TOTAL PRACTICE SOLUTIONS
Client Development Research Solutions Practice Management Litigation Services

 LexisNexis®

Additions & Enhancements to the LexisNexis® Services: *Highlights*

LexisNexis® Total Practice Solutions

LexisNexis delivers integrated tools and resources to help you achieve success in both the business and the practice of law:

- **Research Solutions**—exclusive sources vital to client success
- **Litigation Services**—strategic insight and greater control throughout the litigation process
- **Client Development**—industry-leading networking and marketing resources to grow your practice
- **Practice Management**—services and tools proven to improve firm productivity and profitability

Every year LexisNexis adds new products and services, enhances existing products and services, and makes acquisitions and alliances. It's part of our commitment to provide a complete portfolio of products and services to help lawyers and law firms win. 2008 was no different—a growth year for new and improved resources and exciting new functionality of the LexisNexis® services. Here are just the highlights: *(In addition to product highlights, individual sources added to lexis.com® are included beginning on page 4.)*

Please contact your LexisNexis Account Representative or Librarian Relations Consultant if you need more detailed information on any of these products or services.

Research Solutions Highlights— New Resources in 2008

Now get the best of open Web and LexisNexis accuracy—at no charge!—New **Lexis® Web**—now available to you in beta version—is a legal-specific search engine that serves up free Web content, but only from legal sites vetted by LexisNexis attorney editors. **Save time and weed out irrelevant documents** because you start your Web research with sites that have been validated. Need more research accuracy? No problem. Lexis Web offers **state-of-the-art filtering tools**. Plus see recommended *lexis.com* sources—and move to search them in one step.

And check out the expanding LexisNexis® online Web communities—that offer attorneys, corporate counsel, librarians, academics, law students and government agencies access to excerpted or full-text content, such as news headlines and LexisNexis® Expert Commentary, via the open Web.

1,400 Elsevier Full-Text Journals now at *lexis.com*—the addition of Elsevier full-text journals to *lexis.com* is complete! Plus you can retrieve an available full-text article via Get a Document for \$20. Link and download the PDF for an additional \$10. The cost is included in your LexisNexis PowerInvoice™ service reports. And a new link to the Elsevier full-text journals for non-patent prior art is now available on the LexisNexis® Toolbar.

ALR®, Witkin and State Jurisprudences join *American Jurisprudence 2d (Am Jur® 2d)*—now find **ALR** (American Law Reports), **Witkin Library** and **state jurisprudences** for Florida, New York, Ohio and Texas.

Discover tools to navigate today's financial crisis and its full range of legal issues—The new **LexisNexis Financial Crisis Practice Center** compiles valuable LexisNexis resources—news, legal analysis, business data and filings, legislative updates and more—into one location. Just click the TRANSACTIONAL ADVISOR tab. You'll also find **Mega News, Credit Crisis** and **Mega News, Financial Crisis Bailout**. They use the power of LexisNexis SmartIndexing Technology™ to glean Mega News content to only stories covering the financial market crises and financial relief packages for companies, industries or countries. Or check the new **Troubled Company Reporter**.

Search model SEC documents at a deep level—by suggested practice areas and document title as well as by clause and defined terms. With new **LexisNexis® Precedent Search**, you can also look for documents from a particular law firm, governing law jurisdiction, industry or company. The Precedent Search filtering tools help to further define and refine a search.

Assess the legislative or regulatory horizon—at the federal or state level—In addition to Federal Legislative Impact® and Federal Regulatory Impact® from Potomac Publishing Company®, **State Legislative Impact** and **State Regulatory Impact** are now available for all 50 states! And find an **alert feature** for all four products.

Global coverage expanded—with particular attention to news and business coverage of China, Russia and Europe, for example, **four new *Financial Times*® titles** and the **Esmark 30-country newsfeed** from Northern, Central and Eastern Europe and Central Asia. For China, now find the **LexisNexis China Law** database—including full-text laws, regulations, tax information and more—and **Mergent Private Chinese Company Profiles** of more than 270,000 companies.

