COFFEE

REUNION ISLAND

COFFEE ROASTERS

Private Reserve Collection

Reunion Island Coffee imports only high-grown, specialty-grade Arabica coffee beans from the world's finest estates. Coffee beans are hand-picked when ripe and typically sun-dried before careful processing and exporting. Reunion Island roasts these beans in small batches for control and consistency. Every blend and single-origin coffee is roasted to a specific color to fully unlock its unique flavors and aromas. For the ultimate gourmet coffee break in your office, look no further.

24/2.5 oz

- Colombia Las Hermosas
- Swiss Water Process Decaf Dark
- Fair Trade & Organic French Roast
- Rainforest Alliance Island Reserve

- Sumatra Dark
- Rainforest Alliance Sierra Verde

Flavoured

24/2.5 oz

- RA Chocolate Buttercrunch
- RA French Caramel
- RA French Vanilla
- RA Irish Cream
- RA Vanilla Hazelnut Cream

SUSTAINABILITY

Reunion Island already pays far above average for the coffee they import because of its premium quality. However, paying a fair price to farmers is only the beginning. They have also taken an aggressive approach in supporting sustainable development in the coffee industry by offering coffees that have been certified under the programs outlined below.

THE RAINFOREST ALLIANCE

According to rainforestalliance.org, their mandate is “to protect ecosystems and the people and wildlife that depend on them by transforming land-use practices, business practices and consumer behavior. Companies and cooperatives that participate in our programs meet rigorous standards that conserve biodiversity and provide sustainable livelihoods.”

FAIR TRADE™ CERTIFIED

Transfair.ca explains their philosophy as an organization, “Fair Trade is an international system of doing business based on dialogue, transparency and respect. It contributes to sustainable development by offering better trading conditions for producers and workers in developing countries. Behind the principles and goals of Fair Trade is a rigorous international system of monitoring, auditing and certification.”

USDA ORGANIC

For a coffee to be certified organic, it must be grown in a manner that excludes the use of fertilizers, pesticides, hormone treatments or steroids. Organic farmers instead must rely on superior growing practices, natural fertilizers and alternative methods of pest and disease control.

BULLFROG POWERED™

Bullfrog Power is committed to increasing the amount of green power on our regional electricity grid systems by developing new renewable generation facilities. Several new turbines have been commissioned to meet the needs of bullfrogpowered homes and businesses.

Certified

Corporation

B-CORP CERTIFIED

We are a proud B Corp Certified Company, weighing the social, environmental and economic impacts of all of our activities, from the way we source our coffee to the way we operate our business at home. Being a B Corp provides us with a framework to ensure that we are operating in a way that will sustain our business while helping the producers we work with, our employees, and our community sustain themselves.

Please visit gourmetcoffee.ca for updates on our sustainability programs and a complete list of our products and services.

FEATURE COFFEES

Every month, Reunion Island Coffee's President, Peter Pesce samples coffees from dozens of estates around the globe. They recognize the truly exceptional coffees that Peter discovers with our quarterly Seasonal Harvest Award. They also feature a variety of delicious flavored coffees, available in portion packages for a limited time throughout the year. Please contact us for more information on featured coffee selections.

Equipment

For one low monthly rental enjoy all the chilled, filtered water you want at your office. No more bottles to lift or deposits to worry about!

Choosing the right equipment is essential for making the best coffee. We offer commercial brewing equipment in a variety of styles from glass pots to thermoses, from pour-over models to those connected from a water source. The model offered depends on your location and amount of usage. Most times, this is provided at no extra charge. The equipment we offer is preset to the SCAA standards to ensure the best taste cup after cup!

ABOUT US

Mill Creek Coffee is a locally owned, 100% Canadian coffee service company that has been operating in our lower mainland for many years. We believe in providing Coffee Service not just Coffee Supply. On the West Coast our lifestyle is unique and we have tailored our products and services to embrace that.

At Mill Creek Coffee we are very conscious of the footprint we make on our fragile environment by our products and practices. Throughout this menu you will see the choices we offer to assist our customers in being “GREEN.” In addition we have taken steps at our office to fully recycle all garbage, plastic, and cardboard used in our business. We believe each of us can play a part as global neighbours.

Our people are our strength: focused, committed, and enthusiastic about two things

- * Quality products
- * Excellent service

We are small enough to respond to our customers and large enough to provide the highest level of service.

We are members of the Vancouver Board of Trade and sponsors of the “Leaders of Tomorrow” mentorship program.
