# fall '21 American Artisans: the Maker's Movement

This intersection of sustainability, technology and craftsmanship is such a natural place for Lands' End. You'll see it expressed specifically in the new quilted patterns and the introduction of our new patchwork denim. We use every bit of fabric, which results in a "no two are alike" uniqueness.

Lands' End is committed to do better for our environment, one step at a time. Together, we are working to minimize our impact on the earth.
