

Multiple marketplaces, one shipping solution

UPS® marketplace shipping

Do you sell online with Amazon®, Etsy or Shopify?

Do you need a fast, **easy** way to process your online store orders? With up-to-the-minute tracking information for your customers? Without spending more to do it?

UPS marketplace shipping is a free service that can help solve these problems, saving you time and money. As an e-retailer, sell your products on the most popular marketplaces and e-commerce platforms, and have orders automatically imported to UPS to create shipping labels for you and upload tracking numbers to your stores. Building your online business is now as **easy** as **1, 2, 3**:

1. Increase speed

- Process shipments in as few as 2 clicks
- Ship multiple orders or combine orders from same buyer

2. Expand reach

- Available in 40+ countries
- Connect to customers globally

3. Improve service

- Send automatic shipment updates
- Provide return labels in the original packaging

UPS marketplace shipping is right for you.

Consider these benefits:

- **Save money:** No monthly subscription cost or transactional fee
- **Save time:** Fast and simple shipment processing with marketplace and platform integration
- **Enhance customer experience:** Reliable UPS domestic and international shipping services, end-to-end tracking and status alerts
- **Enjoy flexible payment options:** UPS account, credit/debit card and PayPal™

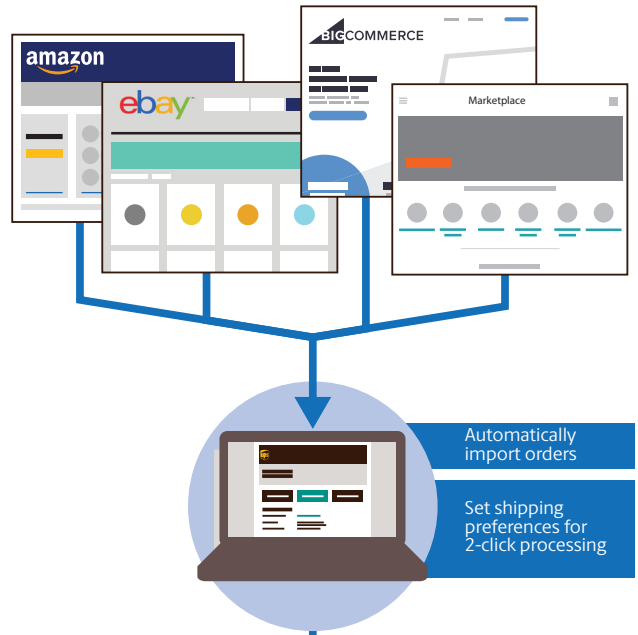

UPS marketplace shipping integrates directly with the world's top marketplaces, e-commerce platforms and carts. Ship one or multiple orders, from multiple online stores, all in one place. And give your customers an online shopping experience to keep them coming back for more.
