCS Go site for meeting dates. If you'd like to be placed on agenda to discuss a particular matter, contact SCS in advance of meeting to be scheduled in. Call Margie Naranjo at 281-500-7138.

Note that Directors terms are limited to two years. Terms overlap to create continuity and maintain flow of business. The election to fill expiring director positions is held at the annual meeting in spring. All lot owners will be sent notice of the annual meeting. Included in the mailing will be a proxy form. The proxy form can be used to assign another lot owner to vote for a director candidate. For instance, if you are unable to attend the annual meeting, you can appoint another lot owner to cast your vote.

These Board members are your Middlegate neighbors. Each has accepted the duty of serving the needs of Middlegate. Consider running for an HOA Board director position. You'll gain a deeper appreciation of your community, while working side by side with others like you.

WESTCREEK CRIME WATCH COMMITTEE

Meetings - 3rd Monday at 6 PM Forest Heights Pool Meeting Room
For next meeting, contact lberger@comcast.net.

NATIONAL NIGHT OUT KUDOS

Many thanks to our wonderful neighbors who volunteered to host a "block gathering" for National Night Out (NNO), which was celebrated on **Tuesday, October 2nd**. Also a big thank you to the nine neighbors who gave up their time to participate and to sponsor a 'know your neighbor event.' At many of the gatherings, Sheriff's Deputies stopped by and visited with the various groups for the purpose of strengthening community bonds and or discussing various crime prevention tips. HEB, Target and the Westcreek Homeowners Association made donations to help the sponsors host their events. This generosity is sincerely appreciated.

Westcreek would like a captain for each block, so if you would like to serve in this rewarding position, please contact Larry Berger at lberger@comcast.net.

We all want to live in a safe community!!! So please join our group once a month for less than an hour to discuss various ways to make Westcreek the safest neighborhood possible. And as always, keep your vehicles locked and remember to remove all valuables. If you see something suspicious, please call the Sheriff Dept. non-emergency number 713-221-6000 #6.

COURTESY ISSUE

As children are walking and riding their bikes to and from school, please make sure your sprinkler system is turned off during these times. Many sprinklers are going off and making it a difficult for children to get to their destination without getting wet.

WESTCREEK LANDSCAPE COMMITTEE

It has been a long, HOT and mostly dry summer this year. Thanks to all for keeping their lawn and garden areas hydrated and looking great.

CHINCH BUGS or BROWN PATCH?

As the weather starts to cool in **October**, brown patch inevitably starts to show its ugly face in the form of yellow circles on our lawns. Many homeowners have a hard time telling whether they have brown patch or if there is some sort of insect feasting on their lawn areas. To clarify: Brownpatch is a fungus and usually appears in the same areas repeat-

edly, thriving when temperatures drop overnight below 70 degrees for several nights, even if previous outbreaks were thought to have been resolved. A yellow/grey circle up to 20" in diameter will appear and then slowly close in on the inner turf, changing the color of the grass as it moves inward.

Scott's Lawn Fungus Control is very effective in controlling an outbreak of Brownpatch. Products containing Chlorothanol work well - try Daconil Docket DF, it is a granular product and very effective. Ortho Daconil is a faster-acting liquid product many homeowners use. Additionally, as the weather begins to cool, mow your turf shorter to prevent moisture build-up, adjust your irrigation cycle to fewer days or shorter cycle times and avoid watering at night. Fungus loves moisture.

Chinch Bugs can be very devastating to St. Augustine or Fescue lawns. Their damage can appear similar to brown patch at first but grows out beyond circles or rings. Chinch bugs are the larvae of Blissus leucopertus, a small winged beetle. To check for the presence of chinch bugs:

Take a coffee can or similar container and remove the top and bottom of the can, creating a hollow cylinder. Then embed the can in an affected area and fill with water. If chinch bugs are present they will rise to the top of the water within the can.

Prevent damage from occurring! The most effective pesticide to apply is a liquid spray containing permethrin, cypermethrin or deltamethrin. This must be applied 3 separate times within a 21 day period - the egg cycle the chinch bugs leave behind must be killed, otherwise they will return. A liquid product will permeate all areas better and more effectively than a granular product, ensuring the infestation is defeated.

If a granular treatment is utilized as well as a liquid application, "Tri-zicide" works very well if applied according to labeled directions.