Global IP Law Service debuts through *lexis.com*—this online research service provides comprehensive coverage of global IP law, covering international law related to patents, trademarks, industrial designs, utility models and domain names as well as IP legislation and regulations and current news from more than 230 countries.

Tap into bloggers' insights—*lexis.com* blog sources from Newstex® now tops 2,600! Newstex licenses influential blog content directly from bloggers themselves.

Find State Practice Insights on LexisNexis® Tax Center—Find more than 6,000 state tax practice insights written by top state and local tax experts for all 50 states plus D.C. These value-packed, two-page treatments of state tax codes or regulations offer tips for dealing in complex issues, practice/planning strategies, the risks and benefits of certain actions, and more.

Research Solutions Highlights— New Tools & Functionality in 2008

Connect people, businesses and locations in ways never before possible—with new LexisNexis® Public Records sources, features and functionality—much of it built right in. Get details on more than 450 million unique individuals, 150 million unique businesses and 2,013 tax-assessor counties. Gain access to public records, private databases and regulated content, including sources not readily available from other providers or via the open Web. The new interface lets researchers:

- **Tap into searching power impossible to achieve with words and connectors.** Two words ... Search Forms. Now you can mine the data in new, more effective ways. For example, find people in **neighboring towns—without knowing the town names.** (Boolean search boxes are still available across much of the vast content.)
- **Find new sources—cell phone numbers, employment information, real property foreclosures, Internet domains and more. Plus find more coverage in existing resources,** including more jurisdictions for deeds, mortgages, tax-assessor records, drivers' licenses, etc.
- **Even see search results outside your subscription and get suggested further searches.** When you select Comprehensive Person, Business or Location searches, your reports include the *We Also Found* box. Pricing information is only a click away.

Transactional attorneys can follow their workflow—LexisNexis® Transactional Advisor allows your transactional attorneys to pick their tasks and move to key LexisNexis content, like new In-House Memoranda authored by attorneys for other attorneys on a variety of legal topics. Select the TRANSACTIONAL ADVISOR tab at *lexis.com*, complete research, drafting, due diligence and other tasks—or launch into LexisNexis® Practice Centers. Now there are 13, including the Financial Crisis Resource Center, Bankruptcy, Environmental/Climate Change, International, and Veteran's Rights Resources Center.

LexisNexis® Quick Search ... just like the name implies—Now you can skip browsing the *lexis.com* menu. Enter search terms, pick source types—and *lexis.com* creates a custom menu of appropriate single and group sources. Or move to *Recently Used Sources* easily.

Get suggested source options—Pick a source in a number of *lexis.com* area-of-law menus and get suggested sources you can choose to add. See the best sources regardless of whether they are in or out of your subscription.

FIND A SOURCE gets a new look—and much more functionality—Now use search words and connectors that check a variety of online guide segments (as opposed to just the title segment), so you can find relevant sources faster and easier. Results are ranked by relevance and listed only once for fast identification. You can even combine sources from FIND A SOURCE. (You can also enter a "short name" search, e.g., "genfed;courts," and you can still select a letter of the alphabet and scroll.)

Create internal newsletters with LexisNexis® Publisher—In 2008, you got the ability to create internal newsletters—with many customization, ranking and sorting features. And a newly revised *LexisNexis Publisher Users Guide* showed you how to get the most of every feature. (Just click **Help** in Publisher.) Find all the 2008 LexisNexis Publisher news on the LexisNexis Publisher Resource Center on the *LexisNexis® InfoPro Web site* (under Training and Resources).

New InfoPro Web Site Debuts

The LexisNexis InfoPro Web site for librarians got a new look in 2008—and new features, including more *lexis.com* product information, more research tips and PDF literature to download, full Product Resources Centers, and links to details on new sources and system enhancements.

Register at www.lexis.com/infopro

Litigation Services Highlights for 2008

Now search more than 87 million federal and state court dockets and documents at once—CourtLink® Single Search gives you that option. (And you can search by key word.) Get the peace of mind of a broad search—as well as filtering tools to save time. The CourtLink Single Search box is accessible at the top of all pages within CourtLink and on the home page of LexisNexis® Total Litigator. (Or launch Single Search from the toolbar via a browser plug-in.)

