

Grade boundaries – June 2019 exams

GCSE

This document presents grade boundaries for the GCSEs.

The first section presents subject grade boundaries for single award specifications and the second section contains the subject grade boundaries for the Combined Science double award specifications.

In the third section, notional component grade boundaries are also presented but these are for illustrative purposes only. Note that for the two GCSE Combined Science specifications (8464 and 8465), the notional component grade boundaries for the Higher tier grade 3s are actually notional grade 4-3 boundaries.

A guide to notional component grade boundaries in the new linear qualifications can be found [here](#).

Component grade boundaries – June 2019 exams

GCSE

Where component marks are scaled, two sets of grade boundaries are shown.

The first row shows the raw mark grade boundaries and the second row (shaded and italicised) shows the scaled mark grade boundaries.