WASTE COLLECTION REMINDER

This is a reminder to PLEASE DO NOT place your lawn clippings, pruning/branches/bagged leaves or other landscape waste at the curb earlier than 6 PM the night before garbage collection occurs; **Monday** night for the **Tuesday** collection and **Thursday** night for the **Friday** collection. If your lawn care is performed by a contracted mower or service group, please know you MUST place the waste/clippings out of view once the service is performed if they are leaving the waste within sight upon completion. THE BAGS SHOULD NOT REMAIN AT THE CURB UNTIL COLLECTION DAY! Please help to keep our neighborhood looking beautiful at all times and prevent receiving a reminder from the HOA.

Summer heat is almost behind us.

DUPLICATE BRIDGE

Bring a partner and join us **every Tuesday and Thursday** to play a friendly game of ACBL sanctioned duplicate bridge!

24TH ANNUAL COLLEGE NIGHT SET FOR OCTOBER 9TH-10TH AT BERRY CENTER

The 24th annual districtwide College Night is scheduled for **Tuesday, Oct. 9th** and **Wednesday, Oct. 10th** from 5 to 8 PM at the Berry Center (8877 Barker Cypress Road). More than 200 colleges, universities, technical and specialty schools will be represented at the event. In addition, all branches of the military and the U.S. service academies will also be represented. A list of schools and representatives scheduled to attend each night will be posted on the district website the week prior to the event.

All high school students and their parents are invited to attend this free event. Students are encouraged to attend on their assigned night, but will be welcomed on either or both days.

Below are the campus assignments for College Night:

Tuesday, Oct. 9th - Bridgeland High School, Cypress Creek High School, Cypress Falls High School, Cypress Ranch High School, Cypress Ridge High School, Jersey Village High School and Windfern School of Choice.

Wednesday, Oct. 10th - Cy-Fair High School, Cypress Lakes High School, Cypress Park High School, Cypress Springs High School, Cypress Woods High School and Langham Creek High School.

Students may register online at www.gotocollegefairs.com, which will allow each to have a personalized barcode pass to share contact information with representatives.

Large group presentations will be held throughout the event for financial aid (in English and Spanish), Lone Star College, Rice University, Texas A&M University, University of Houston, University of Texas and the U.S. military service academies.

Last year, nearly 6,000 visitors attended College Night while almost 2,800 patrons attended the group presentations. Both totals

were increases from the year before. For more information, view the College Night flyer on the district website.

400-PLUS VOLUNTEER BUS BUDDIES ASSIST YOUNG CFISD BUS RIDERS

In assisting the new bus riders and drivers and CFISD, 430 community volunteers assisted in the 12th annual CFISD Bus Buddies program during the first week of classes. It's the second consecutive year in which the total has topped 400 volunteers, with many serving as a Bus Buddy for more than one day.

Bus Buddies rode CFISD school buses from 2:45 PM to 5 PM for the first two days of school, August 27th-28th, to ensure young students were safely transported to their proper drop-off points and locations.

"Our Bus Buddies program was another success this year, but it would not have been possible without the support of our business partners, administration and community members," said Bill Powell, assistant superintendent of support services. "I am also grateful to our communication and community engagement departments for promoting and scheduling the program to ensure our students' safety over the first two days of school. Thank you to everyone for making it a great success." In addition to community volunteers, 102 businesses and organizations participated in the program.

CFISD HIGH SCHOOLS RECOGNIZED IN U.S. NEWS & WORLD REPORT RANKINGS

Cypress Woods and Cypress Ranch high schools ranked among the top 1,700 U.S. high schools in the country, while Langham Creek and Cypress Ridge high schools gave Cypress-Fairbanks ISD four schools among the top 2,700 nationally, according to U.S. News & World Report's annual list of America's Best High Schools.

In achieving a high level of college readiness, Cypress Woods, Cypress Ranch, Langham Creek and Cypress Ridge were awarded silver medals, while Cypress Springs, Jersey Village and Cypress Lakes high schools were bronze medal winners.

The 2018 list evaluates schools that have proven the most effective in producing college-ready graduates, based on a four-step process:

Determining whether a school's students were performing better than statistically expected for students in that state; Assessing whether their historically underserved students (African American, Hispanic and low-income) performed at or better than the state average for historically underserved students; Meeting or surpassing a benchmark for a school's graduation rate (80 percent or greater) and Assessing college-readiness performance using Advanced Placement and International Baccalaureate test data as the benchmark for success.

