

Schedule of Prepayment Terms and Conditions (Fixed Rate Closed Term)

Prepayment Terms and Conditions

Prepayment Charges – Paying off your loan before the maturity date.

You may prepay some, or the entire loan early, based on the type of loan you have. If we later agree to change or extend the terms of the loan, these prepayment conditions do not apply to the new renewal or extended term. The terms used in this schedule have the same meaning as in the hypothec.

Miss a Payment® Option

You may miss any scheduled payment, as long as you have prepaid an amount equal to the amount of the payments you intend to miss in this term and your loan is not in default. You cannot, however, miss your Mortgage Protection premium, if applicable. Extra payments or prepayments may not be used to miss a payment if this loan is assumed by a subsequent purchaser.

Continuing Liability

Unless you prepay the balance of the principal amount owing, you must continue to make your regular loan payments.

Closed Prepayment Type

Providing all your loan payments are up to date, you may increase your payments, or pay off some of your loan early in one of the three ways listed in the following chart. These options apply to partial prepayments only. The options are available each year and cannot be saved to use in a later year. Each year is defined as the 12-month period starting on the Term Start Date (also referred to the Interest Adjustment Date) or the anniversary of that date. If your loan term is less than 12 months, these options are available in each term.

PREPAYMENT OPTIONS		
How	When	What it means
1. *by paying an extra regular loan payment (principal, interest and taxes)	on any regular payment date during the year	your principal loan balance will be reduced by that amount
2. *by paying up to 15% of the original principal amount of your loan	at any time (excluding day prepaid in full), sum total not to exceed the yearly maximum	
3. by increasing your regular loan payment by up to 15% of the principal and interest payment set for the term of the loan	once each year of the term of your loan	

*Only items 1 & 2 qualify for the Miss a Payment option

Prepayment Charge

When you prepay some, or the entire principal of your loan, you will incur prepayment charges unless the partial prepayment is in accordance with the *Prepayment Options* chart above. The cost to pay off some, or the entire principal amount of your loan early, is the **higher** of (A) or (B):

- (A) *3 months' interest costs* at the loan rate on the amount you want to prepay.
- (B) *the interest rate differential*. This means the difference between your existing loan interest rate and the interest rate currently charged for a hypothec loan similar to yours for the remaining term of the loan. (This is, our current posted interest rate for a fixed rate closed term hypothec loan with a term that is closest to the remaining term of your existing loan, less any rate discount you received on your existing loan). The cost is calculated on the amount you wish to prepay.

If your term is greater than 5 years, and you prepay some or the entire principal amount of your loan after the 5th year, the maximum cost to prepay is (A) above.

If you received a cashback with your loan, the cashback amount will be repayable as outlined below under the heading *Cashback*.

Flexible Prepayment Type

In addition to the Closed Prepayment Type options and charges outlined above, if you have a flexible hypothec you may early renew your loan into a fixed rate closed term of one year or longer without a prepayment charge. If you receive a cashback with your loan, the cashback amount will be repayable as outlined below under the heading *Cashback*.

Cashback

If you receive a cashback with your loan, the cashback amount will be repayable if your loan does not remain outstanding with us for the full term. If your loan is partially prepaid, paid off in full, transferred, assumed, or renewed prior to expiry of the term, the cashback amount will appear as payable in any assumption, discharge or early renewal statement and will be calculated on an even, prorated basis using the following formula;

$$\text{Cashback Repayment} = \frac{\text{Remaining Term in months (rounded up)}}{\text{Original Term in months}} \times \frac{\text{Cashback Amount Received}}$$

Portable Loan/Blended Rate

If you have a closed fixed rate hypothec, you may transfer your existing loan balance and the remaining term to a new home or you may combine your existing loan balance with an additional amount and extend your term. The interest rate on the new loan will be a blending of the rate you were paying on the amount transferred from your existing loan and the rate applicable to the extended term of the new loan and the additional amount. You must apply for a new loan and meet all our normal qualifications as if you were applying for any other new loan.

Prepayment Charge Reduction

If you payoff your entire loan early and concurrently provide us with a qualifying replacement loan, you may qualify for a prepayment charge reduction. Your Servicing Branch will review the details with you.
