

2022 Billing and Coding Guidelines ManoScan™ high resolution manometry system

The ManoScan™ high resolution manometry system measures pressure and motor function of the esophagus or rectum and anal sphincter by providing complete physiological mapping. Catheter options allow clinicians to assess both or either high-resolution manometry and impedance for esophageal or anorectal uses.

Esophageal Use: CPT^{®1} code 91010- *Esophageal motility (manometric study of the esophagus and/or gastroesophageal junction) study with interpretation and report, is used to report the motility or manometric study portion of the test.*

CPT[®] code 91037- *Esophageal function test, gastroesophageal reflux test with nasal catheter intraluminal impedance electrode(s) placement, recording, analysis and interpretation, captures the impedance portion of the test.*

ManoScan™ ESO* high resolution manometry system performed at the hospital outpatient department	
Professional charge	91010-26² and 91037-26²
Site of service	19 or 22
Date of service	Date of report interpretation ³
Facility charge	91010 and 91037
Date of service	Date of the procedure ³

ManoScan™ ESO* high resolution manometry system performed at the physician office	
Professional charge	91010 and 91037
Site of service	11
Date of service	Date of report interpretation

*Coding recommendations are based on tests measuring both motility and impedance.

Anorectal Use: CPT® code 91122- *Anorectal manometry*.

ManoScan™ AR high resolution manometry system performed at the hospital outpatient department	
Professional charge	91122-26
Site of service	19 or 22
Date of service	Date of report interpretation
Facility charge	91122
Date of service	Date of the procedure

ManoScan™ AR high resolution manometry system performed at the physician office	
Professional charge	91112
Site of service	11
Date of service	Date of report interpretation

Providers may choose to combine the ManoScan™ high resolution manometry system with other procedures on the same date of service. Bundling rules may apply which affect reimbursement. Please consult your internal coding guidelines.

All rates provided are for the Medicare national unadjusted average rounded to the nearest whole number for 2022 and do not represent adjustment specific to the provider’s location or facility.

CPT® Code	Description	Physician ⁴	Hospital Outpatient Department ⁵
91010	Esophageal motility (manometric study of the esophagus and/or gastroesophageal junction) study with interpretation and report	Physician Office:\$234 HOPD: \$66 Work RVUs* 1.28	\$499
91037	Esophageal function test, gastroesophageal reflux test with nasal catheter intraluminal impedance electrode(s) placement, recording, analysis and interpretation	Physician Office: \$178 HOPD: \$50 Work RVUs* 0.97	\$270
91122	Anorectal manometry	Physician Office: \$285 HOPD: \$89 Work RVUs* 1.77	\$272

*RVU = Relative Value Unit

CPT codes 91010, 91037, and 91122 are not included in the Medicare Ambulatory Surgical Center (ASC) fee schedule.

²For physician interpretation of the test in the facility setting modifier 26 is used to report that only the professional component of the procedure has been provided.

³CMS has not issued definitive guidance as to the accurate date of service when services containing both a technical and professional component are not provided on the same date. Coding convention suggestions that procedure charges should be reported on the day the work was completed. Please consult your internal coding guidelines.