The fourth step measured which schools produced the best college-level achievement for the highest percentages of their students, which was completed by computing a College Readiness Index. The maximum CRI value is 100. To be ranked nationally, a high school had to pass the first three steps and have a CRI value at or above 21.51 (the midpoint of all CRI values).

Of the 5,948 highest-scoring schools, the top 500 were awarded gold medals. Schools ranked No. 501 to No. 2,711 were awarded silver medals, while the remaining 3,237 ranked schools were awarded bronze medals.

Cypress Woods was ranked at 1,297 in the nation and 149 in Texas with a 97-percent graduation rate and 40.2 CRI value.

Cypress Ranch was ranked 1,678 in the nation and 173 in Texas with a 98-percent graduation rate and 34.3 CRI value.

PRIVATE SCHOOLS

COVENANT ACADEMY NEWS

PATRIOTS' WEEK is an uplifting, energizing way to build community and grow disciples during this first full week of school. During Patriots' Week, our students rotated through four settings each day. In planting our gardens, students cultivated goodness and beauty and learned about caring for the earth that God has given to us. In the House of Cards, students learned the skill of passing time together without consuming technology while strengthening number sense. Our team building games of Sock Dodge and Steal the Bacon showed

them that they can learn to win well, lose well and take risks in group settings. Lastly, our seniors taught students about the Code of Conduct and how Christ's work on our behalf helps us to move toward His likeness.

On August 25th our Cross Country Team took 3rd place in the Boys JV Division at The Woodlands Christian Cross Country Meet. Our long distance runners have been training all summer to build endurance. We are proud of all the hard work of our Covenant athletes! Go Patriots!

Another House Induction Day is in the books! On August 24th, all of our new students were inducted into their house "families" and were received with great joy. At Covenant, everyone belongs to someone. Our four houses organize our school community around the ideals that define our school: wisdom and virtue. These houses (or teams) provide students with abundant leadership options and encourage excellence through friendly competition. Each of our houses has chosen a virtue and a motto that they will actively seek to define them. These virtues, wisdom, courage, perseverance and love are worthy pursuits for all as we seek to be lifelong learners in community with one another.

OCTOBER IS BREAST CANCER AWARENESS MONTH

The National Breast Cancer Awareness Month (NBCAM) program is dedicated to increasing awareness about the importance of the early detection of breast cancer through a nationwide campaign. NBCAM started as a weeklong campaign in 1985 with 2 founding members. Today the American Cancer Society is one of many national public service organizations, professional associations and government agencies that form the NBCAM Board of Sponsors. During **October**, which is National Breast Cancer Awareness Month, the member organizations of the Board of Sponsors join forces to spread the message that early detection of breast cancer followed by prompt treatment saves lives.

The American Cancer Society recommends early detections. Women age 40 and older should have a screening mammogram every year and should continue to do so for as long as they are in good health.

The **third Friday in October** each year is National Mammography Day, first proclaimed by President Clinton in 1993. On this day or throughout the month, women are encouraged to make a mammography appointment.

To find a facility in your area, please call:
American Cancer Society 800-227-2345
National Cancer Institute 800-4-CANCER

Or visit nbcam.org or www.cancer.org for more information.

3 STEPS TO EARLY DETECTION

One in eight women are diagnosed with breast cancer in her lifetime. However, with early detection and treatment, you can greatly improve your chance of survival.

Early detection means finding the cancer before it spreads to other parts of the body. Although breast cancer cannot be completely prevented, early detection provides the greatest possibility of successful treatment. By following these three steps, you will help increase your chance of detecting cancer early.

1. BREAST SELF-AWARENESS

Breast self-awareness can help you become familiar with how your breasts normally look and feel. Knowing this will help you identify any changes in your breasts that should be reported to your health care professional promptly. If you find a lump, schedule an appointment with your doctor, but don't panic - 8 out of 10 lumps are not cancerous.

