

# 100 MINUTES OF MATH

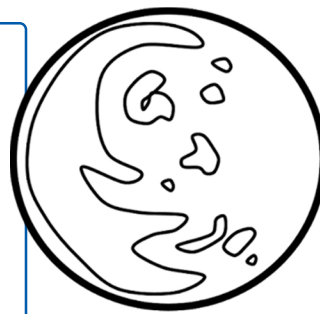

## FIRST IN MATH<sup>®</sup>

### Space Challenge

PLAY FIRST IN MATH for 10 minutes a day and color in one PLANET\*\* for every 10 minutes. Play the games your teacher assigns, or choose your own to reach the total of 100 minutes. Then have your parent initial here, and return to your teacher!

Student \_\_\_\_\_

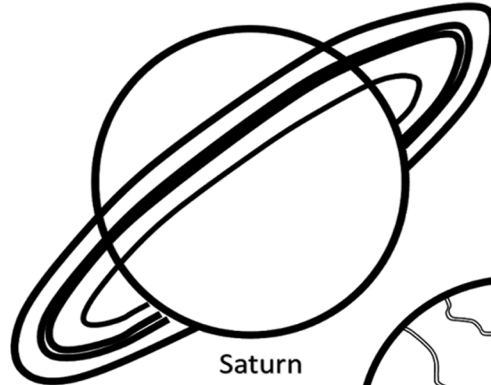

Parent \_\_\_\_\_ Date \_\_\_\_\_

Mercury

Venus

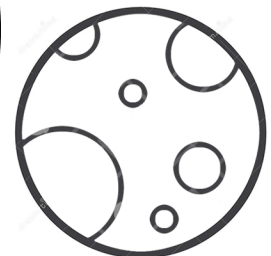

Saturn

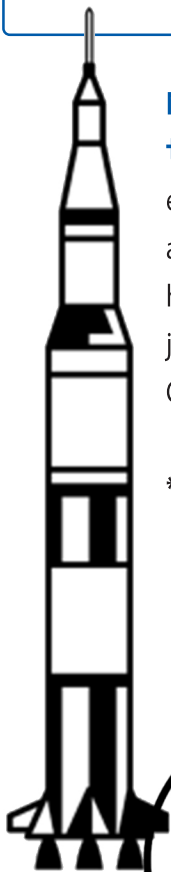

Earth

Mars

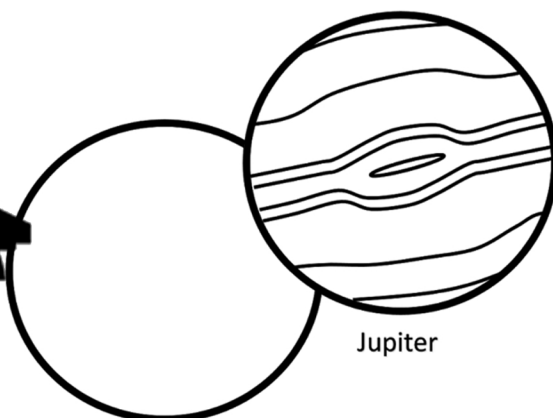

Moon

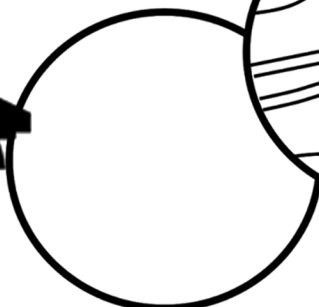

Mathematics make incredible things possible—like investigating our earth, designing rocketships, reaching out into space, and even exploring the surface of the moon! You don't have to be a rocket scientist to understand math—you just have to be willing to give it a try, and start small. Complete this 100 MINUTES of MATH Challenge to begin!

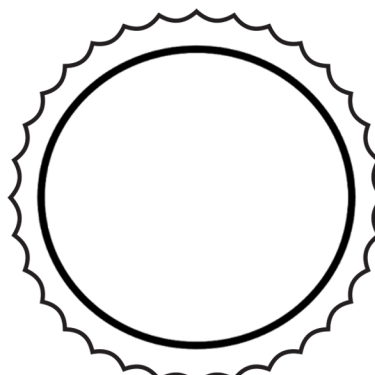

\*\*BONUS: Two of these are NOT really "planets" - do you know which ones? Circle them!

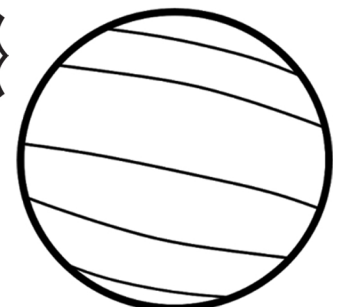

Jupiter

Uranus

Sun

Neptune
