These mods frequently have integration abilities greatly and stable. They can automatically read the information of the installed mods with this mod to get the recipes of the items from other mods.

Forever Enough Items is a variant mod programmed and designed basing on another popular mod. That famous one has stopped to update new versions of Minecraft named Too Many Items. Besides Forever Enough Items, there are some similar variants called Not Enough Items, Just Enough Items, etc. According to the author, Forever Enough Items has programmed and designed to replace Not Enough Items in the period of NEI cannot update Minecraft version 1.9, including unique functions that NEI does not have.

Until now, NEI has updated and maintained regularly. Moreover, it has reached to the current versions that Forever Enough Items has still developed. However, some particular highlights of FEI are editing the display menu quickly, adding many lists of items the players can, including API so the users can update and maintain more frequently. Additionally, the users can optimize the list of items with some attaching mods. Forever Enough Items requires Forge Mod Loader, Minecraft version 1.10.2, 1.11.2, ExCore, and Just Enough Items. Moreover, according to the suggestion of the author, the players should install both Chunk Edge Indicator and Light Level Overlay Reloaded to enhance all the features of this mod.

Just Enough Buttons Mod 1.12.2/1.11.2 for Minecraft.

Collecting the resources in Minecraft can be a hard and tough task. However, to store a whole stuff after every mining session, you will be crazy a lot of times. That's right, when mining, we will automatically collect everything dropping, even rubbish (it is not true enough, but there are a lot of unnecessary items we collected). Cleaning your bag spends a lot of your time. Just Enough Buttons Mod 1.12.2/1.11.2 will add many buttons to help you do your tasks such as delete all the items, changing the weather, or changing playing mode with few simple clicks.

Just Enough Buttons has added many buttons in inventory frame. Now, you can set the time by one click. It is raining, and you hate rain? Please tick the button with raining ban icon. This button is the most useful one in the mod, according to the evaluation of many players, Delete Button, a gray garbage icon. An individual point of this button is you can delete all the same Ores. It sounds very simple, but for huge inventories, the unnecessary Ores will help you save your time. Moreover, this mod has another function to flash the area that the mob will spawn out the F7 button, and then you can change to another button.

How to use Delete button.

Although this mod is small, it is very useful. If you used it once, it would not disappoint you. This mod has updated to the latest version of 1.10.2 and required to install Minecraft Forge.