Changes to look for include:

- A lump or thickening in or near the breast or in the underarm area
 - A change in the size or shape of the breast
 - Dimpling or puckering in the skin of the breast
 - A nipple turned inward into the breast
 - Discharge (fluid) from the nipple
 - Scaly, red or swollen skin on the breast, nipple or areola (the dark area of skin at the center of the breast)
- You should see your health care provider about any of these symptoms. Often these symptoms are not due to cancer, but if you notice any changes in your body, tell your health care provider immediately so that the problems can be diagnosed and treated.

2. WELL-WOMAN EXAM

It is recommended that women visit their family physician or gynecologist each year for an annual Well-Woman Exam. In addition to a routine pelvic exam and pap smear, the doctor may perform a brief breast exam to check for abnormalities. The Well-Woman Exam is a great opportunity for you to discuss with your health care provider any questions or concerns you have regarding your breast health. For example, your doctor may help you to determine the most appropriate frequency for your early detection steps.

3. MAMMOGRAM

In its early stages, breast cancer doesn't usually cause symptoms. NBCF recommends that women ages 40 and older get a mammogram every year. A mammogram is an X-ray of the breast. It is a safe way to detect cancerous tumors and other abnormal breast conditions and women who have screening mammograms have a lower chance of dying from breast cancer than women who do not have screening mammograms. Mammograms can detect cancer or other problems before a lump becomes large enough to be detectable to the touch. They provide an effective way to find breast cancer in its early stages when treatment is usually the most successful. Mammograms are considered safe, quick and relatively painless. *Source: National Breast Cancer Foundation*

100+ WOMEN WHO CARE, CY-FAIR SELECTED LOCAL NON-PROFIT SHIELD BEARER AS THE QUARTERLY CHARITY RECIPIENT

Shield Bearer is a local non-profit organization that has provided professional counseling services and prevention programs for local families in the Cy-Fair area for over 13 years. Now with six locations in the NW Houston area, Shield Bearer sees thousands of families each year including those experiencing the trauma of domestic violence, human trafficking, crime, war, Hurricane Harvey and more. Funds will be utilized to continue counseling services and programs for clients that need assistance on a sliding scale.

"100+Women Who Care, Cy-Fair's dedication to the community is inspiring. Their members seek out worthy organizations and collectively, make a big impact," stated Shield Bearer Executive Director Roy Wooten. "We were honored to be nominated and overjoyed to be selected as the winner. We are so thankful for their support of local families."

100+Women Who Care, Cy-Fair is one chapter of over 300 chapters worldwide. Chapters are started by people who want to make a difference in their local communities. Chapter Leader Jodi Johnston-McNiven started the Cy-Fair chapter just two years ago. Members gather four times a year and make a difference in the community through a \$100 quarterly donation to a locally nominated charity.

"Members nominate the charities, then vote on the charities and the money then goes directly to the winner. When we pool our money together in this way, we can have a bigger influence," stated Ms. Johnston-McNiven. "100+Women Who Care, Cy-Fair is defined by the power of collective giving, so we are seeking additional members that want to be the change they wish to see in the community. We are powerful alone, but even more powerful together."

For more information about 100+Women Who Care, Cy-Fair, including the next quarterly meeting details, visit 100womencyfair.com. For more information about Shield Bearer, visit shieldbearer.org or call 281-894-7222.

Halloween Safety Tips

Walk Safely: Cross the street at corners, using traffic signals and crosswalks. Look left, right and left again when crossing and keep looking as you cross. Put electronic devices down and keep heads up and walk, don't run, across the street. Teach children to make eye contact with drivers before crossing in front of them. Always walk on sidewalks or paths. If there are no sidewalks, walk facing traffic as far to the left as possible. Children should walk on direct routes with the fewest street crossings. Watch for cars that are turning or backing up. Teach children to never dart out into the street or cross between parked cars.

Trick or Treat with an Adult: Children under the age of 12 should not be alone at night without adult supervision. If kids are mature enough to be out without supervision, they should stick to familiar areas that are well lit and trick-or-treat in groups.

Keep Costumes Both Creative and Safe: Decorate costumes and bags with reflective tape or stickers and if possible, choose light colors. Choose face paint and makeup whenever possible instead of masks, which can obstruct a child's vision. Have kids carry glow sticks or flashlights to help them see and be seen by drivers. When selecting a costume, make sure it is the right size to prevent trips and falls.