LexisNexis Total Litigator gets a new look—and you get more functionality—The newly updated Total Litigator home page makes it even easier to find information! View the available tasks within each step of the workflow from the left column of the home page. Organize and view My Favorite Tasks. Search through My Recently Used Sources, Quick Search, and Dockets & Documents quickly. And stay informed through litigation Headlines, Blogs and Podcasts.

See the entire chain of events prior to the opinion—with new links between **LexisNexis Briefs, Pleadings & Motions** documents in the same case. More than 1.2 million links have been added to the LexisNexis Briefs, Pleadings & Motions collection. And now the collection is also mapped into LexisNexis® Search by Topic or Headnote so you can gain access to an even more complete view of your topic in one search.

New Shepard's® Ohio Statute Reports show affecting legislation, pending bills and citing cases in one view—Know immediately how the citing cases treat or impact the statute section with the new **Statute Shepard's Signal™ indicator**. Link to enacted and pending legislation. Watch for more new *Shepard's* reports for state statutes and the *United State Code Service* in 2009.

Client Development Highlights for 2008

Track performance—and plan for the future with Redwood Analytics®—Now part of the LexisNexis organization, the Redwood Analytics software tools integrate with firms' time, billing and accounting systems so your executives can better manage profitability, business development, fee collection, KPI goal setting and tracking, matter planning and external benchmarking. (Deloitte recognized Redwood Analytics as one of the 500 fastest growing technology companies in North America after it achieved 326% revenue growth from 2001 – 2005.)

Count on much more from Martindale-Hubbell®—Now move directly from *lexis.com* to *martindale.com*. Just click the new COUNSEL SELECTOR tab at *lexis.com*®. Search legal topics—and now get *Martindale-Hubbell*® *Law Directory* state and international coverage included. The latest version of *martindale.com* also lets you reach out to clients and prospective clients in ways never before possible.

And client reviews and feedback come back to *you* faster, too. For example:

- **"Review as a Client" buttons:** Now find one next to every lawyer and law firm profile on *martindale.com*. Just click and evaluate.
- **Check your visibility:** See the number of times a lawyer's or firm's profile was searched on *martindale.com*. Lawyers, offices and law firms are now ranked and compared. These new rankings are an extension of the Site's Top 10 lists, which also expanded in 2008 to include international visibility.
- **Check LinkedIn®, too:** Gain access to connections quickly and easily within LinkedIn.
- **Reach out via video profiles:** Take the opportunity to discern depth and breadth of experience, putting human faces to a *martindale.com* profile.
- **And don't forget the RSS feeds:** Have Martindale-Hubbell Legal Articles and blog postings delivered automatically to browsers—in real time.

And the business-development and competitive-intelligence tools at LexisNexis® atVantage™ continue to grow—so you have the most comprehensive news, business, litigation and financial-transaction information about your clients, prospects, market and industry available from a single source. Find more content and many new enhancements that make the profiling and prospecting features easier to use. For example:

- **Discover power in lists:** New *My Lists* are collections of companies, law firms, or lawyers that you create for use in profiling and prospecting. For example, create lists to watch top competitors, monitor top client events, stay in touch with top prospects or firm alumni, find lateral hire targets—even analyze merger possibilities.
- **New Patent module:** Now again access to patent pendency analysis, plus patent prosecution and litigation trends via atVantage.
- **Expanded board & executive information:** More than 700,000 unique personnel names as well as titles for 50,000 board members from NYSE-, NASDAQ- and AMEX- traded companies have been added to bolster company profile results.

Practice Management Highlights for 2008

Search internal documents—even e-mail—with Lexis® Search Advantage—and get the value of LexisNexis trusted legal context as well, through incorporated links to cases, statutes and secondary sources, *Shepard's* Signal indicators, and links to other work product citing the same source. It's the fast, accurate way to locate specific clauses and sections within contracts, agreements and other internal "deal" documents.

Track online research and validate clients and matters from your time and billing system—New **LexisNexis® Cost Recovery Manager** gives you even more tracking and recording flexibility.