Drive Extra Safely on Halloween: Slow down and be especially alert in residential neighborhoods. Children are excited on Halloween and may move in unpredictable ways. Take extra time to look for kids at intersections, on medians and on curbs. Enter and exit driveways and alleys slowly and carefully. Eliminate any distractions inside your car so you can concentrate on the road and your surroundings. Drive slowly, anticipate heavy pedestrian traffic and turn your headlights on earlier in the day to spot children from greater distances. Popular trick-or-treating hours are 5:30 PM to 9:30 PM so be especially alert for kids during those hours.

SCOUTING NEWS

BOY SCOUT TROOP 10

Boy Scout Troop 10 has a new home! We now meet at Copperfield Church on **Monday evenings** from 7 PM-8:30 PM. Our meeting rooms are upstairs in conference rooms #2 and #3. Please enter through the front doors of the church, head up the stairs and feel free to come visit us at any time!

Troop 10 has a campout scheduled for every month of the school year, which gives the Scouts ample opportunities to earn their ranks and many assorted merit badges.

The Troop had an amazing time attending the high adventure Swamp Base this summer in Louisiana. The kids and adults canoed over 60 miles in a 5 day period as well as taking part in lots of games and archery where they made their own arrows.

In addition, the Troop hosted a campout for some of the Webelos in the district at Bear Creek Park in September. The Scouts had numerous competitions, including a Dutch oven cook off, a Skittles contest, an Oreo contest and everyone planted their own Oak tree as part of the "Into The Woods" adventure for the Webelos! We are

looking forward to helping out at the Webelos Weekend at the end of the month!

OCTOBER RECIPES

CAJUN CHICKEN AND SAUSAGE GUMBO

You could make this on National Gumbo Day October 12th!

INGREDIENTS

1 cup vegetable oil
 1 cup all-purpose flour
 1 large onion, chopped
 1 large green bell pepper, chopped
 2 celery stalks, chopped
 1 pound andouille or smoked sausage, sliced 1/4 inch thick
 4 cloves garlic, minced
 salt and pepper to taste
 Creole seasoning to taste
 6 cups chicken broth
 1 bay leaf
 1 rotisserie chicken, boned and shredded

DIRECTIONS

Heat the oil in a Dutch oven over medium heat. When hot, whisk in flour. Continue whisking until the roux has cooked to the color of chocolate milk, 8 to 10 minutes. Be careful not to burn the roux. If you see black specks in the mixture, start over.

Stir onion, bell pepper, celery and sausage into the roux; cook 5 minutes. Stir in the garlic and cook another 5 minutes. Season with salt, pepper and Creole seasoning; blend thoroughly. Pour in the chicken broth and add the bay leaf. Bring to a boil over high heat, then reduce heat to medium-low and simmer, uncovered, for 1 hour, stirring occasionally. Stir in the chicken and simmer 1 hour more. Skim off any foam that floats to the top during the last hour.

KOREAN CHICKEN KABOBS

An amazing combination of sweet and spicy! And the chicken comes out perfectly tender and juicy with a finger-licking sticky glaze!

Ingredients:

1/4 cup gochujang (Korean red pepper paste)
 1/4 cup reduced sodium soy sauce
 2 tablespoons seasoned rice wine vinegar
 2 tablespoons light brown sugar
 1 tablespoon toasted sesame oil
 1 tablespoon freshly grated ginger
 3 cloves garlic, minced
 2 pounds boneless, skinless chicken breasts, cut into 1-inch chunks
 1 1/2 tablespoons canola oil
 1 green onion, thinly sliced
 1/2 teaspoon toasted sesame seeds

Directions:

In a medium bowl, combine gochujang, soy sauce, rice wine vinegar, brown sugar, sesame oil, ginger and garlic. Reserve 2 tablespoons and set aside.

In a gallon size Ziploc bag or large bowl, combine gochujang mixture and chicken; marinate for at least 2 hours to overnight, up to 8 hours, turning the bag occasionally. Drain the chicken from the marinade, discarding the marinade.

Preheat grill to medium high heat. Thread chicken onto skewers; brush with canola oil.

Add skewers to grill, and cook, turning occasionally, until the chicken is completely cooked through, reaching an internal temperature of 165 degrees F, about 10 minutes. Brush skewers with reserved gochujang mixture, cooking for an additional 1-2 minutes.

Serve immediately, garnished with green onion and sesame seeds.
